A new line of Children's Fine Rib, Past Black Hose, size 5 to 9, price 10c.

"See that knee" is the name of our favorite school stocking for children with double knee and double knee. Compare it with any you find at 35c. "See that knee" is sold at 12 1/2c for 6 to 7 1/2; 15c for 8 to 9.

TO MOVE TO-DAY.

The First Troops to Leave Tampa For Cuba.

NORTH ATLANTIC SQUADRON

Oregon to Look Out for the Temerario, Spain Claims That She Will Fight It Out. No News From Manila, the Cable is Cut.

Special to Journal. WASHINGTON, May 3.—It was understood in Washington this afternoon that orders are given for the movement of troops for Cuba to begin tomorrow. The movement will be from Tampa, where eleven regiments of infantry, one of cavalry and ten batteries of artillery are concentrated. This makes a force of about 7,000 men. The transports already engaged and available will carry 6,000 men.

The statement is made that the Oregon has received orders to lay off Rio Janeiro on the outlook for the Spanish torpedo boat Temerario, instead of steaming at once towards Cuba.

It is learned that the Temerario is now in a Brazilian port so that both vessels are under the laws of that government.

The cruisers Minneapolis, Columbia, San Francisco and New Orleans are now in north Atlantic waters. In addition to the cruisers is the ram Cathadin, and by the end of the week the four auxiliary cruisers will be added to the fleet. These were formerly the Morgan line steamers, now armed with five and six pound rapid fire guns. They will be manned by the naval militia of several States.

The Minneapolis left Portsmouth, N. H., yesterday on scouting duty. Today it is reported from St. John, Newfoundland, that heavy firing was heard off Cape Race on the south coast of the island last night. The firing lasted for fifteen minutes and seemed to indicate that two ships were engaged in action.

The North Atlantic fleet is under Commodore Howell and great efforts are being made to have the fleet remain off the New England coast for protection, and to have the fleet kept distinct from the fleet under Admiral Schley. The headquarters for the present will be Boston.

A dispatch from Madrid says that affairs are very serious there. A revolution is threatened and today there have been disturbances in various towns of Spain. Blood has been shed and it is believed that the monarchy is in immediate danger.

The talk at Madrid is that Spain has no idea of surrender and that the whole strength of the Spanish fleets is to be directed at the United States.

No news is yet received from Manila. It is reported from Hong Kong that the cable is cut fifty miles from Manila, and that a week will be required to repair it.

Congress votes ten million dollars additional for war purposes and troops and supplies will be sent to the Asiatic squadron. The attitude of Germany leads hope to Spain that she may find ally in that country on account of the seizure of the Philippines by the United States.

The Spaniards have evacuated Bayamo, in the eastern part of Cuba. It is an important Cuban port.

The long lists of nominations to civil offices sent to the Senate by the President furnish evidence enough that every body has not got the war fever, and other evidence is found in the civil departments of the government, where patents and pensions are issued with the usual regularity and other business is attended to just as usual, and will continue to be. The fact of the matter is that this country is too big to allow its ordinary business to become disarranged by a little thing like a war with Spain.

A few men will fight, fewer will gain fame and glory, but about seventy millions of us will go right along attending to our every day affairs, with a little shouting on the side as news of victories come in.

THE MANILA FIGHT.

The Splendid Action of the American Ships.

MANILA, May 2.—The Spaniards will not give in and the Americans expect to bombard Manila at 11:30 A. M.

The American fleet entered Manila bay at 5 o'clock in the morning. The Cavite forts opened at long range and the Spanish fleet anchored at Cavite followed. The Americans then drew close in and opened a terrific cannonade.

After half an hour the Americans moved out of range of the lighter Spanish guns and continued the cannonade with their big guns with terrific effect. Twenty minutes later the Americans

THE STATE CAPITAL.

Is To-day a Swarming Military Camp.

The Nantucket Remains. Colored Troops for Fort Macon. Baptists Rejoicing Over Freedom from Debt. Bailey Confirmed For Postmaster.

JOURNAL BUREAU, RALEIGH, N. C., May 3.

There is nothing talked of now but Camp Brian Grimes, and the soldiers who all day Monday came here to go into regular camp life. The camp is beautifully situated, and people throng there to see the men, and watch the bustle of final work on the camp. There are 11 companies in camp. Many of the men came here in their citizens clothes to be equipped.

The Naval Reserves will today be examined and sworn into the U. S. service at Wilmington on board the Nantucket.

The camp for the colored troops is said now will probably be at Fort Macon in Beaufort harbor. They will be the 3rd N. C. Regiment of volunteers. If the President makes the call for a certain number of immunes, those least liable to yellow fever, from each state, the colored troops will be sent to the front early in the fight.

Mr. Glass who lost his case before the Superior Court for absolute divorce from his wife on Saturday, has tendered his resignation, as manager of the Telephone exchange here. Mr. and Mrs. Glass are both from Richmond.

It is said here today that Senator Pritchard has had the order revoked for the removal of the Monitor Nantucket from Wilmington to Fort Royal S. C.

Judge Farnell has gone to Wilmington where the U. S. District court convenes today.

The Concord company reached here yesterday morning, so they were the second company in camp—the Governor's Guard of Raleigh went into camp on Saturday.

Hon. James Wilson, Secretary of Agriculture of the United States, will be the principal speaker at the commencement of the State Normal and Industrial college.

There is very impatient waiting on the part of the people for knowledge as to what will be given General Fitz Lee in time of strife. He deserves nothing short of the highest place in the gift of the nation, but there seems to be grave doubts as to whether he gets it.

C. T. Bailey's nomination as postmaster of Raleigh has been confirmed by the Senate.

The Second Regiment companies will begin to come into camp here tomorrow. They are made up as follows: Burlington, Greensboro, Reidsville, Wilmington, Lumber Bridge, Washington, Tarboro, Raleigh, Rutherfordton, Oxford, Fayetteville, Gastonia.

Capt. T. R. Robertson of Charlotte will be Major of the 31st Battalion of the 1st Regiment. Lieut. Richmond Pearson Davis, U. S. A. will be made Lieutenant Colonel of 1st Regiment. There will be 3 majors to each regiment.

Four companies were examined and mustered in today. It will take ten more days to muster in the 1st Regiment. One company that reported yesterday has 121 men.

The 1st and 2nd Regiment Volunteers and the Agricultural and Mechanical College cadets are asked to take part in the Memorial Day exercises on Tuesday, May 10th.

W. H. Eckrode of Shelby, who is a private in the Concord company is the man who during the war captured Rutherford B. Hayes.

The War Department urges that this State put 2 companies of infantry at Fort Caswell as a support of the battery there. The Baptists have good causes to be glad, for both their home and foreign mission boards are out of debt for the first time in 5 years.
