NEW BERNE, N. C., FRIDAY MORNING, APRIL 22, 1898.

ESTABLISHED 1882

A Judge of—SHOE LEATHER!

AND SUPERIOR MAKE IN SHOES will be delighted when he examines the good points in our Stock of

FINE MEN'S SHOES

In all Styles and at Prices that will surely attract. We think we can suit any lady in TIES. Our Thos. G. Plant Black Kid with Silk Vesting Top is a Beauty. Also their Tan Kid with Patent Tip is both Pretty and Stylish. ZEIGLER'S GOODS are not to be hidden and if you wish "true comfort" ask for a CLEMENT & BALL.

From TO-DAY we are offering our 75c and 90c

Kid Gloves For 50c.

A good opportunity for buying a nice article for little money. Do not forget our—

32-Inch Percales For Only 5c Per Yd.

And every lady who is wise wishes to finish her dress Skirt with a Binding that will Look Well, Wear Better and be Least Trouble Keeping in Order. All these points are met when she uses—

Feder's Pompadour Skirt Protector,
And we have a Supply always on hand.

OUR GROCERY DEPARTMENT

Is just receiving a Line of the Finest Cakes and Crackers. Comment is unnecessary, for even the babies look with longing eyes when they come to our Store. Our stock of Table Delicacies and Necessities is Fresh and of the Finest Quality.

You would not take your watch to a blacksmith to be repaired. He would not know how to serve you properly. On the same principle it requires an expert, yes, a combination of experts to run such a business as ours. It is our life work. It gets all our thought and attention. We put our reputation into our merchandise. We want all the business we can get. That is laudable ambition. But in return we guarantee all the Satisfaction it is possible to give.

Hackburn.

JUST RECEIVED.

In fact our stock of FANCY FAMILY GROCERIES are always up-to-date. Give us a Trial and be Convinced that we Save You Money by Dealing With Us.

Very Respectfully,

J. R. PARKER, JR., Wholesale and Retail Grocer.
Phone 69. 77 Broad Street.

It's True, Too.

But very many people will not find it out until too late.

Looks and low price will decide their choice.

The wise man and wise woman will, however, deliberate and, having deliberated, will discriminate in making their bicycle purchases.

They will realize that good looks are often too good to be true—that low price is often but bait for the unwary—that one has but one life to live, and it is short and sweet, while someone's life is high and unwelcome. They will realize that first cost is not everything, and that it is "better to be sure than to be sorry."

And there's where we come in with our

Columbia and Hartford Bicycles.

All the world knows them—knows that their makers are too firmly established and too jealous of their proud reputations to endanger them. They appeal to discriminating buyers. The wheels are good looks, of course. But they have intrinsic worth as well. We have the separate parts in the rough to show the original or to help those who are dilly-dallying.

THE STATE CAPITAL.

Hardly Any Sentiment Favoring Democratic Populist Fusion. State Troops All Right.

RALEIGH, April 21.—John W. Harden, a nephew of the late Associate Justice Edwin G. Reade, was married here to Miss Kate Belvin, daughter of President Charles H. Belvin, of the Raleigh National Bank.

Major E. M. Hayes, seventh cavalry, United States Army, on duty at military headquarters here, has left hurriedly for Washington.

Colonels of the Second and Fourth Regiments, State troops, are here and said their commands are ready for any service.

A wealthy syndicate is being formed here to develop the great water power at the Narrows of Yadkin river.

Two ex-chairmen of the Democratic State committee today announce they find hardly any sentiment for fusion with the Populists, save in Raleigh, and that everybody recognizes that the Democrats cannot be united on it. There will be no such fusion it is now safe to say.

The Railway commission has reduced the express rate on fish shipped from Mordehead City and New Berne. It postponed until next week the hearing of the exceptions of the railways against the recent order requiring railroads to honor a mileage book no matter by whom presented.

The last of the cotton grown last year on the Penitentiary farms was sold here yesterday. There were 600 bales, which brought \$11,000. The total crop was very nearly 3,000 bales.

The Raleigh amateurs will present the "Midado" at Henderson next Monday, and a large audience is assured.

There is quite an industrial boom in the State if the large number of charters granted new corporations by the Secretary of State is an index.

There is marked enthusiasm here at the passage of regular troops through this city. Gray headed men sat up until midnight to see them.

Interest in the baseball game between North Carolina and Virginia next Saturday is greater than ever before, because the North Carolina University team is playing so strong a game.

