England Says "Stand Off" to the Powers. "Blood Thicker Than Water," Thirty Regiments in Movement Towards the Gulf. Consul in Spain

After three days of exciting debate the Senate has passed the resolution for intervention in Cuba with the army and navy of the United States.

Attacked.

The resolution is the one passed by the House last Wednesday. The Senate amended it by declaring the Independence of Cubs.

Monday at 10 o'clock the resolution as amended will go back to the House. If the House decides to end the matter quickly, a motion to concur in the Senate resolution can be offered and adopted. No further action would then be necessary before the resolution went to the President.

The war features of yesterday were the great movement of troops, the answer of England to the Continental Powers and a United States consul mebbed in Spain.

A highly valuable preparation, capable, from the prompitude of its action, of clearing the system in a few hours of every worm.

The origin, development, and support of worms, in the human system, are to be attributed to a deprayed and debilitated condition of the stomach and howels, it being an established fact that where the digestion is unimpaired, and general powers of the system in a healthy state, they can find no habitation. This preparation has the peculiar advantage of not only destroying every worm, but also of producing a healthy action of the stomach and bowels, thereby relieving many complaints arising from a derangement of the digestive organs.
