### Too Much Cotton Offered.

NEW YORK, November 8.—Walter T. Miller, treasurer of the New York Cotton Exchange, who returned from Europe a few days ago, made the following statement today concerning the cotton market abroad:

"I found the general situation with regard to the trade and commerce favorable and by no means unsatisfactory, as I understand has been the impression in America for the past month or two. Certainly in England and on the continent just the contrary was the case. As to the prices of manufactured goods, of course buyers decline to buy long stocks so long as the South persists in offering cotton down. When enough of the cotton is marketed to relieve the producer and he feels able to hold some cotton, buyers of manufactured goods and traders in cotton will probably be anxious to invest."

### Getting Ready.

READING, Pa., November 8.—As part of the busy preparations for war the Carpenter Steel Works, in this city, was kept running day and night last week turning out steel projectiles for battleships and for harbor and coast defense. By working the factory double turn it is expected the concern will be able to meet the Government's demands as they were presented at the time the contract was awarded.

It is understood that in a few days a number of United States officers will visit the works to inspect the projectiles and leave orders as to their destination.

### HE WANTS INTERVENTION.

Dan Sickett Joins With Taylor in the Demand.

NEW YORK, Nov. 8.—General Daniel E. Sickett, who was United States minister to Spain from 1869 to 1874, makes an interesting contribution in a letter to the Herald, to the controversy over the Cuban question, which Mr. Hannis Taylor has done so much to enlighten.

In upholding Mr. Taylor's position, both as regards propriety and the conclusions set forth, General Sickett disclaims emphatically any "jingo" spirit. He sees a solution of the Cuban problem only in intervention by this country, and hints that the State Department in Washington approved, if it did not inspire, articles which have created violent excitement Madrid.

General Sickett was questioned this evening as to what he thought of Senor Castelar.

"Senor Castelar is a living exemplification of the truth that, so far as Cuba is concerned, all parties and all statesmen and all forms of government in Spain are alike. There has been no substantial change or improvement in the condition Cuba during the present century. The vicissitudes of Spanish rule in the island are incurable and permanent."

### Most's Incendiary Talk.

NEW YORK, November 8.—The Anarchists of this city to-night celebrated the tenth anniversary of the execution of their comrades in Chicago by a public meeting in Clarendon Hall. There were about five hundred Anarchists in the audience.

John Most, president and read his speech from manuscript. He was interrupted several times, but when Most's face flushed, and he shouted, "Put that dog out," the voice was not heard again. Most spoke of the Caine of capitalism, which, he said, congratulated itself that the social revolution had been squelched and that peace and order prevailed. He wanted to tell them that the Anarchists were not gathered together to shed tears, but to sing a song of triumph for the future, which is not far off. "The spirit of the revolution must and will endure until the spirit of tyranny shall be crushed under the triumph of justice and humanity, and peace will prevail," said the speaker.

IS WORKING UNDER ITS  
OWN PATENTS AND IS  
NO INFRINGEMENT. . . .

What the Philadelphia Times says:

"The 'Sunlight' Lamp is said to be entirely superior to the Weibach's Light as it gives a more natural color to objects, and does not create the ghastly appearance that the Weibach Light does. It is furthermore worthy of note that the 'Sunlight' Gas Lamp Mantle will last twice as long as any other and that it will increase the light at one half the cost for gas."

The 'Sunlight' Light is brilliant, mellow, and gives all objects in their natural color, resting instead of straining the eye.
