#### THE STATE CAPITAL.

At The Camp Yesterday. Examination of Hon. Russell's Army Appointments. Bonds of A. & N. C. Officials. Penitentiary Report.

JOURNAL BUREAU, Raleigh, N. C., May 9.  
The drenching rain that fell all yesterday and last night added to the drip of the thermometer made life rather uncomfortable out at Bryan Grimes camp.

Some of the companies are advertising for men so as to bring up their companies to the required number. In every company but one (Capt. Barn's of Goldsboro) there were men rejected by the surgeons. After the Wilmington company reached here on Friday, there were 11 men who changed their minds as to going to war, and the surgeons rejected 11 more. The captain had 93 men, so with the 22 short he needs 9 more to bring his number up to 80.

Yesterday the soldiers were marched by companies to the grand stand at the Fair Grounds, which is close to the camp, where the Chaplain Rev. Dr. Pruden of Durham preached.

Governor Russell was, on Saturday, asked to request the Adjutant General to appoint a Hospital corps. This telegram to the Governor came signed "Sternburg Sur-Gen."

Regular army officers will be sent here to command the negro troops. Thus the appointments made by the Governor of prominent negroes in the State as officers to command the colored battalion are of no good.

The "Ladies Relief Association" which was organized here last week, will establish a library at Camp Bryan Grimes.

Mrs. D. L. Russell, wife of the Governor is at the head of the committee for literature for the camp.

There were 50 rejected men who went out on the west bound train on Saturday.

Governor Russell will probably appoint Rev. D. H. Tuttle of the Methodist conference, to be the chaplain of the 2nd Regiment.

It is said that Governor Russell will not regard the orders of the war department as to officers to command the colored battalion, but will hold to his appointments of colored officers. It was said yesterday that the negroes here said the troops would disband before they would have army officers to command them, for they would have no mercy on them.

There were quite a lot of soldiers sick at camp yesterday and there is one case of measles.

It is rather amusing to see the efforts of the men to get rid of their beards—Shaving is a luxury that the soldier does not have very often, and then under difficulties.

Tomorrow the Memorial exercises will be very largely attended, for all the soldiers in camp here will attend. Then the fact that the orator of the day is the gallant W. H. S. Burgwyn, who has just been made Colonel of the Second Regiment of North Carolina Volunteers, is another reason why the crowd will be very large.

The Secretary of State on Saturday incorporated the Mountain Creek Milling Co. of Catawba; also the Niagara Grape and Fruit Co. of Moore county.

The directors of the N. C. R. R. met here on Saturday, as was stated, to receive the bonds of the new Secretary and Treasurer of the road; Secretary Worth's bond was for \$30,000 and his sureties were State Treasurer Worth, H. W. Jackson, and John S. Armstrong. It was accepted. Treasurer Sultman's bond for \$50,000 was placed in a surety company, but neither Sultman or his bond appeared before the directors, so another meeting will have to be held.

The women convicts in the penitentiary have been doing much laundry work for parties in the city, but now that it is stopped and the women have been sent to the State farms to chop cotton. Work in the shirt factory is doing nicely.

The Supreme Court will not finish up its work for two or three weeks yet.

Railroad Commissioner Pearson was here today and went to Washington accompanied by the clerk Mr. Brown to attend the annual national conference of commissioners. Commissioners Caldwell and Abbott are already in Washington.

The report of the penitentiary for 1897 has never been given out, and it is now believed that it has never been the intention of the board to give it to the public.

Six more United States prisoners were brought here today for the federal prison.

The State Treasurer has been presented with a massive table made of Burke county oak and inlaid by the pupils of the Deaf Mute school at Morganton. It is a very beautiful piece of work.

Invitations have been issued for the commencement at Wake Forest College for May 23-26.

Work to secure the army post here is not being neglected—but the committee will find it hard to raise the \$15,000 that is required to purchase the site.

## WHERE ARE THE FLEETS?

A Decisive Engagement May Already be Fought.

### OR SAN JUAN TAKEN.

General Lee Going to The Front at Once.

North Carolina Regiment to Serve Under Lee. Activity at New Orleans. Small Fight at Cardenas. Spanish Ministry Resigns.

Special to Journal.  
WASHINGTON, May 9.—Not a word has been received from Admiral Sampson up to midnight.

It is believed now that the battle with the Cape Verde fleet may occur, if it has not already been fought near Cape Haytien, a town on the northern coast of Hayti. The cruiser Montgomery was last seen near this place, and as the Montgomery was acting as a scout for Sampson's fleet the vessels are not likely to be far distant.

