WHEN CONGRESS MEETS

Then the President Will Likely Recognize the Cubans.

One Appointment Outside of Politics. Expect Ohio to go Republican. The Union's Pacific Brought a Fair Price.

JOURNAL BUREAU, WASHINGTON, D. C., October 29. The whole Cuban question has been postponed until after Congress meets, so far as any official action on the part of this Government is concerned. This is authentic, and was decided upon by the President and his advisers after the full reply of the new Spanish ministry reached Washington. The reply will not be made public until after it and all the correspondence with Spain has been laid before the Senate in executive session, which will be done as soon as Congress meets. The reply is friendly in tone and of such a nature as to preclude further action upon the part of this government until time has been allowed to show that the new ministry is unable to keep its promises concerning the pacification of Cuba. Few persons in Washington expect any material change to take place to the situation in Cuba as a result of the change in commanders and in the Spanish policy. The offer of autonomy will be rejected with scorn by the Cuban military leaders.

The impression is almost general that soon after Congress meets the House will take up and pass the joint resolution adopted by the Senate at the extra session, directing the President to recognize the Cubans as belligerents, and that President McKinley will promptly sign the resolution and issue a proclamation in accordance therewith. Material military successes by the Spaniards in Cuba is believed to be about the only thing that can prevent this course being taken. Although both Secretary Gage and President McKinley are political partisans they have shown by naming Prof. Pritchett, of Washington University, St. Louis, to be Superintendent of the Coast and Geodetic Survey that when a man of purely scientific attainments is required they can ignore politics.

The labor unions which protested against the Marine band being allowed to go to Chicago and play at the horse show will probably not care whether Secretary Long was influenced by partisan politics in revoking the permission given the Marine band to go to Chicago, one day and re-issuing it the next, or not, but they will get some satisfaction out of the official announcement that this is the last time the Marine band will be allowed to compete with private organizations for engagements.

While it is the general opinion in Washington that Ohio will go Republican, the arrival of a big batch of railroad tickets from Washington to Columbus and return, which are furnished free to Ohio Republican voters temporarily residing at the National Capital who do not feel able to pay their own way, indicates that the Republican managers are not suffering with over confidence.

Although there are numerous charges and counter-charges connected with the action of the administration in applying for a postponement of the sale of the Union Pacific Railroad and withdrawing the application when the committee reorganization increased its bid for the road sufficiently to guarantee that every dollar of the indebtedness of that road to the government will be paid as a result of the sale, there is a general disposition on the part of the unprejudiced public to give the administration credit for having squeezed \$18,000,000 more out of the reorganization committee than they intended to pay for the road, and consequently added that much to the amount that the government will receive. The sale of the Kansas Pacific Railroad will be postponed until December 15, and Attorney General McKenna asserts very positively that the administration is in a position to compel the payment for it of a sufficient sum to meet its indebtedness to the government. These two transactions may not be all that they ought to be, but they are so much better than they were expected to be that the tendency is to rejoice that the government will get out so well.

C., October 29.—Articles of incorporation were taken out today by the North Carolina Publishing Company which will publish the new Democratic morning paper. O. J. Carroll is one of the incorporators.

John Evans, a negro was arrested at Lileville and brought here and placed in jail, as the suspected assailant of Miss Cole at Rockingham. Her little sister says that he looks like the man. Application has been made to organize a Division of Naval Reserves at Southport, to be made up entirely of pilots.

Printers of This State Unable to Compete. Captains on the Seaboard in Trouble. Western Union Rehearing. Cotton Rates.

JOURNAL BUREAU, RALEIGH, N. C., Oct. 29. Secretary of State Thompson today advertises for the printing of the 121st, North Carolina Supreme Court, reports. This report will contain the opinions of the present session. The 120th reports were printed by a Richmond firm. There was much comment on the fact that the work was given out of the State, but local printers say that the printing houses of the State cannot compete with the Richmond firms in this class of work.

