A heavy dressed, reversible, cotton material, superior to the ordinary dress duck, 29 inches, price 12 1/2-3c.

SQUADRONS

UNITING.

Expected that Sampson and Schley Will Join Fleets off Cuba

And Crush the Power of Spain.

Correspondents to be Executed on the Charge of Being Spies.

They Were Captured on the Gussie Expedition. Movement of Troops Proceeding. Dewey Being Looked After. Manila Well Blockaded. North Carolinian Killed.

Special to Journal.

WASHINGTON, May 14.—Admiral Sampson's fleet passed Puerto Plata, San Domingo, today toward the west. The fleet will join the flying squadron under Schley in the Windward Passage, between Cuba and Haiti.

Dispatches were left at Puerto Plata by the torpedo boat Porfirio which have been received at Washington.

It is expected that a battle with the Spanish fleet will take place tomorrow, just two weeks from the great victory at Manila.

A dispatch from Cape Haitien also says that Admiral Sampson has moved his vessels to the westward, and that the Admiral has communicated with the American consul at St. Pierre, Martinique in regard to the movements of the Spanish warships.

Death as Spies.

A tragedy will follow the first landing of American troops on Cuban soil which in the present war with Spain was made last Wednesday.

The soldiers were taken to the coast on board the steamer Gussie, of the Morgan Line, which left Tampa Wednesday evening. On board were companies E and G, of the first infantry, five horses, six hundred rifles and ten thousand rounds of rifle ammunition, one Gatling gun, food, clothing and miscellaneous supplies for military organizations. The arms, ammunition and supplies were destined for the insurgents in Pinar del Rio Province under Gen. Pedro Diaz.

The landing place was a mile and a half from Cabanas, at a place wild and uninhabited. It was expected that the insurgents would appear, but instead a small force of Spaniards were encountered who resisted for awhile but finally retreated before the guns from the vessels, with a loss of ten men.

The presence of so large a force of the enemy, however, made the landing of arms and supplies unwise, not to say impracticable, so after making sure that the insurgents expected were not in the vicinity, it was decided to re-embark. Darkness was falling, and it was unsafe to leave such a small number of men on shore, for at night the gunboats could do nothing.

Three Cuban scouts were sent inland to meet the insurgents and make an appointment for another attempt. They rode along the beach under cover of the underbrush for a mile and then took a path for the interior.

With the expedition were two newspaper men, who were correspondents of American papers. They were Charles Thrall and Hayden Jones. The men went ashore but were unfortunately captured by some Spanish troops. They will be executed by the Spaniards as spies.

The Army Movement.

The suspension of the movement of the invading army upon Cuba induced by the proximity of the Spanish Cape Verde squadron to Cuban waters, does not check the concentration of troops. It was defined with not to risk the landing of troops on Cuban soil until the landing can be effected under the protection of a stronger fleet, but the presence of Schley's fleet will make the movement to Cuba comparatively safe.

Thirty dispatch and transport boats are now at or near Tampa at the disposal of the army. Six million rations are arriving for the use of the troops.

The Twenty-first New York Regiment which had gone on board the City of Washington and the Tenth and the Second Regiments of Massachusetts Volunteers, on the Raritan and Vigilante to go south were held by orders sent

from Washington. They were then ordered to disembark and are now en route by train for Tampa.

From San Francisco
The preparations for the reinforcement of Admiral Dewey at Manila have been so rapidly pushed that it is announced that fifteen thousand troops will sail from San Francisco tomorrow on the steamers already waiting for the purpose.

Forty-five Cuban refugees have arrived at New York on the British steamer Straloe. They sailed from the port of Sagua, Cuba.

Robert Boltz of Carteret county, N. C. a seaman on the Nashville, was fatally wounded in the battle off Cienfuegos Wednesday. He was shot through the brain.

DEWEY BLOCKADING.

No Chance at the Philippines. Natives are Tired about Acting

Manila, (via Hong Kong, May 13.—The American victory at Cavite and the complete collapse of the Spanish navy have struck terror into Manila.

The blockade continues, but the public is calm. It thinks that the European powers have intervened to prevent the bombardment of Manila.

The country is quiet. The natives will not actively or openly favor the Americans unless assured that Spanish rule is over forever, for fear of reprisals.

The desire to break the Spanish rule is general throughout the country and the American invasion is popular as a means to gaining this end. But the native mind is only influenced by an exhibition of strength. They think the blockade is weak and that this is due to foreign intervention.

Public opinion, which first favored Admiral Montojo, has now changed. The Spaniards freely criticize his defense of Cavite. They say the Americans came within range of his guns and that his artillery was good enough to have done great damage to the American fleet if well handled.

ON THE WINSTON.

Lieut. Bernadon fell wounded into the water. Rescued by two of his Men.

Key West, Fla., May 13.—Later reports of fighting at Cardenas yesterday indicate great improvement in Spanish gunnery. The shell which killed Ensign Bagley and four men was fired just at the close of action. It exploded under the paint locker and several of the killed were literally covered from head to foot with paint.

