### 75,000 VOLUNTEERS

Called For By Government. North Carolina Military Matters. Special to Journal.

RALEIGH, May 25.—President McKinley's call issued today, for 75,000 more volunteers for service was of special interest here, as it meant that North Carolina should have 1,551 men as her quota, to furnish.

It is now regarded here as probable that the State's negro battalion will be increased to make enough men to form a regiment, and also that there will be another regiment of white troops formed in this State.

### HARBOR OF SANTIAGO.

Description of the Place Where the Spanish Fleet Lies.

BALTIMORE, May 25.—A Baltimorean who has lived a number of years in Santiago de Cuba thus describes the harbor there:

"It is a beautiful sheet of water, about five miles long and of considerable width, being capable of holding several fleets. The harbor is entered between points of land which overlook and guard a narrow and dangerous channel. These points have old and by no means formidable fortifications, which could do little damage to a modern warship.

"The channel is mined and over twenty torpedoes are sunk in it in different places. It would be almost impossible for a hostile ship to enter the harbor without damage unless these torpedoes and mines were first destroyed.

"I cannot see why the Spanish fleet should have entered the harbor of Santiago, unless it was for coal. I understand that from 8,000 to 10,000 tons of coal are there, having been carried in English ships before the war began. This is all that the fleet could get at Santiago.

"Supplies of all kinds are scarce in the city, and there is little opportunity to get more from any source.

"Santiago is not in communication with Havana except by cable. There is no open railroad between the two cities, as there is between Havana and Cienfuegos. The roads are impassable at this season of the year and the dividing country is in the possession of the insurgents.

"If the American vessels can run the channel and enter the harbor, they will have the Spanish fleet in a pocket, just as Dewey caught the Spaniards at Manila. The Spanish fleet reported to be at Santiago will not have the assistance of any shore batteries of any moment or of shore fortifications which could not be quickly reduced or silenced."

### BUCKLEN'S ARNICA SALVE.

### Weekly Crop Bulletin.

RALEIGH, May 25.—The Weekly Crop Bulletin for week ending Monday, May 23rd, is as follows:

The week ending Monday, May 23rd, was, on the whole, the most favorable of the season. Warm, sunny weather, with occasional showers, caused much improvement nearly everywhere, with the exception of portions of the western section, where lack of sufficient rain is becoming serious. The temperature was above normal every day, rising to over 90 degrees on several dates. Abundant sunshine and light showers in the east caused vegetation to take on a fresh appearance and grow vigorously. The drought in the west has chiefly injured small grains. Transplanting tobacco made much progress this week. Weeding corn and chopping cotton are progressing. Crops are now improving rapidly.

Eastern District.—The period of fine, warm weather from the 17th to the 23d was very favorable for farm work and the growth of crops. Much improvement was noted almost everywhere. Though the stands of cotton and corn are not extra good both crops have turned fresh and green and are growing rapidly. Weeding corn and chopping cotton have made good headway. Tobacco has been about all transplanted and is growing off nicely. In the southern counties the lack of sufficient rain is beginning to be seriously felt, as more moisture is needed for maturing small grain. In general, wheat and oats are very promising. Peanuts, rice, melons, potatoes and gardens are now growing fast. The potato beetle is doing much damage.

## FORWARD

## MARCH!

Cervera's Fleet Shut up Tight in Santiago de Cuba.

## ON TO HAVANA.

No Obstacle in the Way to Occupation of the Island.

President Calls For Seventy Five Thousand Troops.

Fleet Has Sailed For Manila. Porto Rico to be Seized. Lieut Sobral to Die as a Spy. North Carolina Boy Goes to the Front.

The war has entered on a new phase. Since the victory at Manila the strange tactics of the Spanish fleet have kept the Navy Department guessing.

But Cervera is reported at Santiago in a narrow harbor, held in the unrelenting grip of Commodore Schley.

With Spain virtually off the sea, occupation of Cuba and capture of Havana will be pressed with all the power of the government.

The first call of 125,000 volunteers being responded to, the President calls for 75,000 more. It means that the Philippines, Porto Rico and Cuba are to be occupied by the armies of the United States, and Spain brought to terms, having nothing left to fight for, not even "honor."

The Madrid government has still, so it seems, a slender communication with Cuba, one cable to Santiago remaining uncut. The news sent to Spain is evidently so unfavorable that the authorities are afraid to make it public.

### Special to Journal.

WASHINGTON, May 25.—Since the fact has become plain that Admiral Cervera with his Spanish ships is hemmed in at Santiago, the plans for the prosecution of the war are reported to be as follows: Commodore Schley is to hold fast Cervera at Santiago or in case the Spanish came out of the harbor to capture or destroy their vessels.

Commodore Watson will maintain the blockade at Havana and prevent supplies reaching General Blanco in that city. Admiral Sampson will go with his fleet to Porto Rico and with him will go twenty thousand men to occupy and hold San Juan. When Porto Rico is occupied Sampson will then move on to Havana.

On to Havana.

The movement in force will be begun at once. General Miles and staff are scheduled to leave Washington by special train at eleven o'clock tonight. In the forward movement the first detachment will comprise 10,000 regulars and 11,000 volunteers now at Tampa, Mobile and New Orleans, and behind them will go 45,000 volunteers from Chickamauga.

The steamer Florida is reported landing a large body of Cubans from Key West on the Cuban shore today.

Even With De Lome.

The Spanish spy arrested at Key West by United States Marshal Hoar has been positively identified as Lieut. Sobral, who was the attaché of the Spanish Legation at Washington under Minister De Lome.

Lieut. Sobral came into considerable notoriety at the time of the attack upon the President in the De Lome letter. He was among the prisoners of war on the captured steamer Panama and was held on Le Ud the steamer at Key West.

Plans were found upon Lieut. Sobral which included the fortifications of Key West and of New York harbor and sketches of the channel at New York. He will be shot as a spy.

A North Carolina Boy.

Elwir Anderson McKay, son of Major McKay, of Wilmington, North Carolina, lives in New York and is a member of the famous 7th Regiment.

The regiment refused to enlist unless it was received into the service in a body. This was decided then and since then the regiment has received considerable criticism as "stay-at-home."

Young McKay was not suited with this state of affairs. He has left New York and gone to Raleigh to enlist with

the Wilmington Light Infantry for active service in Cuba.

Oregon Sails.

The battleship Oregon which turned up finally at Jupiter on the east coast of Cuba, where some of her officers came ashore to communicate with Washington, sailed again this afternoon. Nothing in regard to her destination has been made known.

Across the Pacific.

The Philippine relief expedition sailed today. It consists of the transport steamers City of Pekin, Sydney and Australia.

On the vessels are 126 officers, 2158 enlisted men. They are under the command of Major-General Otis. At Honolulu they will join the cruiser Charleston and proceed to Manila to the support of Admiral Dewey.

A company of 105 United States engineers and artillery men left Willett's Point today for San Francisco. The company includes some of the most expert gunners in the service. They will accompany General Merritt to the Philippines.

Spanish Report.

A dispatch from London says that a cipher message at Madrid reports that the Spanish fleet left Santiago after a short stay and that Cervera is now at Cienfuegos. The impression at Washington is that this is only another ruse on the part of Spain to make it appear that the blockade of Cuba is ineffective in order to induce the powers to raise the blockade.

That fear of the Spanish fleet is relieved is showing by the sailing today of the Pennsylvania Railroad and Steamship Company's steamer "Alliance." The vessel was to have sailed from Colon a week ago but was deterred by doubts as to the whereabouts of the Spanish warships.
