Very Respectfully,
J. R. PARKER, JR., Wholesale and Retail Grocer.
Phone 69. 77 Broad Street.

THE STATE CAPITAL.

Heaviest Damages Ever Awarded in State—Marriages—Cool Weather—Governor Still Appointing populists.

JOURNAL BUREAU.
RALEIGH, N. C., April 14.
It will be remembered that some time ago a Mr. Bauer of Raleigh and Mr. C. H. Norton of Durham were injured at a railway crossing in Durham by a Southern Railroad train. They sued for damages. Bauer compromised for \$2,500, but Norton held to his suit, and now the courts have given him \$20,000 damages. This is the largest damage suit ever granted in the State.

Cards are out for the marriage of Mr. John W. Hardin and Miss Katie B. Belver of this city on April 20th. Col. Stell of Charlotte, and Miss Lina Battle of Raleigh were married today. Miss Battle is the daughter of Mr. Richard H. Battle of this place.

Cool weather still continues. It is not at all like April. The sky is cloudless, and the thermometer hanging around the 55 mark.

Governor Russell seems never to be satisfied unless he is creating some sort of a row. His last act is to request the resignation of J. Rowan Rogers, a Republican director on the Insane Asylum board here—and to fill the place with Mr. G. H. Johnson, Populist, of Sampson county. It is declared that this is because Mr. Rogers does not follow the lead of the Governor always, and he wants a more pliable man on the board.

Rev. Dr. Norman, of Elenton St. Methodist church, has been elected Chaplain of the Governor's Guard and J. R. Rogers, Surgeon.

"The Asheville Summer School and Conservatory" was yesterday incorporated by the Secretary of State. Also the "Fayetteville Drug Company."

Mr. C. D. Jones of Beaufort, becomes the new collector there. Congressman Skinner sent in his name endorsed by Senator Butler. He succeeds Mr. John D. Davis whose term expired the 13th.

The directors of the State Normal and Industrial school are called to meet at Greensboro May 23. The board will be badly crippled by the recent decision of the Supreme Court that there can be no holding of two offices by one person.

THE MARKETS.

Yesterday's market quotations furnished by W. A. Porterfield & Co. Commission Brokers.

HEALTH CATECHISM.

To Be Committed to Memory By All Dyspeptic, Invalids, Consumptives.

What is the first cause of nine-tenths of all disease?

Imperfect digestion of food.
Why does imperfect digestion cause disease of other organs?

Because blood, nerves, muscles, bone and flesh are derived from the food we eat and digest. If digestion is perfect the blood is pure, nerves and muscles strong, flesh firm. If the digestion is poor, the blood is supplied from half-digested, fermenting food, irritating every nerve and organ. The result is, sooner or later, organic disease, because every organ being poorly nourished the weakest gives way first and we have liver trouble, kidney complaints, heart disease or consumption.

Is not dieting the usual and best treatment to cure indigestion?

No, because the dyspeptic has been starved long enough what is needed is abundant nourishment, not the lack of it. The stomach and blood demand NUTRIMENT, not bran crackers.

What is the best method of cure?

Plenty of wholesome food well digested.

But how can a weak stomach digest plenty of wholesome food?

By taking with the food after each meal certain harmless remedies which are known to digest food and thus nourish the blood and rest the weak stomach.

What are these harmless remedies?

The most valuable are vegetable ferments, pure pepsin, Golden Seal and fruit salts. All of these are now combined in the form of pleasant tasting tablets, sold by druggists under the name of Sturart's Dyspepsia Tablets.

Are these tablets superior to the various liquid preparations so called dyspepsia cures?

Most decidedly, because all liquid medicines become stale with age and lose whatever good qualities they may have had originally, while the tablet retains its properties indefinitely. Sturart's Dyspepsia Tablets can be carried in the pocket, always at hand ready for use when traveling or at daily occupation. They cost but 50c and should be kept in every family. They keep the digestion perfect and save doctor's bills by warding off disease.

Are Sturart's Dyspepsia Tablets adapted to all forms of dyspepsia?

Yes, because in all cases the trouble results from indigestion, fermenting food. Sturart's Dyspepsia Tablets cause the food to be digested before it has time to ferment.

If you wish to know more about them ask your druggist for a package and try them.

THE SENATE DEBATES.

But Pals off Action Until Tomorrow at Least.

ONLY DIVIDED ON HOW STRONG IT SHALL BE.

Spain Repeats Her Determination. No Evacuation of Cuba. Fighting Going on. More Big Purchases of Vessels. English View of Congress.

War yesterday was confined mainly to the United States Senate. The Senate resolution may pass to-day.

The events of yesterday appear to have made no change in the situation. It is a temporary truce.

The "suspension of hostilities" in Cuba does not prevent fighting between the Spanish and Insurgents.

The Flying Squadron, according to Secretary Long, is out on a 48 hours cruise for "practice". There are doubts expressed as to where the cruise will carry the Squadron.

In the Senate.

WASHINGTON, April 14.—The Senate adjourned at a quarter past six this evening without having acted on the resolution reported by the Committee on Foreign Relations.

The feeling during the day was that no action was probable. Senator Cullom of Illinois said early that the Cuban resolution would not pass today, but said that it was only a question of a few days when both Houses would agree upon a resolution which would result in war.