Instances of heroic courage are recorded. When Lieutenant Bernadon was wounded the shock of the explosion blew him overboard. Two sailors instantly leaped into the bullet-tossed, shark-infested water and rescued him from drowning.

The men on board the Hudson worked as coolies as on parade in getting a tow line on the Winston, and made jokes when the shells struck the ship or passed close overhead.

The Spaniards only used their own gunboats to draw the fire of the American vessels. The real fighting was done by a masked battery and a battery in Cardenas town, which used smokeless powder, and could not be located by the American gunners.

SAMPSON'S FLEET

May May Near San Juan. Spanish May Try to Enter Havana.

Washington, May 14.—Confidently believing that the Madrid government through the dispatches obtained by the torpedo-boat destroyer Terror from Fort de France, informed Admiral Cervera, commanding the Spanish fleet, of the present disposition of the American warships, the authorities are of the opinion that he will now avoid San Juan and will proceed to destroy as many of the small blockading vessels in Cuban waters as possible in order to try to enter the harbor at Havana for an additional supply of coal.

Sampson Near San Juan.

The question of the hour is for what place is the Spanish fleet bound? To solve it the converted American liners Yale and St. Louis, which are keeping in touch with Admiral Sampson's fleet, are scouting along the path that the Spanish men-of-war will naturally follow. It is believed in official circles that Admiral Sampson after having bombarded the fortifications of the city, took a post near San Juan to await the coming of the Spanish fleet.

In official circles it is not believed for an instant that he will leave at present in pursuit of the enemy. By doing so, it is pointed out, the Spanish men-of-war, which are much swifter, would be able to evade him and go to San Juan, where they could secure all necessary supplies.

Result of French Sympathy.

By delaying the transmission of a message sent by Capt. C. S. Cotton, commanding the Harvard, announcing that the Spanish vessels had passed Martinique the French governor has seriously impeded the work of this government in getting machinery in operation for crushing the enemy. Captain Cotton's dispatch should have reached Washington Wednesday night. Instead it came Thursday night, twenty-four hours later.

THE FLYING SQUADRON.

On Its Way to the Gulf. Able to Defeat The Spanish Fleet.

WASHINGTON, May 14.—Spain's fleet, if not crushed by Admiral Sampson's men-of-war, will become, the authorities confidently predict, the prey of the flying squadron.

Upon arrival at Havana, Commodore Schley will be joined by the monitors Puritan and Misnomer, so that the fleet in Cuban waters will be practically as strong and will be able to cope as well with the enemy as that under Admiral Sampson's command.

Orders at Charleston.

In view of the probability that the Spanish fleet had been advised of the weak condition of the blockading squadron and of the presence of Admiral Sampson off San Juan, the naval board came to the conclusion that the flying squadron should be directed to proceed to Cuban waters, touching Charleston on the way, where the Navy Department will be able to advise if of any further appearance of the Spanish fleet.

A Powerful Fleet.

Besides making these arrangements, telegraphic instructions were sent to Commodore Watson of the whereabouts of the Spanish fleet, in order that he might take the proper steps to warn the vessels of the blockading squadron of the proximity of the enemy in overwhelming force. With these small vessels advised of the necessity of keeping a sharp lookout for the hostile fleet, it is believed that in case the enemy should make its appearance some of them will be able to get away safely and carry the news to the strong force under Commodore Schley, which will then give battle.

When the squadron left in the afternoon the Minneapolis, St. Paul and New Orleans remained behind. The Minneapolis put to sea at 8 o'clock at night. The New Orleans and St. Paul sailed at midnight.

ALL THE TALK.

Ensign Bagley's Death and the Disposition of His Remains.

Recovered From His Fall, Excursions Visit Camp Grimes. Military Appointments. Politics Play Important Part. Governor Pardons Criminal.

JOURNAL BUREAU.

RALEIGH, N. C., May 14.

The present plans for the funeral of Ensign Bagley are to hold the services in the Capital Square. The family have given their consent to let the committee make all arrangements and have a military funeral. It will be held at 4 p. m. on Monday unless there is some delay in the body reaching here Sunday night.

The fund for the monument to be raised in memory of the Hero of Cardenas yesterday reached \$194.53. This came in amounts from .05cts up to \$1. Chapel Hill today sent \$50.

It has been proposed to set apart in the Graded Schools here, April 4th as the "Worth Bagley Day." That day being his birthday.

It is suggested that should we get the army post here it be named the Worth Bagley Post.

John Scott, the young fellow from Asheville, who was hurt at the Deaf Institute here by the falling of a swing has nearly recovered.

Quite a large excursion came in yesterday from Winston to see the camp and camp life. There are many excursions booked for here during the next few weeks.

The Second Regiment is still incomplete and it seems very hard to get it up to its required number. Then too the government is so slow in sending tents, that some of the soldiers have been ordered not to come on here, until the tents are here. Many have quarters now at the State Fair grounds, but there is room for no more.

