THE STATE CAPITAL.

War Chief Teple. Teachers Assembly at Asheville. Episcopal Diocese. Army Post Establishment.

JOURNAL BUREAU, Raleigh, N. C., May 6.

Two more companies of the 2nd Regiment have been ordered here today. The Wilmington and Oxford companies came this afternoon. There were already two of the Second Regiment companies in camp.

In the physical examination the Goldsboro company was the only one that did not have a single man rejected.

The soldiers are certainly enjoying the privileges of the bath houses at the city's beautiful park not far from the camp. There are many complaints made of the poor supply of water, and that it is far from palatable.

The 15th annual meeting of the Teachers' Assembly commences at Asheville on June 14th to last through the 18th. Many prominent educators and orators from this, as well as from other States have accepted invitations to address the assembly.

The Finance Committee of the Board of Aldermen tonight made a report as follows: The total receipts of the city for the past year amount to \$74,473.26, and the disbursements \$82,827.27, of which amount \$16,327.00 was paid into the sinking fund leaving a net balance for the expense of the city \$66,499.67. The \$50,000 permanent improvement street bonds have brought a premium of \$4,666.58. The receipt and disbursement figures show a deficit of \$8,354 during the past year.

George E. Butler of Sampson county has been appointed Major of the 3rd, Battalion. Mr. Butler is a brother of U. S. Senator Butler.

The teams of the State University and Trinity College at Durham will tomorrow play a game of ball on the Trinity grounds.

The annual convention of the Episcopal Diocese of North Carolina, and the Brotherhood of St. Andrew will be held at Henderson on the 11th. It is proposed again to change the name of Protestant Episcopal church and at the general convention to be held in October it will be one of the leading questions.

On parade yesterday some of the men had on patent leather shoes. Shoes are included in the outfit to be issued by the government.

The Daughters of the Revolution this afternoon organized a Relief Society to serve the soldiers in camp who happen to need attention of any kind.

The proposed battery of heavy artillery has been changed into a battalion of negro troops composed of three companies. Senator Pritchard and Governor Russell had a row over the Second Regiment, Russell wanting it to stand as he had so arranged and Pritchard, so it is claimed, wanted the negro put forward. Russell carried the day.

The Capital Club last night gave a handsome German to Mr. L. H. Mahler and bride, and Mr. John Hardin and bride.

An order has been received here to put 80 instead of 84 men to a company. Col. Armfield says that the 1st Regiment will buckle right down to hard work.

The tents, blankets, and other camp equipments that were requisitioned for have not yet come.

The committee to raise funds for the establishment of an army post here have gone actively to work. There is every prospect that Raleigh will secure the post.

Blanco's Tactics.

KEY WEST, May 5.—Captain General Blanco is in desperate straits. He is already thinking of abandoning Havana and the entire western part of Cuba, apparently realizing that it will soon become untenable.

Theatres and public schools in Havana are closed. Beef has risen from twenty-four cents to \$4 a pound, and other provisions are correspondingly high.

To keep up the spirit of the people General Blanco has military bands playing continually in the parks, and the newspapers issue an extra announcing Spanish success.

BUCKLEN'S ARNICA SALVE.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. AT ANY HOUR NOW.

But No Report From Dewey Was Received Last Night.

PORTO RICO NEXT PLACE.

A Battle With the Spanish Fleet Expected.

Volunteers to be Divided Into Seven Army Corps. No Landing in Force Yet. Seizure of the French Steamer LaFayette. Will be a Prize.

Manila.

Special to Journal.
WASHINGTON, May 6.—Up to the closing of the Departments tonight, no news has been received from Commodore Dewey at Manila.

Officials of the government say that the cable communication may be opened at any moment. Watch will be kept all night by the operators in case anything comes that will give the news from Manila.

The German Embassy at Madrid reports that advice has been received by their government from Hong Kong announcing that Commodore Dewey effected a landing of his forces at Fort Cavite after a fresh bombardment by the guns of the fleet.

