LEE BEFORE CONGRESS.

Testifies to the Committee on the Maine Horror.

SAYS SPAIN DID IT.

The American Congress Will Save the Peoples Cause. It Will be Freedom for Cuba by Force of Arms. The Committees Will Report for War. Cannot Be Delayed Long.

The arrival of General Lee in Washington and his appearance before the Senate Committee is a matter of great importance.

The House and Senate Committees are firm. The indications are that they will not consider the wishes of the President.

There is nothing in the situation, beyond the delay, to indicate that the end will be less than the departure of Spain from Cuba.

Special to Journal.

WASHINGTON April 12.—General Fitzhugh Lee arrived at the National Capitol shortly before three o'clock and was given a rousing welcome. Lee was driven to the White House immediately upon his arrival.

Thousands of wildly enthusiastic Virginians met General Lee as he passed through the city of Richmond. Governor Tyler and his staff met Lee, and the great multitude forced the General to speak to them.

Lee said: "This is not the time to speak. The time for action has arrived. What are you shouting for? Do you want to fight?"

Ten thousand voices immediately rent the air with a simultaneous shout of "yes!"

In the House today, the Democratic members of the committee on Foreign Affairs withdrew in order to allow the Republican members of the committee to agree upon a proposition upon which they could unite.

A second session of the committee was held in the afternoon, but it did not result in the presentation of any resolutions in the House. This resulted in the talk of a Republican caucus of the members of the House to decide upon a course of harmonious action.

The Democratic members of the House decided to support any resolution declaring for Cuban independence and armed intervention in Cuba.

In the Senate the committee on Foreign Relations have delayed their report in order to hear Lee. The indications favor a compromise proposition to harmonize the various views of the members.

Senator Gray is the only Democratic member of the Senate who is willing to join the Republicans in eliminating from the issue the recognition of the Cuban Republic. If the Republicans can be lined up on this question, his vote will be decisive.

If the proposed compromise resolution is accepted it will be short and sharp. It will be a declaration for immediate intervention.

The committees for the present are

practically at a dead lock, but the Democratic leaders in both Houses are unanimously for immediate intervention with the recognition of Cuban independence. Senator Allen, Populist from Nebraska, introduced a resolution in the Senate this afternoon declaring war against Spain. Senator Mason of Illinois, in accordance with his declared intention yesterday, spoke in favor of the recognition of the Cuban Republic.

General Lee appeared before the Senate Committee on Foreign Relations soon after his arrival in Washington and testified after certain information concerning the perpetration of the Maine horror.

The testimony of General Lee before the committee was that the Spaniards blew up the Maine.

Callers on President McKinley say that he has now greater confidence that some satisfactory settlement with Spain can be made without resorting to hostilities. The President says that he believes in the sincerity of the Spanish government towards their promised reforms in Cuba.

At a late hour the Senate Committee on Foreign Relations is still deliberating regarding the degree of activity with which to inspire the resolution to be reported. Not a member of the committee is for any course short of armed intervention.

The House Committee on Foreign Affairs has suddenly reassembled. There is a rumor that an agreement has been reached on a resolution and that the resolution declares for the independence of Cuba and the armed intervention of the United States.

The views of the London newspapers reported today in regard to the President's message are that its tendency is warlike and leaves little hope for peace and that the result of the message only delays the coming crisis. At Berlin the President's message is considered dilatory and is not regarded as indicating peace.

A detachment of the first battalion of the New York Naval Reserves left for Philadelphia today to bring the Monitor Nahan to New York City to form part of the harbor defense.

Pelted the Flag.

KINGSTON, Jamaica April 11.—It became known today that a few nights before Pulaski F. Hyatt, the United States consul at Santiago de Cuba, left that port, under instructions for Port Antonio, Jamaica, a mob of Spaniards made a demonstration before the consulate and threw tomatoes, eggs and stones at the Stars and Stripes floating over the consulate.

The crowd which took part in this demonstration had just left a theatre, where a performance had taken place for the purpose of raising funds to increase the strength of the Spanish navy. The Spaniards surrounded the consulate, shouting, "Death to Americans!" "Long live Spain!" etc., and pelted the flag. The mob was dispersed by the police.

Report on Crops. The First One This Year. A Successful Opera Performance Here at Rex Hospital.

