Scenes of Battle.

Special to Journal. NEW YORK, May 23.—That a naval battle of momentous importance is going on the coast of Cuba and in the Windward Passage there is little doubt.

Dispatches from Port au Prince, Haiti, tell of the sounds of battle coming across the water to the shores of Haiti.

At Port au Prince, Haiti, crowds of people are gathered on the pier listening to a heavy cannonading from the north, towards the Cuban shore.

Thirty shots from the great guns were counted. Then the firing continued for an hour from the time when the first sound came.

It is thought that Commodore Schley, in command of the flying squadron must have been off Santiago de Cuba, and if Admiral Cervera was still anchored there he is surely the prey of the American fleet. Commander Schley left Key West Thursday, and instructions were sent him to proceed to Santiago de Cuba. Like those given to Admiral Sampson, his instructions were to destroy or capture the Spanish fleet.

Submarine Mines.

Reports of an attack on American vessels in the Yucatan passage on the west of Cuba are received. Submarine mines planted in the channel twenty miles off Cape Antonio were exploded near enough to lift several of the blockading vessels partially from the water and throw sailors from their feet. But it is claimed that no serious damage was done to the vessels.

The Cadiz Fleet.

It is again alleged that the Spanish fleet gathered at Cadiz departs for Manila tomorrow. But the indications are that the fleet will not go to the Philippines to recover them from Admiral Dewey, but that instead it will be divided and used to protect the islands belonging to Spain in the Atlantic.

Again reports are sent out from Madrid that are believed to be only a Spanish ruse to attempt to deceive. These are that the cruisers Vizcaya, Oquendo, Cristobal Colon belonging to Admiral Cervera's fleet are disabled at Santiago de Cuba.

The second squadron gathered at Valencia, Spain, is also alleged to have orders to sail to the Philippines tomorrow. The fleet consists of two battleships, one cruiser, five auxiliary cruisers and three destroyers. Notwithstanding the Spanish newspaper reports that these fleets are to leave for the Philippines, it is believed that their real destination is the Antilles and that unless prompt action is taken by Sampson and Schley the vessels will be added to the strength of Admiral Cervera some where in Cuban waters.

Holdings Manila.

The occupation of the Philippines in force, for which purpose ten thousand men are ready to sail from San Francisco and a fresh fleet of three warships and a large number of steamers are to be added to Admiral Dewey's squadron, has caused the United States government to turn its attention to the revenues of the islands.

It is estimated that Spain's revenue from these possessions amounted to nine million dollars last year. The Treasury Department is arranging for the collection of tariff duties. In doing so the former plans used there for its collection will be followed.

Oregon Arrived.

The battleship Oregon has arrived at Key West after her journey of 13,000 miles, the first battleship ever to come around Cape Horn. Supplies and ammunition are on the way to Key West for the Oregon, to put the ship in fighting trim.

The British steamer Auden marsh was captured by the blockading fleet while attempting to run the blockade into Havana. The vessel was loaded with supplies for the Spanish.

In the Senate of the Spanish Cortes, the discussion on privateering is strongly in favor of allowing it to be carried on.

Troops For Cuba.

The War Department has decided upon having organized six regiments composed of men who are immune from yellow fever.

The first and second are to be from

Louisiana and Texas, the third from Georgia, South Carolina and Florida, the fourth from Virginia and West Virginia, the fifth from Alabama and Mississippi, and the sixth from Tennessee and Kentucky.

The House passed the Senate bill today for the payment of volunteers from the term of enrollment and for paying the troops that are to go to Mahala one month in advance.

A bill was introduced in the House for extending the franking privileges to the officers and enlisted men in the army and navy.

WASHINGTON, May 23.—There is more expectation than war news in Washington, so far as the public is concerned. That is why the hourly rumor finds believers no matter how wild it may be. There is news—important news—but it is of contemplated movements rather than of battles fought and things accomplished consequently it comes under the band of the censorship which has been established by the government and is not allowed to be made public. It relates to the movements of our warships which are trying to get that Spanish fleet which is dodging around Cuban waters cornered where it will be bound to fight, and there are reasons for expecting the success of the efforts.

