Cash Store,

We are
Listening

to hear "the thud" when the new hat idea strikes you. Last year's hat won't do. Not a bit of it. The hat makers are too smart for that, they have changed the shape. You can tell a '97 hat as far as you can see it. Let us show you the fall shapes and shades. Let us help you to be a '97 man.

We are also agents for the famous Knox Hats, and can sell them to you as cheap as they can be bought from the factory.

A trial will satisfy you that we are up to date.

MORMONS ACTIVE.

They Have Forty-Four Missionaries in this State.

What Bank Examiner Crowder Says. Old Veteran Gone. North Carolina Exhibit Car. Mandamus Case Argued by Simmons and Ward.

JOURNAL BUREAU, RALEIGH, N. C., Nov. 6. That the Mormons are determined to do a great deal of work in North Carolina is clearly shown by the fact that they have increased the number of their missionaries in this State to 44, and that two of the 12 Apostles will assist in holding their State conference.

Senator Daniels left for Virginia this morning, after filing exceptions to the railway commissioners rate reduction on telephone rentals. He will return on the 19th and make argument.

Prof. W. E. Abernethy of Rutherford College says he greatly desires to meet Rev. Dr. Kilgo in debate. They are well matched in intellect and force as speakers.

Bank examiner Crowder returned to the treasury department today, having examined 16 State banks in the Piedmont section. He finds them all right. In one he found \$38,000 in gold and in another \$25,000. He says there is prosperity everywhere save in the cotton growing counties.

David Pugh died this morning at the Soldiers' home. He served during the war in Company, E, 47th N. C. regiment from Wake county. He was born in Sept. 1808.

The prospects for the speedy completion of the Durham and Charlotte railway are excellent.

Gen. Clingman was buried at Concord yesterday, the pall bearers being soldiers of his old brigade. He was buried in his uniform as a Confederate brigadier-general.

The handsome car which is to go into 30 or more States to advertise North Carolina will arrive here next Wednesday from the shops at Wilmington, Delaware, so the exhibits can be placed in it.

Levi Parham, white, who was found guilty of assault in Henderson county, is the last arrival at the penitentiary. He gets 15 years. Twelve convicts were sent from the penitentiary to the cotton farm today.

It is said that 700 convicts on the farm only some 300 are able to pick cotton, owing to chills and fever.

All the families save one have been removed from the penitentiary in accordance with the recent order of the directors. Four families were living in the prison.

In the suit of John H. Hussey of Washington, D. C., against U. S. Marshall O. J. Carroll for \$100, Justice of the Peace John Nichols gave Hussey \$35. Carroll appealed. Nichols says that Carroll's offer to give Hussey a suit of clothes was evidence of indebtedness or obligation, and Hussey's making a draft on him for \$25 was evidence that that was about the amount proper.

Before Judge Robinson here last night at Chambers there was argument in a mandamus case, brought by L. A. Garner clerk of court of Carteret county, to compel the State Treasurer to pay a \$750 warrant issued by ex-Auditor Furman, in the Carteret oyster case costs matter.

Simmons and Ward and Allen appeared for Garner, and Day and MacRae and J. C. L. Harris for Treasurer Worth. The Attorney-General does not appear.

The question is asked why he never appears for the Governor or the Treasurer. The answer is that they ignore him. It is intimated that one of the reasons why he did not appear in this Carteret case is that he advised the treasurer to pay the warrant. State Treas. Worth has suffered \$1,500 to compromise these Carteret claims and from Pamlico, (the latter amounting to \$5,000), yet claims he has no money and that there is no law for its payment.

The peculiar hardship of this case appears to be that the officers who performed this service were not allowed under the express terms of the law to demand their fees in advance from the State or in other cases. But the same statute which provides that they shall not demand fees in advance from the State provided that in case the costs are adjudged against the State they shall be paid in the same way as other claims against the State.

Chairman Wilson of the railway commission today filed with the State Auditor his voucher for salary to date. Next Monday his case comes up at Morganton involving title to his office.

President Hobbs of Guilford college is here. He says the college is quite prosperous.

During October here there were only 2.88 inches of rain. The deficiency this year is 18.04 inches.

For Infants and Children.

MUST DECLARE OURSELVES.

Spain Insists That the United States Shall Take its Position Regarding Cuba.

Special to Journal. WASHINGTON, D. C., November 6.—The position taken by Spain towards the United States is considered here as indicating that the Spanish Government is determined to force this country to take an exact attitude regarding Cuba. Rather than part absolutely with Cuba the Spanish will fight the United States, though certain of defeat. Such is the obstinate Spanish temper. War will certainly ensue if we interere beyond a certain point.

Several Failures. NEW YORK, November 5.—R. G. Dunn & Co.'s weekly review of trade says: Stronger proof of the great change in the condition of business could not be given than is found in the detailed report of failures in October. Though swelled by a few large speculative or brokerage failures, the aggregate was smaller than in any other month for more than four years, except in July and August and one month in 1894. During the four years iron manufacturing failures have not been smaller except one month, wool manufacturing failures except in two months, leather and shoes and unclassified manufacturing except in four months and cotton manufacturing except in six months.

More works have joined the active list, including some long idle, and the production in iron manufacture is the greatest ever known.

Cotton manufacture is doubly hindered by decline in cotton and by accumulation of goods with slow distribution, so that print cloths have fallen to 2.31 cents, a new low record, and staple goods are sold at concessions all averaging not 2 per cent above the lowest point.

