your temper in her hands. If she
wants to see you give you dyspepsia
and make you quarrel with your
best friend. Better be good to her. Give her the best FLOUR
to work with and she'll be the flower of the Household—a "daisy"

THE BEST FLOUR IS J. E. M.

Every Kind of Prediction of the Maine Report.

IT IS ON THE WAY.

The President Says He Will Receive it Thursday or Friday. Congress to Have it Monday. The Sus- pense Hard to Bear. War Preparations Continu- ing Unabated.

Special to Journal.
Key West, March 22.—The court of
inquiry has finished the work of investi-
gation.
Admiral Sicard has pointed out some
alterations to the court when it was
submitted to him. The report was taken
to Washington today by Lieutenant
Commander Marix of the board of inquiry.

The decision seems to be still a matter
of surmise. Significance is attached to
the remark of Admiral Sicard who said,
"the case is most peculiar, perhaps the
most peculiar which ever occurred in
the history of the world."
From this it is judged that the findings
do not solve the mystery of the explosion.
The court will remain in existence at the
call of Admiral Sicard.

The surviving officers of the Maine
now here have received orders sending
them north. The flagship New York
goes north immediately. The battleship
Iowa becomes the flagship of the squad-
ron.

Washington, March 22.—(Special)—
President McKinley announces that he
will receive the report of the Maine court
of inquiry Thursday or Friday, and that
he will send it to Congress next Monday.

There is a strong feeling in Congress
against the suggestion of international
arbitration which it is now believed
Spain will request upon receiving the
report of the United States court.

This arbitration would review the find-
ings of the court of inquiry and this is
considered an imputation of unfair deal-
ings on the part of the American naval
officers.

The President has made up his mind,
according to those claiming to know,
to recognize the independence of Cuba.
The conferences held at the White House
yesterday, when the President met
Speaker Reed and the other leaders of

both Houses, are recognized as of the
utmost importance. No doubt the object
of the meetings were to arrange for a
program for the guidance Congress
after the submission of the board of
inquiry report.

Madrid, March 22.—(Special).—The
papers publish daily a full report of the
movements of the United States warships
and the defensive preparations of the
United States. They favor the further
strengthening of the Spanish squadrons.

The Spanish Minister at Washing-
ton cables that the report of the United
States naval court of inquiry will hold
that the explosion of the Maine was of
external origin.

Havana, March 22.—(Special).—The
peace mission of General Pandon has
failed. He did not even see the com-
mander of the Cuban forces. He met
several minor chiefs but they declined to
accept to the proposition to stop hostil-
ties. Both sides will continue in the
field.

New Haven, Conn., March 22.—(Spe-
cial).—The forces of men have worked
all night on cartridges in the Winchester
repeating arms factory and will continue
to do so until the rush of orders is dis-
posed of.

The Martins fire arms factory is run-
ning night and day.

His Useful Life Thought to be Near Its Close.

LONDON, March 22.—Wm. E. Gladstone
started for his country seat at Hawarden
today on what is supposed to be his last
journey.
As the train was leaving Gladstone
said, "God bless all this place and the
land you love."

THE STATE CAPITAL.

Governor Repeats Evans for Third Time.

Another Hotel. United State Pris- oners Brought in. Cases of Blackmail. Wants Negro Support. Mrs. Dinwid- die Dead.

JOURNAL BUREAU.
RALEIGH, N. C., March 22, '98.
Raleigh has in prospect another hotel
where the Capital club now has its quar-
ters. This club will get into its own
handsome new club building by July 1st,
and its present location can easily be
converted into a hotel with about 60
rooms. It will come none too soon for
Raleigh is surely deficient in hotel ac-
commodations.

Yesterday seven United States pris-
oners were brought to the penitentiary here
from Lynchburg, Va., and eight from
the Eastern district of Tennessee.

Mrs. Jones Dinwiddie, wife of Dr. Din-
widdie president of Peace Institute of
this city, died at Johns Hopkins Hospi-
tal, Baltimore yesterday. She was car-
ried here on Saturday for an operation
for appendicitis and died from the result
of the operation. She leaves a husband
and seven children.

Several of our business men here, it is
said have been fleeced and detectives are
working up a case of blackmail.

Again John Evans, the negro who is
in jail here for rape at Rockingham has
been respited. He was to have been hung
on Saturday, but for the third time
Governor Russell respited him until
April.

Inspector Thompson of Washington is
here looking after the heating and light-
ing of the government building. He is
the government inspector for this line of
work all through the South. A new heat-
ing plant will be put in during the sum-
mer and electric take the place of gas if
an appropriation can be secured.

The ordinance requiring a building
permit has never been enforced here, but
it went into effect March 6th and the city
officials declare it will be rigidly en-
forced hereafter.

Clerk of the Court, Young, yesterday
displaced his son-in-law Mr. Fred Wool-
cott, as his office clerk, and put in the
position a negro. This is to get negro
support in the coming campaign.

Along with the decision of the U. S.
Supreme Court, that sustained Caldwell
and Pearson as R. R. commissioners re-
ceived here last night was news that in
the fertilizer tonnage tax case (upon
which hung the existence of the agricul-
tural department) the court had decided
in favor of the State. This tax on fer-
tilizers sustained the Department and
aided the A. & M. College to the amount
of about \$10,000 a year. Of course the
case was an important one.

It is said that fully \$800 was paid
Judge Ewart last year, for holding spe-
cial terms of court in Buncombe county.

It is said that Chairman Caldwell is
not satisfied with his rulings on the ex-
ceptions of the railroads to the proposed
reduction of the passenger rates, and
that he may call a meeting of the com-
mission this week to take action on the
matter.

There seems to be no objection to the
date of April 5th for the meeting here
of the State Committee of the Populist
Committee. The Convention will be
held by May 1st, it is believed.

C. T. Bailey is having some strong en-
dorsements sent to Washington urging
his appointment to the Raleigh post-
master ship.

There will be quite a delegation from
here to Chapel Hill tomorrow to see the
game of ball between the University
team and the Trinity College team.