JOURNAL BUREAU, RALEIGH, N. C., April 12: {

The fact that the President's message went in yesterday made rather a stir here, but it was not of an exciting nature, and the people are now waiting for the action of Congress in the matter.

The weather turned much colder yesterday about noon, and the wind blew quite hard dispersing the clouds that were fast gathering.

The body of Mr. A. E. Whitehead passed here yesterday being carried to Scotland Neck for burial. Mr. Whitehead died at the University Sunday night.

The performance of the comic opera "The Mikado" given by the Home Dramatic Troupe of Raleigh was a great success. Raleigh always answers to the call for help for Rex Hospital.

The receipts for the opera last night were \$378. It will be given again tonight. No finer trainer could have been found than Mr. Baker of Chicago who for several weeks has been here, training for the opera. With a fine trainer and fine material of course the result was good.

Governor Russell openly announces that he wants John Graham of Ridgeway. Nothing has been done as to Caldwell's resignation.

The first weather crop report was issued today and is as follows:

"The crop season of 1898 opened quite favorably in North Carolina. Winter and spring were uncommonly fine for farm work, which made rapid progress, and the warm, dry weather advanced vegetation rapidly towards the end of March, when nearly all fruit trees were in bloom.

"The weather during the week ending Monday, April 11th, was very unfavorable on account of the freeze Wednesday morning and frosts on subsequent dates. The temperature was more than 10 degrees per day below the normal. The rainfall on the 5th averaged over an inch; the amount of sunshine was deficient, and the growth of vegetation was slow. Notwithstanding serious damage to fruit a large percentage remains uninjured in many counties. Strawberries are safe. The injury to truck crops was not as serious as anticipated.

Eastern District—The entire week was cool and unfavorable, stopping growth of vegetation and delaying farm work to some extent. The rainfall on the 5th averaged over an inch throughout the district and was followed by freezing weather Wednesday morning with formation of thin ice as far south as Southport. Frosts occurred subsequently every morning to the 9th. The damage to fruit, especially peaches, pears and plums, is thought to be considerable, but conservative reports estimate much still uninjured over large sections. Strawberries were generally protected and escaped almost uninjured, though ripening has retarded. The greatest damage probably occurred to truck: beans were destroyed, peas and Irish potatoes hurt, and some early corn was also cut down. Farm work is well advanced and started up again latter part of the week. Much progress has been made in planting corn, potatoes and rice; ground is nearly ready for cotton. Oats and wheat look well; tobacco plants are of good size. The strawberry crop is large and fine and earliest shipments took place this week."

"Mr. Lee's Flight."

HAVANA, April 11.—La Lucha today publishes an article, headed, "Mr. Lee's Flight," and says the manner in which Gen. Fitzhugh Lee left Havana "does not become the representative of a civilized nation."

"After exciting public opinion," he continues, "he left in a great hurry, with his staff. That his leaving was flight is demonstrated by the fact of Captain-General Blanco giving an exequatur to the English consul to represent President McKinley's government on this island. Therefore, the United States did not withdraw her consuls from Cuba, nor her representatives from the capital of Spain.

"At the last moment General Lee was as frightened as if he had not been an army man. If General Lee's correspondence is revised, he will be found guilty of alarming his government and of being responsible for the Maine affair, for having asked her to be sent here to protect United States citizens. He was the chief of the jingoes here, while looking out for the interests of his country."

Carolina Worm Killer!

A highly valuable preparation, capable, from the promptitude of its action, of clearing the system in a few hours of every worm. The origin, development, and support of worms, in the human system, are to be attributed to a depraved and debilitated condition of the stomach and bowels; it being an established fact that where the digestion is unimpaired, and general powers of the system in a healthy state, they can find no habitation. This preparation has the peculiar advantage of not only destroying every worm, but also of producing a healthy action of the stomach and bowels, thereby relieving many complaints arising from a derangement of the digestive organs.

There is no disease to which children are exposed which is so common and fatal as worms, and this medicine should be kept in every nursery and in every household. This preparation not only exterminates the worms, but cleanses the system of the mucus in which they are engendered, and promotes a healthy action of the digestive powers.

Carolina Worm Killer never fails to do all we claim for it. Try a bottle and get your money back if not as represented. Manufactured and Sold at
