On Saturday Mr. Albert Johnson, aged 85, died at his home here. Two days before he was on the street. Mr. Johnson was the oldest locomotive engineer in the world. His hand was on the throttle of the first railroad engine that ever entered Raleigh. That was in 1839. He has held many responsible positions, and of late years as his bent form was seen on the streets supported by his tall walking stick, there was always a reverent greeting from old and young for the honorable old man. He was buried with Masonic honors yesterday.

Complaint is made, that on account of the decayed conditions of some of the floors in the Capital, the steam heat produces such an offensive odor that the steam cannot be used. It will be reported to the State Board of Health.

Yesterday was indeed a lovely day. The sun shone warm, and like a May day. "The world and his wife" turned out.

The tobacco market opened here about Sept. 1st, and it will continue until March. Raleigh is a good market for the weed, but the business men do not show any special interest in the breaks. The prices have been good. The lower grades have sold particularly well. By the end of the season it is estimated that the sales will run up to 2,500,000 pounds. This will be about 1,000,000 pounds over the sales of last season.

The Frances Hughes Concert Company of Chicago appear here on the 8th for the benefit of the Presbyterian church. On the 9th De Wolf Hopper is here in "El Capitan." The sale of seats \$1.50 and \$2.00 have been very large. The Terpsichore German club of the A. & M. college and the Euphrosyne German club composed of the younger society boys of the city will both give Germans on Friday night.

Auditor Ayer is about half through signing the pension warrants. These warrants, 5,788 in number, amount to \$102,000.

J. R. Barnes of Rocky Mount who is held here in jail for attempted assault is sick, and asks to be put in the penitentiary hospital. Up to yesterday Sheriff Jones declined to give the prisoner up without an order from the court.

It is possible that the Supreme court may render a decision in the R. R. commissioners cases tomorrow, but it is doubtful.

A large white owl was killed in Hyde county last week and sent to the State museum. It has been handsomely mounted by taxidermist Brimley of the museum. It is said to be an arctic owl and is the second one ever seen in this State.

The Grand Lodge of Masons for North Carolina will meet in Oxford on January 11th, 1898.

Federal court began here today with 110 criminal cases on the district docket and 73 cases on the circuit court docket.

The order of Railway conductors to this division held a large meeting here yesterday.

John C. Davis, the Wilmington embleser to be discharged from the insane Asylum. Many people have never believed that he was insane.

The penitentiary authorities will have truck and strawberry farms on quite a large scale on the Castle Haynes farms.

The Supreme court has never filed an opinion in the Satterfield case.

SAN FRANCISCO, Cal., Dec. 5.—Mr. Toru Hoshi, the Japanese minister to the United States, has arrived here on the steamer City of Pekin. He says:

"Japan is emphatically opposed to the annexation of Hawaii by the United States. There may be serious trouble if the United States takes the islands without provision being made for caring for our interests."

We have claims against Hawaii which must be respected by the United States.

"We will insist that our claims against the islands be respected. I have my instructions as to what course to pursue in the event that the islands are annexed, but of course I will refrain from disclosing them."

Washington, Dec. 5.—Congress will concur in the wishes of the President and give a fair trial to Spain's new scheme of autonomy for Cuba. Canton, O., Dec. 5.—Mrs. Nancy Allison McKinley, or "Mother McKinley," as she is affectionally known, passed the fourth day of her illness with the spark of life dimly burning. ## PRESIDENT'S MESSAGE.

Listened to by Congress in Regular Session.

Currency Reform is Strongly Advocated by the President. To Break the "Endless Chain." National Banks. On Cuban Affairs. Hawaii.

Special to Journal.

WASHINGTON, D. C., December, 6.—The long session of Congress opened today at noon. The House was called to order by Speaker Reed and after prayer by the chaplain, the clerk was directed to call the roll of the members.

A quorum being shown to be present, the Senate was notified that the House was ready for business and a committee was appointed to wait upon the President.

A short recess was taken to await the arrival of the President's message. Upon its arrival the House met and the message was read, after which the House adjourned until tomorrow.

The President in his message strongly advocates currency reform and says that its need is most pressing. He recommends that notes for redemption, known as greenbacks, be set apart and that they only be paid out again in exchange for gold.

The President recommends that National Banks be permitted to organize with a capital of \$25,000, and that they be allowed to issue notes to the face value of the bonds that they deposit.

The President goes into the relations of the United States with Spain and says that this country cannot wait indefinitely for the conclusion of peace in Cuba.

The annexation of Hawaiian Islands is advocated and the President recommends that local self government be given to the inhabitants of the Islands.

A section of the message is devoted to the bimetallic question and the President expresses the opinion that the matter may yet reach a settlement.

The quarantine laws are touched on and Congress is urged to pass better laws for enforcing yellow fever quarantine regulations.
