THEORIES VANISH!

AS THE CONDITION OF THE
MAINE'S HULL IS SHOWN.

Boiler Explosion is Given up by
the Wise Men.

Was There Subterranean Passage
in the Harbor?

Unexploded Powder Cans Found.
Bottom of Vessel Blown Up.
Monitor "Terror" Under Secret Orders. Examination by Electric Light in Progress.

Special to Journal.
HAVANA, February 24.—The divers in their examination of the battleship Maine find no bottom in the forward part of the vessel.

The evidence that a mine was exploded continues to multiply, at each visit of the divers to the sunken ship. The grate bar, from the waist of the ship was found forward of the magazine. This would have been blown aft had the Maine's magazine exploded. More cans of powder, which was used by the six inch guns, were brought up today.

Tampa, Fla., February 24.—(Special).—Two or three Cuban spies, will it is reported, appear before the Court of Inquiry, and testify that in some old warehouses on the shore, near where the Maine was buoyed, wires and apparatus were found, and under the circumstances, the discovery points to a plot having been formed to blow up the Maine.

London, February 24.—(Special) Holders of Spanish bonds were greatly alarmed, today. The announcement comes that the Bank of Spain will only take the coupons due in April with recourse.

This causes financial embarrassment. Havana, February 24.—(Special).—The latest dispatches from Madrid, confirm the reports that the home government agrees to an amplification of the Autono-

DANGER IN SODA.

Serious Results Sometimes Follow its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice almost daily, and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach trouble gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it accumulates in the intestines, causing death by inflammation or peritonitis.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20 grain lozenges, very pleasant to taste and contain the natural acids, pepsines and digestive elements essential to good digestion; and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuert states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite, increase flesh and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in any stomach trouble except cancer of the stomach. All druggists sell Stuart's Dyspepsia Tablets at 50c per package.

A little book describing all forms of stomach weakness and their cure mailed free by addressing the Stuart Co. of Marshall, Mich.

mous Constitution, which makes it complete autonomy.

The distress in Cuba grows because it receives no attention.

The rigid press censorship is causing great delay in the news.

New York, February 24.—(Special).—Evening telegrams by Havana cable, say, that there is a subterranean passage under the harbor at Havana.

Portsmouth, Va., February 24.—(Special).—United States double turreted Monitor Terror, fired a salute while moving out of the harbor, today. The Terror's captain has sealed orders, which are not to be opened until the war vessel is at sea. Until the Terror reaches the Atlantic ocean, her captain will be unable to learn her objective point for sailing.

Washington, February 24.—(Special).—In the submarine search on the battleship Maine, electric lights will be used and the camera will prove the discoveries made by the divers.

The State Department received in today's mail from Havana the official communications made by Captain General Blanco to General Lee, immediately following the Maine disaster.

New York, February 24.—(Special).—The coaling of the Vizcaya is proceeding quickly. It will require until tomorrow to complete the work.

Richmond, February 24.—(Special).—Five car loads of ten and twelve inch shells have been shipped to New York today from the Tredgar Iron Works.

HAVANA, CUBA, Feb. 23.—There is now little doubt that the report of the board of inquiry investigating the cause of the wreck of the Maine will be to the effect that the prime cause of the explosion was a submarine mine or a torpedo dragged under her keel. The board can hardly come to any other decision from the evidence that will be piled before it. The unofficial testimony of the officers, who gave it as their belief that something from beneath had caused the explosion of the forward magazine, has been borne out by the report of the divers from the first day they went down into the forward part of the ship.

Among other things found at the bottom of the harbor were several cans of powder perfectly intact. Had the explosion first occurred in either of the forward magazines every grain of powder, it is argued, would have disappeared, but if the explosion first came from the outside the cans might easily reach the water without exploding. Besides the powder cans the board may have other evidence.

The probabilities are that the board of inquiry will go to Key West within forty eight hours. Its settings will be resumed there, but the testimony there elicited, it is believed, will not be of a character, either to add materially to the facts already established, or to alter conclusions already practically reached.

Letters received today from officers lately attached to the Maine state that the two after boilers in the after-boiler space were all of the eight boilers of the Maine that were under steam at the time of the explosion. This fact has a negative value, for it disposes of the theory that an exploding boiler caused the wreck. The experts all say that no possibility could the after boilers' explosion have wrecked the forepart of the Maine and left the afterpart almost unharmed.

Tomorrow, after the expert deep sea divers of the wrecking company have visited the bottom, it is hoped it may be definitely determined whether it is possible to get the ship out of Havana harbor and bring her home. If half of the vessel is gone, it is not thought to be within the power of any wreckers to possibly get her ribs even as far as Key West.

LEASE IS OFF.

For the Present at Least Southern
Railroad Withdraws.