The State chartered the King's Mountain Telephone Company, capital \$10,000 and Queen City Telephone Company, of Charlotte, capital \$250,000. Three North Carolinians are the principal stockholders in the latter.

Governor Russell, it is announced, will make no further effort to out Chairman Caldwell, of the railway commission.

The Democrats of Winston have nominated Col. A. B. Gorrell, a prominent tobacco warehouseman, for mayor.

England's Voice.

LONDON, April 21.—The Daily News today says: "The Spanish royal speech presents a version of history that cannot be adopted by impartial minds. The allegation that the United States interfered because afraid that home rule might succeed and put an end to the civil war is preposterous. It is all very well to talk of filibustering expeditions, but these are not spontaneous nor in any large sense American. Nor are Spanish Ministers wise in attributing the policy of Congress to a part only of the American people."

"Sentiment must not blind them to the fact that in this struggle for human freedom, the United States have the right on their side. As for the prospects, the Spaniards would undoubtedly make a bad beginning if the first shot fired was directed against vessels conveying supplies to their own fellow subjects."

The Spanish Fleet.

New York, April 20.—A Washington special to the Herald says: "Spain's answer may take the form of shot and shell. The formidable fleet, which has been mobilizing at the Cape Verde Islands for some days, sailed today from those islands for an unknown destination."

So important is this information that there is reason to believe that the Navy Department will put every bit of machinery in motion that it is possible to start to learn the whereabouts of the fleet. It is conceded to be highly probable that the fleet will hasten across the ocean to Porto Rico and Cuba to prevent by force the ousting from the islands of the naval and military forces of the Spanish government.

On the other hand, it is possible that the ships have gone to the Canary Islands, but this is not considered probable in view of the fact officially reported that the vessels were coaling all day yesterday, and this morning before their departure and that their bunkers were filled to overflowing with fuel.

Relations With Portugal.

New York, April 20.—The Herald tomorrow will publish this despatch from Washington: If Spain should use the Cape Verde Islands as a base of operations in time of war, Portugal will be called to account by the United States. The Cape Verde Islands belong to the Lisbon Government, which recently informed the United States that it had rejected propositions made by Spain to enter into an offensive and defensive alliance, and proposed to remain strictly neutral.

The entire United States army is being rapidly mobilized today. The remaining regiments and cavalry were ordered South and are already in movement.

The enlistment of volunteers under the call of the President will be restricted to the National Guard.

The English tramp steamer Hamstead sailed from Norfolk for the Cape Verde Islands, with her cargo of coal. The vessel has been detained nearly a week, and it was thought by many that she would not be permitted to sail, but she went with a rush, saluting the flag ship Brooklyn as she passed, which salute was returned.

Twelve mounts for rapid fire guns arrived at Old Point and were sent on at once to Newport News, where they will be placed in position on board the converted cruiser Dixie.

The ram Katsuhin is ready to sail at an hour's notice, and orders to sail are expected at any moment.

THE LAST STAGE.

By Force of Arms Will the Issue Be Decided.

Our Squadron Believed to Be Now Off the Cuban Coast.

Minister Woodford and the Consuls Out of Spain. Spain's Refusal to Receive the Ultimatum Considered a Declaration of War. Spain's Fleet Has Sailed.

The stage of actual hostilities between the United States and Spain was entered upon yesterday. The ministers having left Madrid and Washington, the two governments have no means of communicating officially.

The late news of the movement of the fleet is very meagre. It is supposed that the squadron is on its way to blockade the Cuban ports, but the Departments are giving no information.

The actual state of affairs will be known today, but last night the real situation was very uncertain.

Special to Journal.

WASHINGTON, April 21.—Spain acted with vigor today. Minister Woodford was not allowed to present the ultimatum of the President which demanded the surrender of Spanish sovereignty in Cuba. Before he could do so his passports were handed him and Spain made an answer and virtually a declaration of war by the act.

Secretary Alger says that the treatment of Minister Woodford by Spain is to all intents and purposes a declaration of war and it is so considered by the Administration.

Minister Woodford left Madrid at four o'clock this afternoon and has gone to Paris. All the United States consuls in Spain have also left the country.

Congress today passed a bill to prohibit the shipment of coal from United States ports and also placed an embargo on other munitions of war.

A resolution was introduced in Congress to declare war against Spain and it can be taken up and passed at any moment. The President has sent a note to the powers advising them of the relations existing with Spain.

