LITTLE CHANGE

But the Plans of War Are Surely Progressing.

AUSTRIA ACTS UGLY.

Cuban Insurgents Preparing to Aid the American Army.

Attack on Havana Forts Probable. Schley Believed to be Holding.

Cervera Prisoner. States Will Respond With Volunteers. Auxiliary Fleet Increased.

Special to Journal.

WASHINGTON, May 26.—Secretary Alger and General Miles had an important conference today with General Collopy and Lieut. Henandez of the insurgent General Garcia's staff.

The officers returned from Cuba with Lieut. Rowan when he came back from his hazardous trip into the interior of the island. They say that General Garcia has three thousand troops at Bayamo who are well armed.

It is reported that vessels of the American fleet have landed quantities of ammunition on the Cuban coast, and that thirty thousand rounds of ammunition are for the insurgents.

General Gomez has arranged for a conjunction with the United States troops when they are landed in Cuba. The Spanish are reported to have withdrawn from the open country and concentrated in the cities.

The Spanish Fleet.

The story was sent out from Madrid that the cruiser Baltimore, with Admiral Dewey's fleet at Manila, had been injured by an explosion within the vessel. A cable received at London this afternoon from Manila, declares that the Baltimore is all right, it being another Spanish lie.

Austria Threatens.

Two Austrian warships sail for Cuba tomorrow and it is feared that a clash with the United States is threatened.

That a hostile demonstration against this country in favor of Spain is contemplated by Austria seems probable. The ostensible reason given for this demonstration is said to be the fact that the United States refused reparations for the death of the miners killed at Hazelton, Pa. who were Austrian subjects.

Privateering Talk.

The talk of resorting to privateering by Spain has again come up in the Cortes. Count Almenara in the Spanish Senate urged the government to adopt it.

No action has yet been taken looking to that end.

Spain has taken steps to strengthen her navy, and all the big Spanish steamers are to be taken possession of by the authorities and made into Auxiliary Cruisers for the Spanish navy.

At Any Price.

The Universal Peace Union has occupied rooms in Independence Hall, Philadelphia. The Union had the use of the rooms free of all charge.

Today it was discovered that the Union sent to the Queen Regent of Spain and to Premier Sagasta a letter sympathizing with the Spanish position and denouncing the war.

Advance on Cuba.

It is expected that news of the bombardment of the forts at Havana by Admiral Sampson will be received at any time.

The fleet was yesterday reported bound west from Old Bahama Channel towards Havana. A movement by the fleets against all the Spanish forts on the Cuban coast is expected previous to the landing of the American forces on the island.

The Oregon, having sailed from Jupiter, is reported as having arrived at Key West.

The auxiliary cruisers Yale and Harvard are to be fitted with heavy guns in addition to their present armament of rapid fire guns. The naval board recommends that fifty more vessels be added for the coast defense fleet. The government is buying vessels wherever found suitable.

Will Respond.

All the States will respond to the call of the President for 75,000 more volunteers and advise show that the States are anxious to send the troops.

Although the quota of the States under the first call for 125,000 men is still 12,000 men short, the number will easily be made up.

The Second Regiment of North Carolina volunteers is completed, 932 officers and men enrolled. Col. W. H. S. Burgyne is in command.

The adjutant general says that under the President's call he proposes to have one white regiment of twelve companies

and one regiment of negroes composed of ten companies.

Still Sighting.

Several French and Spanish warships are reported sighted off the port of Halifax.

Key West Troubles.

The negro, Kitchen who killed a seaman and seriously injured another in a Key West bar room, and escaped, has been captured by marines and citizens. He was delivered to the Sheriff. Feeling continues high, and citizens believe that martial law should be declared for the protection of the town.

Democratic State Convention.

Special to Journal.

RALEIGH, May 26.—Over one thousand representative Democrats are in attendance at the State Democratic Convention, today.

James A. Bryan was unanimously elected a member of the Executive Committee of the third Congressional district. Sentiment seems against fusion.