Some Accidents. NEW YORK, Nov. 5.—Senator Edward O. Wolcott, of Colorado, and Gen. Charles J. Paine, two of the monetary commissioners appointed by President McKinley to confer with European governments concerning the feasibility of establishing international bimetalism, arrived here tonight on the steamship Campania. The other commissioner, ex-Vice President A. E. Stevenson, will return on a later vessel.

Senator Wolcott asked to be excused from saying anything of his mission abroad.

General Paine also declined to speak about his European trip.

Latest News Items. All the injured in the C. and O. train wreck are doing well including Engineer Duke, who it was first thought could not live. He is improving and there is hope of his recovery.

The Cologne Germany Volks Zeitung announces that two missionaries have been murdered in the southern part of the Chinese province of Shan Tung.

The frontier war near the borders of Afghanistan approaches a conclusion. General Lockhart having nearly reached Tiroh, his objective point. The Afridis have resisted at every point but the British have uniformly carried all their positions.

It is semi-officially announced that there will be no trouble in Havana upon the arrival at this port of the American steamer Three Friends, which is alleged to have taken part in filibustering expeditions, and which is now bound to Havana on a legitimate commercial errand.

The rumor that Richard Croker was dead was in circulation in all quarters of New York Friday. It also spread throughout the country, and inquiries as to the truth of the report were received from points as far off as San Francisco. The Tammany leader has simply a slight cold.

Henry O. Havemeyer, the head of the Sugar Trust, is seriously ill with appendicitis, and an operation was performed Monday night. Disquieting rumors regarding his condition were afloat in Wall street. Sugar stock has declined 5 points in two days.

The steamer fitted out by the Governor of Tromsøe, under instructions from King Oscar, of Sweden which has left Tromsøe Island in search of Professor Andree, the missing aeronaut, and his party, is the Victoria. She carries a crew of 15 men and is provisioned for eight months.

Special orders have been sent by the War Department to the Bethlehem Iron Works to hurry up the guns that are being manufactured at that place. The Pennsylvania firm has a contract for the construction of 100 guns of various sizes, and, although it has been generally understood that very good progress has been made with them, it appears that the War Department is anxious to have them finished more rapidly than was at first intended.

Household Gods. The ancient Greeks believed that the Penates were the Gods who attended to the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of today is Dr. King's New Discovery. For consumption, coughs, colds and for all affections of the Throat, Chest and Lungs it is invaluable. It has been tried for a quarter of a century and is guaranteed to cure, or money returned. No household should be without this good angel. It is pleasant to take and a safe and sure remedy for cold and cough. Free trial bottles at F. S. Duffy's Drug Store. Regular size 50c and \$1.00.

OFF FOR CUBA.

President Tells Lee "God Speed and God Bless You."

Sails for the Island on Wednesday Wants Peace but is Ready for War. Intervention Believed to be the Only End.

WASHINGTON, D. C., November 5.—General Fitzhugh Lee, consul-general to Cuba, will leave for New York tomorrow whence he is to sail for Havana on the steamer Segurana.

General Lee called at the White House and notwithstanding the fact that the Cabinet was about to meet the President and the Consul General had a conference about Spain and the United States, which lasted about twenty minutes.

The President was very tender in saying good bye to General Lee. As he pressed the General's hand he said: "God speed and God bless you." Secretary to the President Porter and Judge Day, who were standing near, referred to the scene as quite affecting.

The President impressed on the Consul General the importance of giving the fullest protection to American citizens in Cuba and to "keep in the middle of the road." He told him that it was the administration's earnest desire to do justice to all parties concerned but to avoid war if possible.

General Lee is earnest in his desire to do all in his power to uphold the President's peace policy, but it is thought by many that he will give "If Spain wants war and forces it, then war let it be," which is simply the motto of all true Americans. Not many people here believe that the Cuban insurrection can be terminated and the fair island saved from utter ruin without strong intervention on the part of the United States government.

General Lee was met as he was coming out of the Executive Mansion and asked if he could give the substance of what was said. The jolly diplomat replied in the negative. He only said this: "The President said he wished me to remain in Cuba until the trouble was over."

"When will the island be pacified?" was asked.

"I haven't heard," was the General's answer.

The floating dry dock which the Spanish Government had built in England for use in Havana harbor was sighted off the Cuban coast in tow of a British steamship. The dock was built on the Tyne and was towed the entire distance in sections across the Atlantic without a serious mishap. A southerly course was taken to avoid storms on the ocean which prevail at this season.

Settled at Last. COLUMBUS, Ohio, November 6.—The Republican majority in the next Ohio legislature will be fire.

The plurality in Wood county is 31, according to the official count. There are ten counties in the State which give a plurality each of less than 10 in their respective legislative tickets.

The Light of the World!

"SUNLIGHT."

Is Easily Adjusted to Any Gas Fixtures.

Half the Cost of Ordinary Gas Light.

The "Sunlight" Company

IS WORKING UNDER ITS OWN PATENTS AND IS NO INFRINGEMENT. . .

What the Philadelphia Times says:

"The 'Sunlight' Lamp is said to be entirely superior to the Weibach Light as it gives a more natural color to objects, and does not create the ghastly appearance that the Weibach Light does. It is furthermore worthy of note that the 'Sunlight' Gas Lamp Mantle will last twice as long as any other and that it will increase the light at one half the cost for gas."

The "Sunlight" Light is brilliant, mellow, and gives all objects in their natural color, resting instead of straining the eye.

Order the "SUNLIGHT."

Beware of Imitations.