It is considered pretty certain by the navy people that San Juan, the principal port of Porto Rico, is already occupied by a formidable Spanish fleet. The chief interest now is in the expected engagement between Admiral Sampson's fleet and the Spanish Cape Verde fleet.

At a late hour it was admitted by officials of the Navy Department that some intelligence has been obtained of the location of Admiral Sampson, and that the squadron is now off the northern coast of Hayti.

On this information the officials say that by not later than Thursday they expect to hear of a decisive battle being fought in the neighborhood of San Juan, Porto Rico.

While admitting the location of the American fleet, the Department is apparently in ignorance of the whereabouts of the Spanish vessels, at least it could not be definitely ascertained if any information of that nature had been received.

By some it is thought that the enemy may push on beyond San Juan and attempt to reach Havana. If such is the case Sampson may encounter them in the waters between the eastern extremity of Hayti and the west shore of Porto Rico Tuesday, and a battle follow at once. The fast scouts of the fleet will give full warning of the approach of the Spanish warships.

The movement of the army of invasion is necessarily dependent upon the actions of the fleet. The Navy Department assures the War Department that its plans may be based upon the certainty that official news from Sampson will be in by Thursday at least.

Major Generals Fitzhugh Lee and Joe Wheeler will leave Washington for Chickamauga Wednesday. The North Carolina regiment ordered to Chickamauga today will form part of General Lee's command.

General Miles leaves for Tampa, Florida this week, will be there by Sunday to start the first expedition of the regular United States troops. As soon as they are under way seventeen thousand of the volunteer army will follow them. As the Government has decided on an immediate and vigorous campaign in Cuba, it accounts for the orders sent to the volunteer regiments of the various States today. They are all being hurried to Chickamauga.

A small naval engagement occurred near Cardenas, Cuba, between three American vessels and three Spanish gunboats. The American vessels were attempting to land some men on shore. Neither side was seriously injured.

The Warren line steamer "Roman" reports at Boston passing a Spanish torpedo boat off Sable Island, on the south coast of Nova Scotia. This was reported to the Captain of the cruiser Columbia, now on the New England station.

The St. Paul under Captain Rigbee passed the Virginia Capes late this afternoon, bound for Hampton Roads, to join the Flying Squadron.

A powder mill at South Windham, Maine, was blown up today, and two men lost their lives.

The famous 13th regiment of New York is ordered disbanded by Governor Black on account of disobedience of orders in going into camp.

In Spain.  
A special from Madrid says that the Spanish Cabinet resigned this evening. The rioting in various parts of Spain continues with great violence. At Llanerdes many rioters were killed by the troops after the mob had destroyed the municipal buildings.  
The dispatch boat McCulloch on her return trip to Manila took operators to

work on the cable connecting Manila with Hong Kong.

#### A Mine Adrift.

At New Orleans the greatest activity is shown in war preparations. The State militia were mustered in today and are ready to go to the front on the transports, a great fleet of which is being prepared by the Department. Much apprehension is occasioned in shipping circles by the breaking away of a floating mine. The mine broke adrift from its moorings in the lower Mississippi and is likely to prove a source of great danger to vessels.

#### OFF FOR THE WAR

First Regiment Ordered to Move. The Second For Coast Defenses.

Special to Journal.  
RALEIGH, May 9.—Secretary of War Alger has ordered the First Regiment, North Carolina troops, to leave for Chickamauga Camp immediately.

The Second Regiment and the colored Battalion will be stationed at points on the coast to serve on the coast defenses.

The commissary department is ordered to provide travel rations for the First Regiment. It is expected that arms and clothing will be provided for the men upon their arrival at Chickamauga as their accoutrements will not reach here in time.

Surgeon Wilder of the First Regiment left for Wilmington today to examine part of the negro battalion there, and Surgeon Jordan left for New Berne for the same purpose. Surgeon Wilder next goes to Charlotte to examine Taylor's company.

Calvin D. Cowles of the 23d Infantry has been granted leave of absence by the Secretary of War so as to accept the appointment of Colonel of the First Regiment, North Carolina Volunteers.

The wise man and wise woman will, however, deliberate and, having deliberated, will discriminate in making their bicycle purchases.  
They will realize that good looks are often but bait for the unwary—that one has but one life to live, and it is short and sweet, while surgeons' bills are high and unwelcome. They will realize that first cost is not everything, and that it is "better to be sure than to be sorry."