Julian S. Carr was made temporary chairman of the convention, Charles M. Cooke, of Franklin was made permanent chairman, John W. Thompson secretary.

R. B. Glenn made a great speech saying Democratic party could carry State without the aid of any outside party.

Can Silence the Forts.

Boston, Mass., May 25.—The former United States consul at Santiago de Cuba, Dr. P. F. Hyatt, has arrived in Boston from Jamaica on the Boston Fruit company's steamer Brookline. He was the last American consul to leave Cuba. In speaking about the situation at Santiago he said:

"If the Spanish fleet is really within the harbor, it is bottled up and as good as demoralized. The guns of the fortifications for the most part are not of the latest pattern, although there are some tip-top ones. But the American squadron could easily silence them all.

"The town is five miles from the harbor entrance and the channel is so narrow that two ships could not pass abreast. This channel was mined when I left there. I saw seven torpedoes at the mouth of the channel. Others have probably been placed since that time.

"From the entrance of the channel not a glimpse of the town can be had, owing to the hills. But if a man were to stand on the hill by Morro Castle he could see the town and basin. A signal corps planted on this hill could get the exact range of the town and basin, and could direct the fire of a fleet."

Death of a Soldier.

Special to Journal.

RALEIGH, May 26.—Private Arthur Watson of Watauga county, who was a member of Capt. Edmund Jones' Company of the Second Regiment, died at midnight last night. Cause of death being cerebral spinal meningitis.

He was given a military burial this afternoon. The flag at the camp was at half mast all day out of respect for Watson's memory.

To Shut the Entrance.

New York, May 23.—George Parsons, of 1033 Madison avenue, this city, who is the largest stockholder in an iron mine near Santiago de Cuba, has suggested to the President a method for bottling up the Spanish fleet in Santiago harbor, and has offered the government the use of his mine to put it into practice.

Mr. Parsons' plan is to sink several old ships or sews, laden with iron ore, in the entrance of Santiago harbor, thus effectually closing it.

His mine is twenty miles east of Santiago and three miles from the coast. It is connected with wharves on the coast by a railway, and the water at the wharves is deep enough to accommodate war ships.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietor of Dr. King's New Discovery for Consumption, coughs and colds have given away over ten million trial bottles of this great medicine and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on F. S. Duffy, the druggist, and get a trial bottle free, regular size 50c and \$1. Every bottle guaranteed, or price refunded.

State Military Affairs.

Special to Journal.

RALEIGH, May 26.—It was decided today that the third regiment to be formed would be white and be mobilized at Camp Grimes, probably in a week, certainly within ten days.

It is also decided that the Fourth regiment will be of negroes and officered entirely by men of same race.

This regiment will be mobilized at Fort Micon.

Destroy His Ships Rather.

Washington, May 25.—Possibly the brilliant anticipations of the handsome addition to our naval establishment to come from the capture of the fleet of Cervera may not be realized. As it is now assumed as a certainty by many persons that he is "bottled up" in the harbor of Santiago, the conclusion is jumped at that he must either come out and take his chances in a running fight or remain in the net which he has drawn around himself until starved into submission.

No apprehension exists that any further necessity will accrue to consider Cervera in our plans. He is where he can do no harm, if he is in Santiago harbor. But whether we will get hold of his vessels is something else. There is a well-defined suspicion in the naval mind that he is more likely than otherwise to follow the example set him at Manila; that if the worst comes, sooner than permit his ships to fall into our hands, he will burn or blow them up.

The Hat Trick is a Clever One.

We are Selling Hats Cheaper than they have ever been Sold Before.

Our Hats are all new and our Styles are the Latest.

We are not only selling Hats Cheap, but everything else is Marked Down to the Lowest, and you can get bargains by calling on us.

Our Line of SUMMER SHIRTS is very large and the Styles are all Up-to-Date. We have prices and qualities to suit every one.

We will have in a few days the Nicest and Cheapest Line of LOW QUARTER SHOES in the city and we can save you money, if you call on us before buying elsewhere.
