LEAKING OUT!

Substance of Investigation as Told by the New York Sun.

CRITICAL TIME AT HAVANA.

Weylerites are Likely to Make Trouble. Americans Fear Harm from Storm Delayed Work on War Going on. Special to Journal. New York, March 3.—The correspondent of the New York Evening Sun sends the following special: "President McKinley and his Cabinet know positively that the Maine was blown up on the outside. Reports to this effect have been received from the court of inquiry. Information of such a message being received has been gained from an official who has read the message. This information is from a source that is absolutely reliable and a report was sent in return that the policy of the administration would be perfected and everything would be ready for action when the full report of the court of inquiry is made public. This report forms the basis for action now being taken by the administration in fortifying the sea coast and in assembling the fleet of warships in the gulf and in purchasing ammunition and securing options on cruisers that are on sale by English builders. The report also forms the line of action now under consideration by the President and his advisors." The New York World says that the indication is stronger that Secretary Long will be asked to leave the cabinet on account of the ill advised expression of his personal opinion that the Maine was destroyed accidentally. Congressmen are very angry that a member of the cabinet should have made such a statement regarding the heroes on the ill fated Maine before the board of inquiry had made its report. General Merritt, commanding the department of the east, is suddenly returning to this city, after leaving on a tour of inspection of the coast fortifications. He did not get as far as Key West as was intended. Havana, March 3.—(Special)—The situation in Havana has become decidedly more alarming during the last twenty-four hours. The arrival of the warship Viscaya Tuesday night aroused all the latent enthusiasm in the city became really for an outbreak. The officials at the palace are really more alarmed than the foreign residents as they did not know what directions the demonstration that seemed imminent might take. Cheers for former Captain General Weyler are frequently heard in the streets. The American colony however is anxious to have another warship here. They express the belief that the lives and property of Americans are in greater danger than ever before. The Spaniards in Cuba are jubilant over the Maine disaster and it is feared by Americans that these loyalties may break loose at any time. Operations on the wreck of the battleship were delayed today by heavy thunder storms. Key West, March 3.—(Special)—It is expected that the board of inquiry will return to Havana tomorrow. The big demonstration at the funeral over the victims of the Maine's disaster was abandoned. Probably a special day will be assigned later for a demonstration. The postponement was made because all the dead had not been brought from Havana. Admiral Sicard wanted to have it a naval funeral. Washington, March 3.—(Special)—The government has closed another contract for one million dollars worth of powder.

THE STATE CAPITAL.

Annual Report of Adjutant is Out.

Goldboro Hospital Reported in Good Condition. Spears Takes Oath of Office. Defearer of Confederate Monument Caught. JOURNAL BUREAU. RALPH, N. C., March 3. The annual report of the Adjutant General is just out. The Adjutant general, the Inspector general, the Quartermaster general, the paymaster general, the surgeon general; the report of the commanding officer of each of the four regiments, and of the naval reserves are all embodied in this book. In the book is a report to the Secretary of War, made by Maj. Hayes the U. S. Army officer stationed here—in which he recommends that better rides be furnished the State Guard. He says further that the Governor desires the State appropriation increased, and that it is confidently expected that the legislature will so act. Mr. G. B. Alford of Holly Springs was yesterday made president of the Cape Fear and Northern Railway.

A PECULIAR FACT

Thousands of People Have Dyspepsia in its Worst Form and Do Not Know It. A weak stomach is the cause of about nine-tenths of all disease, yet in most cases the wrong thing is treated and the true cause overlooked. This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body: poor digestion causes heart trouble, kidney troubles, lung weakness and especially nervous breakdown or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, wholesome food. Keep the digestion good and no one need fear the approach of disease. Mrs. H. M. Lee of Rochester, N. Y., writes: For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered inexpressibly. I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by the condition of my nerves and stomach, in short, chronic nervous dyspepsia. I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in my small way, helping on a good cause. Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food. All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure. Send to Stuart Co., Marshall, Mich., of little book describing cause and cure for stomach troubles giving symptoms and treatment of the various forms of indigestion.

COUN Piano & Organ Co., New Berne, N. C. Gentlemen—It is with real pleasure that I note your having again secured the agency of the meritorious "Mehlin" pianos. I only wish that those of our home people who are desirous of purchasing a piano would intelligently investigate the genuine merits of this kind of pianos. It possesses, indeed, all of those remarkable characteristics which have made the Chickering, Steinway and other first grade instruments so justly celebrated—easy, delicate touch, full and evenly balanced tone, sympathetic to the veriest shade of feeling—a perfect Wagnerian tornado or a Chopinesque zephyr, at the will of the performer. In my opinion the Mehlin is slightly in advance of any other piano. It must be investigated thoroughly before it can be fully appreciated. When we consider that its cost is far below that of the old line first grade pianos, we must be astonished that intelligent purchasers will pass it by. As for the pianos that were famous in this section ten to thirty years ago, I am simply astonished that people will consider them even as second grade instruments. As a matter of fact, these old celebrities are far behind the times—in one or two conspicuous instances being ridiculous in comparison with such a marvel as the Mehlin. It affords me pleasure to write you this, and, as I do, entirely and wholly a voluntary act. Fill our homes with Mehlin's, and you will do us more good than all the hosts of ancient and honorable defective pianos could in a century. With best wishes, CHARLES L. GASKILL.

Trouble on the Klondike.

VICTORIA, B. C., March 3.—The British flag has been raised at Summit Lake in the Klondike country. Martial law is proclaimed at Skagway, United States troops are enforcing it. Two Klondike miners have been frozen to death while endeavoring to make their way back to the United States. They had with them when found 100,000 dollars in gold.

ROYAL BAKING POWDER Absolutely Pure

In Time of Sickness

A hot water bottle is a necessity. In time of health it is a comfort and a luxury. The family without one is without a good friend. The family with one is the family that knows the value of such a friend, and is the family that is safeguarded against sudden attacks of illness, such as colds, chills, cramps, pain, inflammation, etc. These bottles are not expensive, as some people think. They are cheap—very cheap when you consider their usefulness. We can give you one for 25c, or larger and better ones for \$1, \$1.25 and \$1.50. A combination hot water bottle and syringe for \$1.75, or a fountain syringe alone for 65c. We would like to know more, come in and we will be pleased to show you the goods.
