If you want full value for your money give us a trial and we will please you and save you money.

Very Respectfully,
J. R. PARKER, JR., Wholesale and Retail Grocer.
Phone 49. 77 Broad Street.

NEWS COMING!

GENERAL LEE HAS IMPORTANT INFORMATION FOR THE PRESIDENT.

The Investigation at Havana Fully Half Made.

Railroads Prepared to Handle Troops. The National Guard is Arming. Many Men Available on Short Notice. Inspection of Ports.

Special to Journal.
JACKSONVILLE, Fla., Feb. 23.—Senator Proctor, former Secretary of War, was sent by the President to meet Consul General Lee on board the torpedo boat Cushing at Key West.
Lee has information to be communicated to the President that is regarded as too grave to be entrusted to the wires even in the cipher code.
Senator Proctor arrived here quietly this morning. A special train to carry him to Tampa awaited him on his arrival in this city.
Havana, February 23.—(Special.)—The court of investigation of the Maine disaster expects to have covered half the ground of the investigation this evening. The members of the court of investigation expect to leave Havana for Key West on Saturday.
Consul General Lee denies that it is his intention to leave for Washington.
New York, Feb. 23.—(Special.)—Major General Merritt, commanding the Department of the East left today for an inspection of the coast defenses on the Atlantic coast in the South.

His trip caused a sensation among army officials. They express themselves as believing that his mission is of far greater importance than a regular annual inspection.
It is stated by those in authority that work on Southern fortifications is not progressing as fast as is desired.
Jacksonville, February 23.—(Special.)—Under orders from the Adjutant General, the Naval Reserve Militia of Florida leave tomorrow on a military mission down the coast to locate signal stations at available points.
Washington, February 23.—(Special.)—All the southern railroads are giving to the government estimates of the number of men and the quantity of munitions of war that they can handle in a given time and at short notice.
Major General Rae, Commander of the National Guard had a long conference with Captain Miller, commanding the Naval Reserves of New York State, who went from New York to Albany for that purpose.
He reports that the State of New York can mass thirteen thousand eight hundred men on ten hours notice.
The National Guard is recruiting all over the United States as shown by the reports sent in to the commander.
The Holland submarine torpedo boat at Baltimore has been sent orders to be completed this week.

Believe it No Accident.

Opinion Changing on That Point. Evidence Coming to Light. Americans Warned to Leave Havana.
HAYANA, February 23.—According to reports the further the inquiry into the causes which led to the Maine disaster proceeds the more remote appear the chances that any evidence will be discovered to show that the United States battleship was destroyed by accident.

Before the explosion the ten-inch magazine was located on the starboard side forward and beneath the forward turret. What is left of the magazine seems to have been driven toward the port bow in a diagonal and upward direction. The 24-inch magazine, which had its location in the port side of the ship forward, was hurled in a direction directly opposite to that of the ten-inch magazine.

One important discovery made was the position of the corpse found in the wreck, one hundred of which were floating about the torn compartments. All of them were in hammocks, and all had the arms curved upward as if they had been

startled by some sudden shock of danger and were in the act of reaching up for their hammock hooks to swing themselves on deck when death came. This seems to confirm what has already been said about their having been two explosions—the first startling the men into the act of arising from their hammocks, the other dashing the life out of them while they were in that position.

The theory of two explosions is borne out by the testimony of Senor Antonio Caballero, a well-known tobacco dealer of Havana. Senor Caballero was crossing the bay in a ferryboat at the time of the disaster. He was familiar with the Maine, having paid several visits to that craft, and was pointing out to a group of friends on the ferryboat her peculiarities, when there came, he said, a dull report from the forward part of the ship, the upheaval of a geyser of water about the boat, followed almost instantly by a terrific roar and a blinding flash of light. He is positive about the first explosion and says that it was noticed by his companions.

Americans in Havana have been quietly notified by Consul General Lee that it might be well to take their families to a place of safety. These precautions were taken in view of the fact that there is strong suspicion that the volunteers and Weylerites have been inspired to create trouble in case the Maine inquiry proves that the catastrophe was due to design.

Every one here believes that a crisis will follow close upon its conclusion. The Spanish authorities realize that Spain is perilously near a rupture with the United States and suppressed excitement is felt in the air.

Letters Received by the State Department Now on File. Secretary of War at His Department. Navy Officers Ordered Home.

Special to Journal.
WASHINGTON, February 23.—Consul General Lee has reported to President McKinley that the plan of autonomy proposed to the Island of Cuba by the Sagasta ministry at Madrid is a dismal failure.

