BATTLE RUMOR

Reported Heavy Engagement in the Windward Passage.

STILL AT SANTIAGO.

According to Another Report the Spanish Fleet Still There.

Some Fighting on the Cuban Coast Reasons Given for Putting Off the Cuban Invasion, Spanish Spies Arrested, Monterey to go to Manila.

Is It Fought?

WASHINGTON, May 21.—From Cape Haitien, Haiti, comes the report of a battle between the American and Spanish fleets.

The dispatch says that a passenger steamer arrived at Cape Haitien from Port Du Paz and reported that a naval engagement had taken place off the Mole of St. Nicholas, on the north coast of Haiti.

The battle continued until twelve Spanish warships were sunk and two of the American warships were disabled. The report lacks confirmation.

Still At Santiago.

The latest heard from the Cape Verde fleet was that it was still at Santiago de Cuba, where it was last reported. The authority for this statement said that Admiral Sampson had notified the Department that dispatches to that effect had been received and the same authority added that appearances pointed to a battle tomorrow.

The fleet that was to move against Admiral Cervera consisted of three battleships, one second-class battleship and two armored cruisers. To protect the blockading squadron, the four monitors Puritan, Amphitrite, Terror and Miantonomoh, will be retained off Havana.

Still Threatening.

Private advices from Madrid claim that the Cadiz fleet will certainly sail for the Philippines next Monday, to recover possession of Manila from Admiral Dewey. Eight thousand Spanish troops were reported embarking at Barcelona.

The monitor Monterey has been ordered to leave San Francisco for Manila. The cruiser Charleston has started on her course, having made the necessary repairs to the condensers. The City of Pekin is expected to leave for Manila tonight with 1,000 soldiers on board.

The Plan of Invasion.

Much pressure is being brought to bear upon the President to delay the invasion of Cuba until the fall, but equally strong pressure has been exerted to compel action at once.

Opposition to the invasion at present argue that the Spanish fleet is a menace to unprotected transports as long as the location of the Spaniards is unknown. They also quote the army authorities as saying that fifty-two million rounds of cartridges for the troops are needed before undertaking the Cuban invasion.

The invasion will leave from Key West, and not from Tampa, as has been thought. If the start were made from Port Tampa, the transports with their loads of stores and troops, would be exposed to attack for a period of over thirty hours, even if no allowance is made for the delay in landing the troops on Cuban territory. If the start is made from Key West, as is now the plan, the length of time necessary to transport the men to Cuba will be reduced to six or eight hours.

Some Fighting.

A dispatch from Key West states a landing has been effected on the east of Cuba, near Matanzas, and that a fort situated at the point where the landing was made was silenced and the guns were spiked. The American flag was planted on the captured works.

The report from Havana that two American ships bombarded Guantanamo, Cuba, on the coast east of Santiago de Cuba, is confirmed by a report received in Washington that during the bombardment the American ships did heavy damage to the place. The Spanish account said that an attempted landing was repulsed.

The Prizes.

The United States Prize Court at Key West today condemned five Spanish vessels taken by the United States warships as prizes. The cargoes were also condemned along with the vessels. The prizes condemned were the steamers Argonauta and Ambrasia Bolivar, the schooners Mathilda, Sophia and Ciudadita and they were all ordered sold.

The upper bay of New York harbor, commencing with tonight, will be patrolled by the mosquito fleet.

Edward Morrell of Philadelphia will probably be appointed Second Assistant Secretary of War.

Arrests of suspected Spanish spies continued.

CANTORIA.
The East and West Coast
Representative

At Fort Monroe two strangers were arrested and one of them had important plans and papers with him. Senator Dubose, late secretary of the Spanish Legation at Washington has rented a house at Quebec where he will direct the Spanish agency.

First Regiment Goes Today.

SPECIAL TO JOURNAL. RALEIGH, May 21.—The First Regiment received orders this afternoon, and leave tomorrow at 7 a. m. for Tampa, Fla., going via Southern Railway.