The Governor orders a special term of Civil Court for Forsythe county to begin December 1st. Judge Starbuck will preside.

Mr. Sam Waitt who came so near being killed by a street car two days ago is doing nicely at Rex Hospital here.

The Portsmouth Dramatic club under the direction of Mrs. Shipp will shortly give an entertainment here for the benefit of the Ladies Hospital Aid Association. This troupe most charmingly gave "Princess Bonnie" here last spring.

A white o'possum is something rather novel, but a gentleman here is the proud possessor of one, and will not sell it.

Three of the Seaboard Air Line conductors, captains Cherasse, Vernelson and Wilson have been notified that they will not be retained after November 1st. Charges that they passed friends beyond the limits bought are made against them. It is thought that a detective who was put on the road from Atlanta to Portsmouth and who is a Chicago man is the one who preferred the charges, but unless there was some foundation, this detective or inspector would hardly have reported them. All the conductors have been on the road for many years. It is hoped all will be cleared up.

Today the Railroad Commission heard, or rather re-heard the Western Union Telegraph Co. rate case. The telegraph company filed stipulations in regard to the remanding back to the commission which it desired the commission to sign. The governor's attorneys objected to these, and prepared others which required the telegraph company to file reports of all stockholders meetings ever since the company was formed; to show all receipts and expenses; its stocks, bonds, plants and cable lines, in fact everything pertaining to the business of the company. Attorney General Walser appeared for the Commission. Judge Halliday of Richmond, F. H. Busbee and R. C. Strong appeared for the telegraph company.

The S. A. L. today requested another hearing as to the lower cotton freight rates on its Carolina Central Division. It is claimed as unfair to make rates so high on a road which has such small earnings.

Yesterday Senator Butler spoke in the Rutherfordton Fair. He has not the hold on his party as he did a year ago. The next meeting of the Populist committee will be a lively one. Skinner leads the anti-Butler Populists.

"The Hayseeder" Otho Wilson's paper says that no more will be heard of free passes from Russell until his pocket-full expires at the end of the year. He says in the Governors free passes for himself and "family" the guests at the mansion are included. It has been claimed that over a certain road Russell has a pass book with power to insert names. Wilson calls Butler Gov. Russell's associate. He declares that there will be no peace in the Populist party unless "Boss Butler is allowed to nominate the candidate write the platform and have none who dare oppose him."

The Eastern and United States clubs field trial of bird dogs will be held next month at Newton. A Republican says that Russell has already cost the State more than any Democratic Governor since 1876. Mrs. Snowball Jackson, who is in a sanatorium is not improving. A handsome Memorial Hall to Rev. Dr. Braxton Craven will probably be built at Trinity college, Durham. Dr. Craven was the first president of the college.

SUDDEN DEATH!

Henry George Died Yesterday Morning of Apoplexy.

The Single Tax Candidate for Mayor of Greater New York Stricken on the Eve of Election. Croker Hissed in Tammany Hall.

Special to Journal. New York, October 29th.—Henry George died of apoplexy at five o'clock this morning. His followers will endorse Seth Low for Mayor of Greater New York.

New York, October 28.—Richard Croker was around today and present at Tammany Hall tonight at the first large meeting at which the Tammany manager has made his appearance. The meeting was attended by Carter Harrison and three hundred Cook county Democratic leaders.

One of the most remarkable things that has ever occurred at Tammany Hall took place just then.

Some one called for three cheers for Croker. The response was a storm of hisses that swept over the hall. Not a cheer was given, and the man who called for them thought he would try again.

In a very loud voice he called again for three cheers for Richard Croker. There was a feeble response this time, but the cheers were drowned by hisses.

Croker heard the expressions of disapproval for himself and he retired to a seat far back on the stage. Indications of a popular uprising for Seth Low continue to multiply. Every "straw vote" and every genuine poll of voters taken shows him to be in the lead of General Tracy, the Platt candidate for Mayor, and to be gaining ground rapidly on Van Wyck, the Tammany candidate.