Senator Penrose of Pennsylvania read a telegram to the Senate calling the House resolution "dishwater," and demanding the passage of the Senate declaration.

Senator Turner spoke on the Cuban resolutions in favor of armed intervention immediately, and said the President was "weak and puerile." Senator Hoar and others also discussed the resolutions.

The conservative Senators decided to make a fight for the House resolutions, which are considered milder than those reported in the Senate, and to act in concert to that end. Those Senators who favor early action were disposed to hold continuous sessions if there is any disposition shown to delay action by debate. The more radical Senators say that they have votes enough to adopt the Turpie amendment recognizing the Cuban government.

President's Views.

Several Senators called upon the President to learn his desires. He is reported to have requested a delay until tomorrow before acting upon the resolution. The President carefully analyzed the resolutions both of the House and Senate and expressed his preference for the resolutions as passed by the House.

The testimony of General Lee before the Senate Committee on Foreign Relations is made public. Lee said he was informed on very good authority that the Spaniards placed two rows of torpedoes at the mouth of Havana harbor with a switchboard in Morro Castle.

The London afternoon papers print comments on the evil of leaving the "issue of peace or war" in the hands of Congress. Not one of the papers questions the duty of the United States to intervene in Cuba, but they are disposed to criticize the methods proposed by Congress for doing it.

Preparations.

The Secretary of War and the Secretary of the Navy were in consultation with the President over the latest plans for the army and navy for the inauguration of hostilities.

A memorial was presented to Congress asking the repeal of the navigation laws in event of war so that American vessels can fly foreign flags. It was referred to the Committee on Commerce.

The Secretary of the Navy has contracted for the ocean steamers New York and Paris in addition to the ones

already announced, the St. Paul and St. Louis. The transportation department made the purchase of a thousand mules for handling supplies.

The government vessels Fern and Mangrove are ordered to Norfolk to get supplies for the fleet at Key West.

A determination to change the front of the army concentration to Key West, instead of forming it at Chickamauga Park was made very suddenly.

Actions of Spain.
Spain has recalled Minister Bernabe at Washington. He will leave the interest of the legation in charge of the French Ambassador.

The Spanish cabinet announces that should President McKinley notify Spain to evacuate Cuba, that Spain will emphatically refuse to do so. Premier Sagasta says that Spain is fully prepared to take the consequence of this act.

All the newspapers at Madrid regard the war as inevitable. According to advices from Madrid by way of London, a big revolutionary demonstration broke out in the large city of Valencia last night.

Disturbances are reported from Cuba. Despite the declared suspension of hostilities it is officially reported that several skirmishes have taken place in Santa Clara province. Many families are leaving Santiago de Cuba on a British ship chartered for Jamaica.

The Spanish warships Vizcaya and Almirante Oquendo, that left Havana some time ago, are reported to have sailed from Porto Rico April 9th to join the flotilla.

The Spanish Parliament is summoned by the Queen Regent to meet next Wednesday.

The Flying Squadron.

Washington, April 13.—Apprehension that deep significance was likely to be attached to the movement of the flying squadron resulted in a quieting official statement that the squadron would go out for a practice cruise of 48 hours.

At first Secretary Long would neither affirm nor deny that the squadron was about to move, stating that a positive report had been made not to mention any projected naval movements. There were intimations that the movement was intended to give the restless officers and men of the squadron something to do for a few days.

The Atlantic Liners.

The purchase of the St. Louis and St. Paul will result in all the officers of those vessels who wish to enter the naval service receiving commissions as acting lieutenant and being retained on their vessels, but with the rank of junior naval officers.

Captain Sigbee, of the Maine, and Captain Goodrich, president of the naval war college, have been practically agreed upon as the two officers to take command of the crack liners. Both the President and Secretary Long have been anxious since the commander of the Maine arrived in Washington to give him one of the best posts in the naval service. If a battleship or cruiser had been available he would have received a command ere this.

Monitor Nantucket.

Arrangements are being made to put into immediate service the monitor Nantucket, which has been in use as a training ship for the North Carolina Naval Reserves for the past four years. She will be given protective armor and high power guns will be placed in her turret.

ROYAL BAKING POWDER
Absolutely Pure

Henry R. Bryan, Jr.,
FIRE INSURANCE AGENT.

Carolina Worm Killer!
A highly valuable preparation, capable, from the promptitude of its action, of clearing the system in a few hours of every worm.
The origin, development, and support of worms, in the human system, are to be attributed to a depraved and debilitated condition of the stomach and bowels; it being an established fact that where the digestion is unimpaired, and general powers of the system in a healthy state, they can find no habitation. This preparation has the peculiar advantage of not only destroying every worm, but also of producing a healthy action of the stomach and bowels, thereby relieving many complaints arising from a derangement of the digestive organs.
There is no disease to which children are exposed which is so common and fatal as worm, and this medicine should be kept in every nursery and in every household. This preparation not only extirpates the worms, but cleanses the system of the mucus in which they are engendered, and promotes a healthy action of the digestive powers.
Carolina Worm Killer never fails to do all we claim for it. Try a bottle and get your money back if not as represented. Manufactured and Sold at
Bradham's Reliable Drug Store.
