### NORTH CAROLINA'S OFFERING.

Ensign Bagley gives Up His Life in His Country's Service.

Special to Journal.

RALEIGH, May 12.—This city is in mourning over the death of Ensign Worth Bagley who was killed on the torpedo boat Winslow off the coast of Cuba yesterday.

The Winslow was fired on by a battery in ambush. A shell from the hidden battery burst above the boat. Ensign Bagley and four men were working a rapid fire gun and were killed by the fragments of the bursting shell. Lieut. Bernadow and three seamen were slightly hurt. The Winslow was considerably damaged and was towed to Key West.

The effect of the shell on Bagley was to blow off his entire face from the skull and to scatter the pieces. It is said that the Ensign staggered towards the flag when struck and sank down under "Old Glory" dying there. His comrades did not believe that he was dead until his arms slipped from the flag staff and he fell to the deck.

The body of Bagley will be embalmed and sent to this city. He was only 25 years old, having graduated at Annapolis last year. The Raleigh Post is starting a monument fund for the Ensign's memory and the people are responding largely.

### THE STATE CAPITAL.

Grand Lodge to Meet at Raleigh Next Year. Special Terms for Superior Courts. Young Bagley's Death. First Regiment Equipment.

JOURNAL BUREAU.

RALEIGH, N. C., May 12.

The Grand Lodge of the Odd Fellows met in secret session yesterday to discuss some important matters, among them being the meeting place for next year. Winston and Raleigh were the places named and Raleigh won by a large majority.

The ministers of the Episcopalian churches and the lay delegates left yesterday to attend the convention that began in Henderson.

There was a very largely attended meeting of the Ladies' Aid Society, formed by the ladies of Raleigh, held yesterday. They have gotten the work well mapped out, and now the soldiers will be cared for should any of them be sick.

A Japanese is here to watch the methods of this country in mobilizing and equipping troops.

The Secretary of State has sent out to the Registers of Deeds of the various counties the North Carolina Road Laws revised and reprinted. These are to be distributed among road overseers and supervisors.

The Governor has ordered special terms of Superior court for the following counties: For Forsythe which began May 1st, Inst. Judge Timberlake presiding, for civil cases; of Brunswick county for criminal cases, June 12, with Judge Allen to hold it; of Union county, July 11th, for civil cases, Judge Adams presiding, and Judge Hoke will hold a special term of Buncombe county, July 11th.

The next issue of "The Confederate Veteran" published at Nashville, Tenn., will be a North Carolina edition. It will contain among other things a portrait of Leonidas Merritt of Chatham county, with a sketch of him by Mr. Richard H. Battle of Raleigh.

Ten convicts were yesterday sent to the Castle Hayne State Farm.

In the case of William Smarr of Cleveland county who is sentenced to hang at Shelby, July 20, for burglary in the first degree. The Governor declines to interfere.

At the laying of the corner stone of the big new building at the Blind Institute yesterday the Governor had been asked to make the address, but not having time to prepare his speech he asked Mr. W. J. Peele to speak for him. Mr. Peele made a good address.

A. G. Bauer, architect was found dead in his room here this morning. It was decided he had been dead about 24 hours. Was locked in his room and had shot himself. He was one of the men who was injured by a train at Durham some two years ago, and who compromised his suit against the railroad getting \$2,500.

This morning Mayor Russ received the following telegram from Commander Bernadow, of the torpedo boat Winslow dated Key West May 11th "Please break news to Mrs. Bagley that her son Worth was instantly killed in an action off Cardenas yesterday." This caused great sorrow here where Mrs. Bagley and her family are so much beloved. Mrs. Bagley is stunned by the blow. Mayor Russ has telegraphed Bernadow if possible to have the body embalmed and sent home.

Captain Gresham, the mustering officer has been asked from Washington what is required to equip the 1st Regiment to go to Tampa. He replied that it would require 537 rifles, with bayonets and scabbards; 500,000 ball cartridges; 600 meat cans; 779 knives; 806 forks; 814 spoons; 600 knap sacks; 688 hayoc sacks; 596 cartridge belts; 743 canteens with straps and usual spare parts for repairs, and screw drivers.

It is today contradicted that either of the deserters from the Goldsboro Company has been caught. They will be tried, when caught, by court martial, and sentenced to the penitentiary.

The soldiers in camp at night "make the welkin ring" with old plantation songs "Old Black Joe," "Little Alabama Coon" etc. The Waynesville Company are the crack banjo players and jig dancers.

It was said that the Governor would disband those companies that refused to volunteer, but this is incorrect.

## GROWING BEAUTIFULLY LESS.

## Spain Loses Five More Vessels From Her Navy.

### SAMPSON AT SAN JUAN.

Two Vessels Sunk There. Three Others Elsewhere.

### BOMBARDING AT PORTO RICO

Troops Pushed Forward for Manila. Possession of the City Assured. Hawaii to be Annexed. Spain in Sore Distress.

### The Philippines.

Special to Journal.

WASHINGTON, May 12.—A flag of truce floats over Manila. Admiral Dewey will soon be in possession of the city itself, having sunk the Spanish fleet and demolished the forts in the harbor.

