This season by the happy selection Miss Addie Claypole as assistant the school will be better than ever before.

New Restaurant.

Mr. H. Williambrink, who has been the chef of the Hotel Chattawka ever since it opened, will shortly open a restaurant in this city.

The furniture and necessary furnishings, dishes, etc., have been ordered and Mr. Williambrink expects to open the new place early in November, and he proposes to make it a first class restaurant in every particular, and as there is nothing of this kind here now it is expected that there will be good patronage given to the new place.

Mr. Paul Cordier, late of Sherry's restaurant in New York City will succeed Mr. Williambrink as chef at the Chattawka. Mr. Cordier's reason for coming South is that he wishes to be in a place where there will be somewhat less work than is demanded in the metropolis.

The Washington, N. C. Fair.

Robinson-Franklin Holiday.

Every one is on the "qui vive" over the fact that the great Robinson and Franklin Bros. Shows is coming to New Bern today.

This biggest of all big shows has everywhere met with the most enthusiastic reception, and the press of other cities do not hesitate in proclaiming it the most wonderful exhibition ever seen under canvas. In point of novelty or in the number of features, no other amusement enterprise can even approach it. Its many exclusive features make it beyond question the representative big show of the world.

It requires four massive trains of especially constructed cars to transport it from town to town, four of the most thoroughly equipped and decorated advertising cars ever built are brought into service to herald its coming, and more than one thousand people employed, besides three hundred of the finest horses ever owned by any amusement institution. There are three rings, two elevated stages and a quarter mile hippodrome track all going at one time during the performance.

The zoological display contains more rare wild beasts than any other two shows, and the largest waterproof tents ever constructed are required to properly give this massive entertainment and accommodate the vast audiences which daily throng to see the many wonders contained in these shows that can be seen nowhere else on earth.

A Thing to Boast Of.

Schoolfellows learn each others' failings if nothing else and recall after years of separation the characteristic thing about an old seatmate.

Two men who had been at school together when they were boys met and talked of old times.

"By the way," said one, "I saw Smith when I was out at Seattle."

"Did you? And what was he bragging about when you saw him?"

"He was bragging about his modesty just at that moment."

"Dear old Smith—just like him."—Youth's Companion.

COLD CURE

North Carolina Blankets!

The following from the Augusta, Ga., Chronicle speaks urgently for Southern industries and shows what North Carolina is doing:

"The Chronicle has always advocated diversified industries in the South, and maintained that success could be achieved by our people in any field they entered with intelligence and industry. The success of the Chatham Manufacturing Company, of Elkins, N. C., is a case in point. They use Southern wool and make goods equal to the best. Mr. P. D. Horkan, who has been selling dry goods for many years, and is a competent judge, has been handling their goods, and he declares he can't buy as good blankets anywhere else for the same money as those he gets from the Elkins Woolen Mills. This is high praise from a competent source. Use southern blankets. You will enjoy them next winter, for they are hot stuff."

Referring to the above we beg to say that we have received today one case of blankets as described. None better made and the actual worth of each pair is \$5.00, the price is \$3.50.