Talk is again prevalent of postponing the invasion of Cuba until fall. The reasons given are that the rainy season will begin in Cuba about the tenth of June during which it will be impossible to carry on an aggressive campaign, and that it will require several months time to manufacture the amount of ammunition that will be needed by the army.

The fact that this talk is semi-officially encouraged, instead of being rebuked, makes it probable that it is intended to throw the Spaniards off their guard. It is only the Spaniards who have contended that military operations could not be carried on in Cuba during the rainy season, the insurgents have proven to the contrary by making their most active campaigns during that season. U. S. troops may be landed in Cuba any day. What else are the troops being hurried south for?

President McKinley must have succeeded in getting exceptional men in his Cabinet. When everybody else is engaged in trying by hook or crook to get a pointer on the plans of the army and navy, the members of the Cabinet decided that it would be best to confine such knowledge to the President and the Secretaries of War and the Navy, and in accordance with that decision requested the President not to discuss intended movements at Cabinet meetings. The gentlemen who have thus cut themselves off from opportunities to know everything going on and to go on say they did not do so from any lack of interest, but from fear that they might, if they knew the plans, in an unguarded moment say something that would serve as a foundation for publications that might result in frustrating those plans.

The administration thinks it will be good policy for Congress to clinch the friendliness expressed for this country by the officials of France by making an unusually large appropriation for American representation at the big Paris Exposition in 1900—something like \$1,000,000.

Like England.

Before the war shall have ended Uncle Sam may be in a position to boast that the sun never sets upon his coaling stations.

Unlucky Number.

King Alfonso—I wish to thunder my ancestors hadn't tacked that XIII. on to me.

THE STATE CAPITAL.

The Volunteers Leave. Completion Second Regiment. Col. Cameron's Present. Interest in Democratic convention.

JOURNAL BUREAU. Raleigh, N. C., May 23.

The First Regiment N. O. Volunteers, U. S. A., left here yesterday morning on three trains, between 10 and 11 o'clock, 5,000 people were at the station to bid them farewell. There were 981 officers and men in ranks, one man having been left in hospital here with measles. In a few days he will rejoin his regiment.

There were many tears shed at the parting yesterday. The troops were in fine spirits and yet some of them wept too. One mother whose son was going, fainted.

The Second Regiment will be complete by tomorrow night. Two more companies fill it; one today and one tomorrow. Each is required to bring 100 men, so as to be sure to muster in. The real cause of the failure of the regiment to be mustered in earlier, was the neglect to have the men carefully examined before leaving home, and even after that in not bringing at least 90 here.

The camp of the 2d Regiment occupies all the space in the State fair grounds east of the race track. There are 280 large tents, which are very comfortable. The location is far higher than Raleigh, and the troops greatly like it.

Col. Burgwyn of the 3d, leaves for Washington tomorrow and says he will make special efforts to obtain complete uniforms and equipments for his regiment. Only two of its companies are now completely uniformed and four partially so.

The First Regiment did not go as far as Tampa, but arrived at Jacksonville early this morning and is encamped there.

Adjutant-General Cowles says he firmly believes there will within 20 days be another call for volunteers.

Col. Benjamin Cameron today shipped to Gen. Fitz Lee at Tampa, the stallion "Chetaw," his gift to the general. The horse is a rich chestnut in color, is 9 years old and as Col. Cameron says is as gentle as a gentle can be. He is said to be the handsomest horse ever seen in Raleigh. He last year stood all the noise of a sham battle without flinching.

A term of the U. S. Circuit and District Courts began here today. The dockets, mainly the criminal one, are pretty heavy.

Political interest all centers on the Democratic State convention. The question is whether it will notice or not notice the populist proposition for a "deal"

DISTRESSING ACCIDENT.

Section Train Containing First Regiment Has Collision. One Killed. Several Injured.

Special to Journal. RALEIGH, May 23.—A special from Savannah, Ga., this morning says: The third section of the train carrying the First Regiment N. C. Volunteers to Florida, while at Burroughs station near this city, had a head on collision with a freight train.

This section contained the Durham, Concord, Raleigh and Charlotte companies. Private Barbee was killed and Private Coleclough was mortally wounded, and four others slightly wounded, all of the Durham company.

The engineer of the freight train fled as soon as collision occurred.