At a cabinet meeting this afternoon the advance of the North Atlantic fleet on Cuba was decided upon. Orders were sent to Captain Sampson directing him to "execute the orders already delivered."

The fleet is reported to have left Key West late in the afternoon, but its movements are not known. The orders are to blockade the Cuban coast immediately.

The advice of the Strategic Board is for the bombardment of Havana.

The movements of the Spanish fleet are not known, nor are the exact distances of Spain's warships from Cuba. It is reported from Madrid that the Spanish officers are ordered to fight when ever the United States Squadron is met. The fleet stationed at the Cape Verde Islands sailed today.

The entire United States army is being rapidly mobilized today. The remaining regiments and cavalry were ordered South and are already in movement.

The enlistment of volunteers under the call of the President will be restricted to the National Guard.

THE OREGON IN DANGER.

May be Attacked by the Spanish Torpedo Boats—Naval Officers Concerned.

WASHINGTON, April 20.—Unattached to any fleet and alone on the ocean, the battleship Oregon, now on her way to Key West from San Francisco, is the subject of some concern on the part of the naval officials, who, while confident that the big fighter can well care for herself should she meet a small Spanish fleet, would much prefer that she were with Captain Sampson's command than in having to pass through waters which in two weeks may be well patrolled by Spanish war vessels.

Nothing has been heard from the Oregon since she sailed from Callao on April 9, and nothing is expected to be received from her for a week and perhaps longer. From the straits to Montevideo is almost one week's run, and unless the Oregon has orders to stop in there and await instructions she may not be reported until Rio or Bahia is reached.

Somewhere off the South American coast is a Spanish torpedo boat, which may be laying for the big ship, but unless caught unexpectedly, and the authorities have no fear this will occur, it is not believed the little craft could harm the big one. But after rounding Cape St. Roque, the eastern extremity of Brazil, and pointing then to the west and north for the vicinity of Florida, the Oregon must pass right across the lane of travel taken by the Spanish fleet, if it comes over to this side. The Oregon will be near Porto Rico also, and if the Spanish vessels operated within a few hundred miles of that port they might fall in with the American vessel when she passes along there about three weeks from now.

Lieut. Carantha Speaks.

WASHINGTON, April 20.—Lieut. Carantha, who left with the Spanish Minister Barnabe, made the following statement in leaving Washington:

"It is no longer a question of retaining Cuba. That was merely a question of territory. Now a higher purpose is in view—the honor and dignity of Spain—since the United States has contemptuously ordered Spain to vacate Cuba and has made the infamous charge that we are responsible for the murder of the poor men of the Maine. These orders and charges are made with a kick of the boot, and against such action Spain will resist to the uttermost. There should be no mistake about this. History has recorded that even the legions of Napoleon, with 400,000 men, hearing the triumphs of all Europe, were halted and retired from Spain after those legions had lost between 200,000 and 300,000 men."

"We recognize the gallantry of the American navy, and the notable heroes of its past—Paul Jones, Farragut, Porter—but Spain, too, has her heroes, and their blood is in the veins of those now called upon to defend her honor. I speak after recently talking with my naval associates, commanders of Spanish ships and of torpedo boats, and I know that there is not a sentiment, namely, that not one Spanish ship shall be taken. Your navy may send many of them to the bottom; superior forces may seek to annihilate them; but not one Spanish ship will surrender to the American navy. With honor at stake, that will be the response of the navy of Spain."

Lieutenant Carantha spoke with great earnestness, and his statement was taken in notes and authorized.

Carolina Worm Killer!

A highly valuable preparation, capable of the promptitude of its action, of clearing the system in a few hours of every worm.

The origin, development, and support of worms, in the human system, are to be attributed to a depraved and debilitated condition of the stomach and bowels; it being an established fact that where the digestion is unimpaired, and general powers of the system in a healthy state, they can find no habitation. This preparation has the peculiar advantage of not only destroying every worm, but also of producing a healthy action of the stomach and bowels, thereby relieving many complaints arising from a derangement of the digestive organs.

There is no disease to which children are exposed which is so common and fatal as worms, and this medicine should be kept in every nursery and in every household. This preparation not only exterminates the worms, but cleanses the system of the mucus in which they are engendered, and promotes a healthy action of the digestive powers.

Carolina Worm Killer never fails to do all we claim for it. Try a bottle and get your money back if not as represented. Manufactured and Sold at

Bradham's Reliable Drug Store.