Dewey had already notified the government that he maintains the blockade of Manila and that he had captured all the Spanish stores in the vicinity. Admiral Dewey also reports that the cruiser Concord came across the Spanish cruiser Argus that was not in the Manila fight, and after two hours battle sunk the Spanish vessel.

As a fit sequel to the unexampled exploit in Manila harbor, Admiral Dewey has obtained possession of the flag of Admiral Montojo from the sunken warship Maria Christina, as a trophy of the fight.

On account of the threatening conditions at Manila, the British Consul there asks for a warship to be sent there to protect English interests. Much anti-British feeling has been exhibited by the Spaniards there.

### Help For Dewey.

Eleven thousand volunteer troops start for San Francisco tomorrow. They are from Wyoming, Idaho, Kansas, Montana and Nebraska. It was expected that these troops would go to Chickamauga and then to Cuba, but since the administration has determined to hold the Philippines their orders are to leave for the west en route to Manila.

It is announced that whatever may be the attitude of Germany, France or any other European power toward permanent control of the Philippine Islands by the United States, the administration will not brook interference from any quarter with the plan of military possession of the islands.

### Shelling San Juan.

Secretary Long says that Admiral Sampson is shelling San Juan, Porto Rico. The only result so far reported is the destruction of two of the Spanish ships that were in the harbor.

Admiral Sampson has a formidable force under his command and will be able to reduce easily, it is believed the fortifications of the city. Accompanying him are his flagship, the armored cruiser New York, the battleships Indiana and Iowa, the monitors Terror and Amphitrite and the cruisers Montgomery, Marblehead and Detroit, besides a number of smaller vessels.

### War at Cuba.

From many points of the Cuban coast fighting was reported today and yesterday. Cardenas is being shelled by the cruisers Wilmington and gunboat Machias. In the attack they wrecked two Spanish vessels, the cruiser Lopez and the gunboat Ligera, which have been in the harbor at Cardenas. The only damage reported to the Americans was that to the torpedo boat Winslow and the unfortunate death of five of her crew. The forts at Cardenas are reported demolished.

An attack reported to have been made on Glenfuegos on the south coast of Cuba, is said to have been repulsed by the Spanish. No authentic details are forthcoming.

### Reasons Given.

The superior gunnery shown by the Spanish batteries to what they have done before is declared to be due to the manning of the guns by French artillery men who landed in Cuba from the steamer Lafayette.

This steamer was allowed to pass the blockade into Havana on the representation of the French government that the only purpose was to deliver mail to their Consul there but the passengers stayed

behind when the Lafayette sailed again.

A cablegram from London tonight says that four Spanish torpedo boats arrived at Las Palmas. This is the chief city of the Grand Canary. The torpedo boats are probably those that were left behind at the Cape Verde Islands when the rest of the fleet sailed for Cadiz.

A warship was seen off Cape Ann, Massachusetts today, but it is believed that it was the United States cruiser San Francisco.

### Hawaii Wanted.

The House Committee on Foreign Affairs has decided to report favorably on the annexation of Hawaii as a war measure.

The President has been in favor of this action but Speaker Reed was said to be opposed. Although much pressure was brought on the committee to prevent the reporting of the bill, the committee has decided to do so.

### Message From Gomez.

The messenger who has been expected from General Gomez has arrived in the United States and will probably be in Washington by day after tomorrow. It is stated that he brings word to the effect that the United States may depend upon the assistance of at least 40,000 insurgents. If this is true the War Department will do all in its power toward equipping the men in Gomez's army.

### Work For Dewey.

There is reason to believe that the further instructions sent to Admiral Dewey, on the dispatch boat McCulloch, which returned to Manila from Hong Kong, required him to destroy at once any other vessels or fortifications which Spain has in the Philippines.

### Setting More Dates.

It is believed here that the Spanish squadron from the Cape Verde Islands will join the one at Cadiz, and that all will move together about the beginning of June, unless the Americans go to Cadiz. In the meantime, Spain wants to gain time and have the American troops reach Cuba as far in the summer as possible.

### Spain Desperate.

In Madrid nearly all places of public entertainment are closed. The Stock Exchange is at a standstill and ruin among persons of average means widespread. The streets are fuller than ever of desperately hungry women, crying for food for their starving children. Even the bullring was half empty last Sunday and when that is the case matters are, indeed, in extremes. The government keeps talking about raising money, which may be voted, but where it is to be collected from none can say.

El Liberal fills three columns with notices of riots from one end of Spain to the other, and in three weeks' time, it is stated, there will be a bread famine.

### No Money Left.

The much-talked-of national subscription amounted to nothing at all; a drop in the ocean, enough for a few days supplies if war is to be carried on vigorously. This was not from any lack of patriotism in the people, but simply because it has not cash to give.

In summing up, in a leading article the condition of the country, El Liberal says: "In addition to troubles of the Antilles and Philippines, we are face to face with the necessity of declaring martial law throughout Spain, where disorder, misery and exasperation cry at every door."