The military appointments, yesterday were Dr. George Trash of Asheville, hospital steward; Dr. B. S. Wortham of Asheville, hospital steward and also Mr. Riley of Hillsboro to the same position. John H. Gore of Wilmington as Sergeant Major of battalion. Surgeon, Major and Quartermaster have yet to be appointed for the 2nd Regiment.

Politics play a pretty big hand in this appointing of commissioned officers. There are many men in the Guard who have served faithfully for years, and it goes hard for them to be kept in ranks, while the heedless sons of men who have some pull on the authorities, are put over them and in some instances here, there are some privates who tell their officers just what are to be their duties.

Two of the soldiers have been arrested in camp here and carried back home for trial.

A big camp flag 25 by 35 feet in size has been presented to the Second Regiment by Mr. Warren V. Hall, chief clerk in the Labor Commissioner's office.

Committees from the Ladies Aid Society yesterday carried flowers and delicacies out to the soldiers who are sick in camp. There are about 60 sick.

Dr. Winter U. S. A. examining surgeon has been ordered to go at once to Tampa. He left last night.

The Dental convention has adjourned at Fayetteville. Next May it will meet in Raleigh.

The passenger rate matter was to have been considered at the meeting of the Railroad commission next week, but it will not be heard before the June meeting. The quarterly reports are so elaborate from the roads as required by the commission that it must be given time to see them.

Governor Russell has pardoned a life prisoner Sam Halford, from Rutherfordton. He has served 10 years. His crime was burglary.

Quite a number of rejected men today went back to their homes in the eastern part of the State.

Banjos and Guitars and Strings of all kinds at Baxter, the Jeweler.

AT MARTINIQUE FRIDAY.

Spanish Fleet of 15 Vessels. They Have The Harvard Surrounded. In Grand Force.

St. Pierre, Martinique, May 13.—There is a flotilla of eight Spanish warships and seven torpedo vessels in the vicinity of this island. It is supposed that a part of this flotilla is heading northwest, but it halts in the waters hereabouts.

It is positively known that a part of the Spanish flotilla is cruising about near Martinique, keeping watch on the United States auxiliary cruiser Harvard, which is in this harbor. The Spanish torpedo vessels have been running in and out of Fort de France all day.

The commander of the Harvard has asked permission to remain here seven days to make repairs to some disabled machinery. The time asked has been granted by the French authorities here, but her commander has been notified that when the repairs have been completed he must give 24 hours before leaving.

Many flashes of light, presumably signals between warships, were seen off St. Pierre last night.

The fleet that left Cape Verde consisted of the first-class cruisers Vizcaya, Almirante Oquendo, Infanta Maria Teresa and Cristobal Colon and the three torpedo destroyers Terror, Furor and Pluton. If eight warships and seven torpedo vessels are at Martinique, as stated, the Cape Verde fleet must have been reinforced, possibly from Cadiz.

BUCKLEN'S ARNICA SALVE.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. A Few Suggestions For Your Consideration.

"Did it ever occur to you?" That in hot or inclement weather sickness may be avoided by not exposing yourself? A Telephone is a safe guard. That when feeling indisposed, a physician's attention in time often proves "an ounce of prevention is worth a pound of cure?" Phone for your Doctor.

If he is out you need not be away from home hunting, but endeavor to find him through the Central Office. If the case be urgent you can Phone for another Doctor.

That a Telephone obviates the necessity of being troubled with "remembering to do and what to buy." All can be done in a moments time with a Telephone.

That if "time is money" a Telephone saves it. Any business worth your time and attention is worth saving. A Telephone does it.

Don't send nor travel. Telephone. You can order medicines, soda drinks, (all kinds of label) confections, groceries, meats and all other things too numerous to mention. Everything you can think of can be ordered at once.

All up-to-date business houses have Phones for taking your orders as well as for their own convenience.

You can make appointments with attorneys at law, as well as with the Dentist if you have a Telephone. My freight comes? Train late? Telephone!

The New Berne Telephone Exchange is now prepared to furnish a first class service, surpassed by none, equalled by few. A letter or postal card addressed New Berne Telephone Exchange will require the attention of one of its representatives who will be pleased to confer with you.

BARBER FIXTURES FOR SALE

Having thought of enlisting in the 13th New York Volunteers, and not having any further use for Barber Fixtures, I offer for sale a complete outfit of the same. Apply before the war is over to J. W. MOORE.

A Seasonable Suggestion...

Soda Water is Always "in Season," whether taken Hot or Cold it is a wholesome beverage, unless rendered deleterious to health by being loaded with impure artificial flavors and glucose syrups.

Cold Soda drawn from Our Artie Soda

Lacks Nothing could be Desired by the most Sensitive Palate. We use Only pure juices made Direct from fresh fruits

And can give any flavor. Our "Cold Soda" is always Cold.

Bradham's Reliable Drug Store.
