## WILL HIT HARD.

### Spain May Be Struck In The Philippine Islands.

Millions of Gold Coming From Europe. Spanish Fleet at Cadiz. Arrival of a Warship at Havana. Buying of Ships by Spain.

Special to Journal. WASHINGTON, March 5.—It is announced at the Navy Department that the cruiser Baltimore, the flagship of the Pacific fleet, would reinforce the Asiatic squadron at Hong Kong and will carry powder and projectiles for the other ships.

This signifies that the intention is to descend upon the Philippine Islands should war with Spain be declared.

The work of the board of inquiry is nearly completed, it is now claimed. Several weeks may elapse before the verdict on the disaster is known. When the board reports each member will give his official opinion.

Meantime the work of putting the army in complete condition is going on. Fortifications on the coast are being perfected as fast as possible. Every available vessel in the navy is being prepared for service.

It is reported that the President is liberating with his advisors to give Spain until May first to settle the war in Cuba.

No further attempt is being made by officials to conceal the intended purchase of ships and armament by the government. The Secretary of War had a conference last night with General Miles concerning the coast defenses.

New York, March 5.—(Special.)—The great flow of gold from Europe to this country is taken as an indication that bankers are preparing for an emergency.

The amount now in transit is six and a half millions. Still larger shipments will follow.

Madrid, March 5.—(Special.)—The Spanish squadron being assembled at Cadiz consists of three torpedo boats and three torpedo destroyers besides the other vessels of the fleet.

Havana, March 5.—(Special.)—The first class cruiser Almirante arrived from Spain in the harbor today. The ship received a hearty welcome from the civil and military authorities.

Norfolk, Va., March 5.—(Special.)—It is

### A PECULIAR FACT.

Thousands of People Have Dyspepsia in its Worst Form and Do Not Know It.

A weak stomach is the cause of about nine-tenths of all disease, yet in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body: poor digestion causes heart trouble, kidney troubles, lung weakness and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, wholesome food. Keep the digestion good and no one need fear the approach of disease.

Mrs. H. M. Lee of Rochester, N. Y., writes: For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered incessantly.

I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have been free from suffering caused by the condition of my nerves and stomach, in short, chronic nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in my small way, helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure.

Send to Stuart Co., Marshall, Mich., for little book describing cause and cure for stomach troubles giving symptoms and treatment of the various forms of indigestion.

reported that the wrecking tug Underwriter has been lost off Cape Hatteras on the way to Havana.

London, March 4.—Spain has purchased two cruisers which the Armstrongs have been building for Brazil, the Amazonus and a sister ship, unnamed, of 4,000 tons each, twenty-three knots and ten guns.

Spain is also negotiating for and will probably secure two cruisers of a similar type which have been building in France for Brazil.

## POOR NORTH CAROLINA!

### Such is the Cry Within the State's Borders.

### Still Waiting for Office The Fertilizer's Tonnage Tax. Want better Teeth. New Office Created. Wheat 'Crop Prospects.

JOURNAL BUREAU, RALEIGH, N. C., March 5.

The Manufacturers-Record has an article that is headed "Poor North Carolina" and the writer proceeds to lay out the Railroad commission. It is not only the Record that says "Poor North Carolina," but it is heard all over the country and indeed it is felt over the whole State. If this administration does not make the Democrats get together, and put aside all idea of fusion, then we not look for any relief. Fusion means other than Democrats holding office, and that is not what is wanted.

All who attended the New Berne Fair report a fine time, and a lovely exhibit. Ed. Johnson, the negro who expected to get the clerkship in District Attorney Bernard's office is still without his commission, and unless there is a modification of the civil service law some one else will step in.

The fertilizer tonnage case which is being argued before the U. S. Supreme court is a very important one to the State.

It is claimed by the State authorities that the Commercial Fertilizer tax is imposed merely for inspection purposes, but the fertilizer companies claim that 1-5 of the amount collected is used for such inspection. North Carolina last year collected between \$30,000 and \$40,000 by this tax. The claim is made that only the United States can collect tax on goods shipped from one State to another. The existence of the Agricultural Department here depends on the courts decision.

The North Carolina Dental Association had sent a circular to Superintendent of Public Instruction C. H. Mcbane for endorsement, urging the public school teachers to instruct the children to give a careful attention to their teeth. That it be observed that there is a marked deterioration in the teeth of the present generation and an effort is thus made to bring about a better state of things.

The total receipts of cotton for the week are 412 bales against 335 for the corresponding week last year. The receipts for this season though are not up to those of last season. The receipts for this season are 21,991.

District Attorney Bernard says the order for making this a U. S. prison is only temporary, but that he will urge the advantages of the North Carolina penitentiary, and hopes to make it a permanent prison.

In the auditor's report which will soon be out there will be an itemized statement of the expenses of the last legislature. A few of the items are as follows. Senate employees cost the State \$11,592. House employees only about \$9,000. This difference is not accounted for.