Negro Evans Again Reprieved. More About Passes. A Langdon in Trouble. Early State Convention. The Exposition Car.

JOURNAL BUREAU.
RALEIGH, N. C., Feb. 24.

The act of the Railroad Commission in reducing the passenger rates for all the leading roads in the State has made the Southern Railroad declare the negotiations for the lease of the Atlantic and North Carolina R. R. from the State are off for the present at any rate. Whether Governor Russell will make another proposition is not known.

Robert Hancock dares the Governor to call a special session of the legislature to investigate the charges that he (Hancock) makes against the Governor. There is little chance though, that the legislature will be convened, for with feeling running as high as it does now, in regard to the Russell-Hancock matter impeachment would almost surely follow.

The Monday Evening Literary Club, which was to have met this week at Mrs. J. M. Hicks was postponed on account of the death in Asheville of Mrs. George Hicks. It will be held on next Monday at Mrs. W. E. Holloman's.

The man who broke into Mr. Wolcotts residence, on Monday night, and was arrested on Tuesday is wanted in Petersburg. Here he is known as a Dill, there he is known as Hayes. He says he has wealthy relatives at his home in New York which will back him and see him through his trouble here.

Again the negro John Evans of Rockingham has been granted a reprieve. He was to have been hanged on the 26th, but it is postponed until March 26th, so as to allow time to examine some very strong evidence looking to his innocence.

Chairman Caldwell of the Railroad Commission has asked, that the number of passes, issued by the Seaboard Air Line during 1892 be made public. The number of trip passes, and annual passes to the employees of the road is said to be 15,165.

Those who went up to Pinehurst on Tuesday have returned, and report a most pleasant and patriotic time.

The Supreme court on Tuesday evening handed in an opinion as to Judge Ewatts court, jurisdiction. The decision says that Judge Ewatts court has not concurrent jurisdiction with the Superior courts.

James G. Langdon, a son of Samuel Langdon whose name is so familiar here in connection with the Langdon-Henzy suit regarding the Cumcock coal mines, got two gentlemen of the city to endorse a \$300 check for him signed by S. P. Langdon, last week. Now the endorse-

ment is protested, and that James C. Langdon had forged the name of his father S. P. Langdon. Telegrams have been sent out to try and arrest young Langdon.

There is very good prospect that the penitentiary here will be made a Federal prison, and all convict, sentenced by the U. S. court through the Southern States will be sent here.

It is said that Robert Hancock announces that he will be a candidate for the Clerk of the Court of Craven county, at the election next Fall.

Every one seems pleased with the fact that the Democratic State Committee called the State Convention so early. There will be ample time given for some very plain talking.

The flag of the 4th regiment N. C. Volunteers, which has been returned to the State is on exhibition in a store window here. It is in a few days to be formally presented to the State.

The N. C. Rolling Exposition car is doing finely. It is drawing much larger crowds than its owners expected.

The delay in giving to the public the penitentiary report for 1892 is creating comment. People are anxious to see it.

Walter E. Faison of Raleigh is elected president of the State Council of the Junior Order of American Mechanics.

The organ of the Knight of Pythias in North Carolina which has been published here will be moved to Charlotte where there are 300 Pythians.

ZOLA FOUND GUILTY.
The Nolleit Sentenced in a Year in Prison and Fined 3,000 Francs.

Paris, February 23.—After a trial occupying fifteen days, Emile Zola has been found guilty of defaming a body of French officers and sentenced to one year's imprisonment and 3,000 francs fine. It is worthy of note that while the announcement of the verdict was received in the court room with applause and cries of "Vive is Arnee," the audience heard the judge pronounce sentence in silence.

M. Zola, on hearing the verdict, cried "they are cannibals."

Frantic bravos greeted the announcement of M. Zola's sentence, and a scene of intense excitement followed. M. Laborie, M. Perrux and some of the others present embraced M. Zola.

There was extreme tension in court while the jury was out, and the public was on tenter-hooks until the verdict was rendered. Then the people present burst out into tremendous applause.

In the meanwhile all the approaches to the Palace of Justice had been cleared, the police commissary charged with the safety of M. Zola, having declared that he could not guarantee the latter's safety until the streets were in thorough control of the police.

Carolina Worm Killer!

Safest and
Most Reliable!
25 CENTS AT
Bradham's
Reliable Drug Store.

A Long Time Ago

Someone asked:
"Miss Mary, quite contrary,
How does your garden grow?"
Such a question is aggravating after the garden is planted and there is found to be something the matter with the seed.
We don't believe there will be any trouble if you come to us for GARDEN SEED.

We have LONDRITH & Son's SEEDS, and they are all fresh. We would not keep them if they were not.

Davis' Pharmacy.