COLLEGE DUAL GAMES.

Princeton Defeats Columbia and Pennsylvania Beats Cornell
SPECIAL TO JOURNAL. PRINCETON, N. J., May 21.—In the annual dual games on Princeton Day, on Osborne Field, between Princeton and Columbia, Princeton won easily. The best performance was Long's work in the quarter of a mile dash, which distance he covered in 49 1-5 seconds, and also won the 220 yards dash in 23 seconds flat.

The former time breaks the Princeton record, while the latter equals it.

PHILADELPHIA, May 21.—(Special).—In the dual games here today between Pennsylvania and Cornell, the Red and Blue won by a score of 93½ points to 23½ points.

CAPTAIN CLARK.

Willing to Fight All Spain With the Oregon.

NEW YORK, May 20.—In connection with the trip of the battleship Oregon an interesting story is in circulation at the Navy Department which cannot be confirmed, but which illustrates the intrepidity of Captain Clark, commanding the vessel.

Upon his arrival at Rio Janeiro, the war board took under serious consideration the question of protecting the battleship from the enemy's fleet, then supposed to be awaiting her at some advantageous point. One or two members of the board urged the advisability of sending a squadron to convoy her to Key West, but this was scouted by the majority, and voluminous instructions were sent to Captain Clark in regard to the course which he should take. The reply, which, it is said, Captain Clark sent to the department, was something like this:

"Please don't tangle me up with instructions. I am not afraid of the whole Spanish fleet. Apparently the Spaniards are more afraid of the Oregon than that vessel is of them. Although the Oregon is unaccompanied on her voyage through the West Indies by a single ship, the Marietta and Nietheroy having been left in Brazilian waters, no attempt has seemingly been made by Admiral Cervera to intercept the American battleship. The Oregon will arrive at Key West by Sunday or Monday.

THE STATE CAPITAL.

Governor Wired too Late. Second Regiment Incomplete. Col. Cameron's Gift to General Lee. Sad Death.

JOURNAL BUREAU.

RALEIGH, N. C., May 21. Governor Russell yesterday wired Senators Pritchard and Butler to ask the Secretary of War to send the equipment for the North Carolina volunteers here. Also to request that these troops be not sent to Tampa until they are needed to invade Cuba. Whether this telegram will in the least effect the movement of the troops is not known.

The Second Regiment is still incomplete. So many of the men were rejected yesterday of those who came here to be examined and some after getting here refused to enlist.

There was a fight in Bryan Grimes camp yesterday in which one private struck another and broke his jaw bone.

Col. Benehan Cameron's gift to General Lee of his thoroughbred horse Choctaw is heard here with pleasure.

The Worth Bagley Monument fund has reached \$388.45.

Mr. and Mrs. E. H. Fellows passed here yesterday on their way to Montreal. From there they will sail on June 4th for England. Mrs. Fellows was Miss Beattie Tucker.

The funeral of Miss Mildred Barbee was held this morning from the Edenton Street Methodist Church. Seldom has death closed in our midst so bright and lovable a girl just verging on womanhood. The sympathy of the entire city has gone out to Mr. Barbee in his sorrow. Mildred lost her mother when she was a little child and has been cared for by her father's aunt Miss Katie Barclay.

CABLES CUT.

Blanco And Cervera can Have No Telegraphic Communication.

KEY WEST, May 20.—Naval officers are skeptical about the news that the Spanish fleet is at Santiago de Cuba, but this disbelief is based entirely on the fact that the announcement comes from a Spanish source. If it be true, the navy regards it a bit of characteristic Spanish strategy.

The Spanish fleet, if it be there, the navy men say, is safe from attack by sea, because the harbor is a pocket. At the same time to bottle it up would require a force quite as strong as that which went to Porto Rico. Thus the Spaniards have probably made it necessary for the United States to divide its fleets.