The board of aldermen have created a new office, that of Assistant Sanitary Inspector with a salary of \$900 a year. The health ordinances have been so increased that the Sanitary Inspecting officer had too much to do, to do it properly.

It is said that possibly Chairman Caldwell of the railroad commission will resign.

There is said to be a very good stand of wheat, but that owing to the dry weather the plants are unusually small.

There are 45 witnesses to be heard in the Ewart case in Washington.

The State Library still remains closed from 5 p. m. until 9 a. m.

It is intimated that ex-Judge R. W. Winston of Durham knows something of the proposition made at the meeting of the State Democratic Executive committee to change the party name to Democratic People's party. There was no resolution introduced.

## TEN DAYS REST.

### Not Before the 15th Will the Verdict be Known.

Meantime it is Quiet in Washington. Long's Expression and the Big Powder Contract. Precedence for Interference in Cuba from Others.

JOURNAL BUREAU, WASHINGTON, D. C., March 5. Unless the Spanish do something to precipitate matters there is little probability of any material change in the situation during the next ten days. The report of the Naval Court of Inquiry is not expected earlier than the 15th of the month, and there is no certainty that it will be received as early. As an indication of the correctness of these statements it may be mentioned that a party consisting of Senators Thurston, Gallinger and Money, and Representatives Amos J. Cummings and William Allen Smith, left Washington this week for Havana, on board of a private yacht. They would not have left Washington had they supposed that the matter would be brought up during their absence. Senator Thurston said of the trip: "It is not in any sense an official tour, but it will naturally give us a better opportunity for investigation than we can possibly have from this distance."

Things are as quiet in Washington as if there were not the slightest danger of war, and about the only significant happenings of the week in administration circles was the expression of the opinion by Secretary Long that the element of official Spanish participation in the explosion of the Maine had been practically eliminated by the official Spanish statement that there never had been any mines in Havana harbor—an opinion which has been very harshly criticised in private by Senators and Representatives—and the making of a contract by the War Department for \$1,000,000 worth of projectiles for the new high-power guns of our coast defenses, in advance of an appropriation by Congress. This extraordinary contract was made upon the assurance of Senators and Representatives that the appropriation would be made as soon as there appeared to be any pressing necessity for it, and the contractors agreed to stop the work at any time and only to charge proportionately for what was done.

If the Maine question was out of the way, but it isn't, and isn't likely to be for some time to come, a suggestion that has been made to President McKinley by Representative Beach, of Ohio, for the settlement of the Cuban question, would doubtless receive more attention than is now given to it. Mr. Beach proposes that the U. S. and all the other governments of America join in demanding that Cuba be placed in the hands of a receiver who shall have full authority to administer all of its affairs.

There are precedents. For instance, the powers of Europe placed Prince George, of Denmark, on the throne of Greece to save that country from utter destruction; similar action was taken in Crete; the Turkish provinces of Bosnia and Herzegovina were turned over to Austria for administration and military occupation, when there was danger of the population, which was in rebellion against Turkey, being exterminated, and the interference of Great Britain in Egypt, which it has practically governed ever since, to protect British commercial interests there. Mr. Beach says that President Diaz, of Mexico, would be just the man to be made receiver of Cuba, being of Spanish descent and thoroughly familiar with Spanish character, and having shown an administrative ability that is without precedent in Spanish American countries. The undesirable nature of the population of Cuba has always been and is now a bar to its acquisition by the United States.

At the Capitol. I am in my seventy-third year, and for fifty years I have been a great sufferer from indigestion, constipation and biliousness. I have tried all the remedies advertised for these diseases, and got no permanent relief. About one year ago, the disease assuming a more severe and dangerous form, I became very weak, and lost flesh rapidly. I commenced using Dr. Mozley's Lemon Elixir. I gained twelve pounds in three months. My strength and health, my appetite and my digestion were perfectly restored, and now I feel as young and vigorous as I ever did in my life.

L. J. ALDRED, Door-keeper U. S. State Senate, State Capitol, Atlanta, Ga.

Mozley's Lemon Elixir. It is the very best medicine I ever used for the diseases you recommend it for, and I have used many kinds for women's troubles.

Mrs. S. A. GUSTAM, Salem, N. C.

## In Time of Sickness

A hot water bottle is a necessity. In time of health it is a comfort and a luxury. The family without one is without a good friend.

The family with one is the family that knows the value of such a friend, and is the family that is safeguarded against sudden attacks of illness, such as colds, chills, cramps, pains, inflammations, etc. These bottles are not expensive, as some people think. They are cheap—very cheap when you consider their usefulness. We can give you one for 75c, or larger and better ones for \$1, \$1.25 and \$1.50. A combination hot water bottle and syringe for \$1.75, or a fountain syringe alone for 60c.

75c, \$1, \$1.25 and \$1.50. If you would like to know more, come in and we will be pleased to show you the goods.