It is stated that when the dispatch boat McCulloch arrived at Mirs bay at Hong Kong, its officers learned for the first time of the battle at Manila and that the vessel at once hurried back to Manila.

Porto Rico.

Secretary Long is of the opinion that the first news from Captain Sampson and his fleet will be the defeat of the Spanish fleet near Porto Rico. The Secretary expects to have the word that a victory has been secured, not later than Monday.

The Army.

The volunteer army will consist of seven corps, each one of which will be commanded by a Major-General. At the same time it is semi-officially ascertained tonight that the handling of the army in Cuba will not be in large force before fall. The plan for the present is that operations shall consist in expeditions furnishing reinforcements to the Cubans and supplying them with arms and supplies.

The Steamer Seizure.

Members of the Senate say that the French steamer Lafayette should not be given up as its seizure comes within the President's proclamation and was notified not to run the blockade. The Lafayette was captured by the gunboat Annapolis and carried Spanish soldiers and officers and supplies for General Blanco, and after the seizure it was found that the vessel belonged to the French Naval Reserve fleet.

The State Department says that the passengers and crew of the Lafayette will be released but that the ship will be retained as a legal prize. Some apprehension is expressed that complications may result with France as a result of this capture.

Senor Pola, the Spanish ex-minister to this country who has remained at Toronto, Canada, since leaving Washington, denied this afternoon that he had been recalled to Madrid by Sagasta at the instance of Lord Salisbury.

It is reported that Emperor William announces that Germany will observe neutrality. No confirmation of this is given.

The observer at Cape Henry reported tonight that the cruiser Minneapolis is sighted, bound for Old Point Comfort.

Wearing of Uniforms.

The orders issued requiring all army officers to wear the uniform of their rank at the places where they may be stationed will facilitate the business of the War and Navy Department in various ways, and will be of much service to business men having dealings with those departments by enabling them to know the difference between the officers attached to those departments and the civilian employees at a glance. It will also save army and navy officers who are unknown to the employees whose duty is to watch every person who enters the building the annoyance of being held up until they have been identified.

Another Blow Certain.

Commodore Dewey's victory is not the only cause for rejoicing in Washington. It is known that orders have been issued the exact nature of which is known to a few but which it would be both injudicious and unpatriotic to make public

now, which there is every reason to believe will result in as crushing a blow to the power of Spain as was the loss of its Asiatic fleet and of the Philippine Islands. There is a general feeling that the fighting is to be pushed now and the war fought to a speedy and victorious close. That is certainly the intention of the administration and of Congress. Porto Rico, Cuba, the Spanish navy, all are marked as our prey.

Worthy Men Promoted.

The President doubtless offended a few people prominent in the political and social world when he announced that under no circumstances would he give a general's commission in the volunteer to a man who had not had experience as a soldier, but he pleased thousands and his action will make him new admirers all over the country, among those who believe that the principal business of a volunteer army is to fight and that it should be officered by men who knew how to conduct that business. It only those in Washington, who know of the enormous pressure that had been brought to bear in favor of the would-be parlor generals, who can fully appreciate the backbone displayed by the President in turning the whole crowd down for good and all.

Long Will Report.

New York, May 5.—Commodore Dewey is without doubt master of the situation. I feel no apprehension concerning him and I am confident he will communicate with the department at the first favorable opportunity.

This statement was made tonight by Secretary Long in answer to a question. Believing that it is due to the relatives and friends of the officers and men on board the squadron, as well as to the country at large, the Secretary has directed that any information whatever from Commodore Dewey shall be made public at once, no matter at what hour of the day or night it is received. Nothing of this kind has yet come.

"As soon as Commodore Dewey's dispatches are received by the consul at Hong Kong there will be no danger of any attempt being made by the British government to stop their transmission. Besides what I have stated, the London government is evidently desirous of favoring the United States in the present war, and would undoubtedly not raise at this time the point that a belligerent cannot use its cable lines."