Lee gives his reasons in detail for the conclusions arrived at. The letter is on file in the State Department.
It will be recalled that the President in his message to Congress asked for time to be given to Spain to demonstrate the working of the plan of autonomy. He also intimated in the message that in case of failure another step would be taken by this country.

It is thought that the letter may be sent to Congress in response to the Senate resolution calling upon the President for the official correspondence of General Lee.
Secretary of War Alger returned to this city and took charge of the War Department today. He has about recovered from his severe illness.
Orders have been sent to the United States Embassy in London for all officers of the United States Navy at present on leave in England to return to their ships at once.

A Postmaster Killed.
Columbia, S. C., Feb. 22.—At Lake City, Williamsburg county, at 1 o'clock this morning, the house of Postmaster Baker, colored, and his family was burned. The postmaster and a baby in arms were shot and killed and his wife and three daughters were wounded.
Baker was appointed postmaster three months ago. This was done in the face of a protest.

Costa Rica at War.
Special to Journal.
COLON, February 23.—The President of Costa Rica has announced that war between Costa Rica and Nicaragua is inevitable.

Bucklen's Arnica Salvo.
THE BEST SALVE in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by F. S. Duffy.

The Chinese Loan.
Berlin, Feb. 22.—It is announced that the Chinese loan of £16,000,000 (\$26,000,000) has been arranged with the Hong Kong and Shanghai Bank, of London, and the German Asiatic Bank.

RUSSELL WRATHY.

Receives Press Criticism of His Unsavory Actions.

Interest in Raleigh on Several Questions. Democratic Committee Meeting. Russell to be Impeached. Butler Fighting Ewart.

JOURNAL BUREAU.
RALEIGH, N. C., Feb. 23.
The wrathful remarks of Governor Russell concerning the criticisms of him in the New Berne JOURNAL are considered to be in his usual vulgar style. The News and Observer contains the following on the matter:
"The Governor wished his compliments to be sent to Editor Stevens in the following language: 'You may say that that fellow Stevens is a carpet-bagged scoundrel!'"
Interest was divided here on yesterday between the news from Havana, the meeting of the State Democratic Executive Committee; and the work of the directors of the Atlantic and North Carolina R. R. at their meeting in New Berne. The news from the latter which tells how the directors removed Robert Hancock as president, and his open letter to Russell in retaliation was read with interest.

The meeting of the Democratic Executive Committee was quite a full one. The State Convention was called to meet here in Raleigh on the 28th day of May. The committee passed several resolutions one, endorsing National Chairman Jones idea of uniting the silver forces, and another, asking all white electors, who desire the restoration of Anglo-Saxon supremacy and honest government in North Carolina, to participate in all Democratic primaries and conventions. Only the resolutions were given out for publication.

Ex-district Attorney Aycock and his assistant Mr. Spruille yesterday transferred to the office over the newly appointed District Attorney Claude Bernard.

It is stated that no matter what the next legislature may be, Democratic, or Republican the impeachment of Russell as Governor is certain. This remains to be seen. Republicans here today say that Russell is out of their party—that he is simply a free silver man.

Quite a party of Raleigh people went up to Pinehurst, yesterday the guests of Mr. Tufts the owner and manager of Hollywood Inn to join in a celebration of Washington's birthday.

On Monday night a dwelling was entered while the occupants were out, and quite a lot of jewelry and silver was taken. The thief yesterday went to the leading jeweler here and offered some of it for sale. It was recognized and the thief was shadowed and arrested as he was boarding the train for Charlotte.

Senator Butler does not "let up" on his fight against Judge Ewart. One of his chief arguments is that Ewart is utterly unqualified for the position he is seeking, at the hands of the government.

The Watauga Club met last night and discussed two questions: First, How the roads in North Carolina can be improved; and secondly, the consideration of the establishment of a textile department in the North Carolina Agricultural and Mechanical College here.

The State to day has granted charter to the Wilmington Tariff Association. Its object, is the adjustment and settlement of bills, charges and rates on railroads for freight and passengers.

The flag of the 4th Regiment of North Carolina Volunteers which was captured at Antietam by a commander of the New Hampshire regiment has been returned to the State, and is now at the Adjutant General's office. The flag is of dark blue silk, with the Coat of Arms of North Carolina in oil in the center, and the words "Fourth Regiment North Carolina Volunteers" above and below the Coat of Arms.
