**Hackburn.**

**GENERAL LINES OF MERCHANDISE.**

*At Duffy's Store.*

May of '98 has passed and gone, leaving this store with another busy month to its record. Busy and why? The natural result of effort, hard and persistent work, work to keep the store's general lines of merchandise in motion. Generous quantities of stuff daily passing out, then something as good and often of better value coming in to take its place. Securing various items at prices less than value and turning them to our trade in like manner, has aided in making business.

### Children's Low Shoes.

Infant's Chocolate and Black, one strap Sandals, sizes 3 to 5, price 60c.  
Children's, sizes 5 to 11, 75c.  
Misses, sizes 11 to 2, 85c.  
Infant's Dougala Patent Tip Oxfords, sizes 11 to 2, price \$1.00.

### Children's Hosiery.

"See that knee," a grand value in Children's Black Hosiery, double knees and double heels, sizes 6 to 7, 12c.  
Infant's Black Socks, sizes 4 to 5, 15c.  
Children's Black Rib Lisle Hose, 25c and 35c.

### Ladies Collars.

A late shipment of Ladies Collars, popular styles at 15c.

### Ladies Neckwear.

Figured India Silk String Ties, 10c.  
Fly Bowls, in black and fancy silk, only 10c.

### Separate Skirts.

The last of a line of Black Brocaded Silk Skirts, no more at this price to be had of such grade. A splendid offering, price \$3.90.

### Corsets.

Warner's 98 models, in short, medium and long waist \$1.00 and \$1.35.  
R & G Corsets, 75c and \$1.00.  
Vigilant, a popular corset, 50c.  
Flower Girl, a usual half dollar corset, our special offering, 35c.

### Umbrellas.

Have done a splendid business in Ladies and Gent's Umbrellas, and no wonder you "can't" match them at the price.

### Fans.

Empire-Jap, full assortment, 2c, 7c, 10c, 15c, 20c, 25c, 35c and 40c.

## SIGSBEE REMEMBERS

Captures the Spanish Troop Ship Alfonso Thirteenth.

## SANTIAGO BATTLE.

No Full Accounts Yet of What Was Done There.

## BOMBARDMENT RENEWED.

Fight Between the Texas and Spanish Cruiser. The Usual Result. Plan to Attack Havana From the Clouds. Troops Moving to the South.

Sigsbee Feels Better.

Special to Journal.

WASHINGTON, June 1.—Captain Sigsbee captured the Spanish troop ship Alfonso XIII off Cape Maisí, at the eastern end of the island of Cuba.

The news was brought to Key West by a vessel from Commodore Watson's fleet which is blockading Havana.

The Alfonso XIII was in the Windward Passage when Captain Sigsbee with the auxiliary cruiser St. Paul bore down upon the Spanish vessel. Thirteen shots were fired into the troop ship before she surrendered. This vessel was the one which early in the war was sought by the American fleet, but ran in Cienfuegos and landed the troops and munitions. Returning to Spain again, the Captain received an ovation and was the hero of the hour for running the blockade.

Another success.  
The report comes from London that an engagement occurred between the American battleship Texas and the Spanish cruiser Reina Mercedes. It is reported that the Texas sank the Spanish vessel.

Santiago.

There is confirmation of the fight between Schley's fleet and the forts at Santiago de Cuba. That the forts suffered greatly is not doubted, and the Spanish loss is heavy, but it is reported that the Auxiliary Cruiser St. Paul and the battleship Iowa were damaged by the shells from the Spanish batteries.

Commodore Schley's full fleet reappeared off Santiago harbor this morning and the renewal of the bombardment is probable.

Captain Sampson's flagship the cruiser New York passed Fort Royal, Jamaica, headed north east at one o'clock this afternoon. The course would carry the New York to Santiago. The rest of the fleet was reported in the neighborhood.

Blanco's Orders.

Captain General Blanco announces that he will shoot all American newspaper correspondents who are captured hereafter.

Troops Moving.

Sixteen trains loaded with troops from Chickamauga are passing through Atlanta, bound South for Tampa.

Foreign officers, representatives of their governments are leaving Washington for the front which is an indication of an immediate movement on Cuba.

General Shafter's troops will occupy five days in reaching Santiago de Cuba and that period will be fraught with considerable anxiety to the government authorities and Commodore Schley has been urged to keep every nerve at straining point to prevent the exit of the Spanish men of war.

The next move is expected to be an invasion of Porto Rico in co-operation with a squadron under Admiral Sampson. This will also be done promptly.

Chief Engineer Menocal of the United States Navy is found guilty by court-martial and sentenced to three years suspension from service.

Dynamite Bombardment.

New York, May 31.—It is proposed to attack Havana not only from the sea and land, but also from the skies.

William A. Eddy, of camera kite fame, has a plan to drop dynamite on the Cu-

ban capital from the clouds. Mr. Eddy, who lives in Bayonne, N. J., said yesterday that he had provided Lieutenant Wise, of the Ninth United States Infantry, with an outfit of his patent kites, with camera attachments, which are to be taken to Cuba with the army of invasion and flown over Havana for the purpose of getting bird-eye views of the interior of all the fortifications, both on the coast and on the land side, where much work has recently been done in the way of strengthening the old works and throwing up new batteries.

If this plan proves feasible, of which Mr. Eddy entertains little doubt, he expects that trial will be made of a new device, by which large masses of dynamite may be carried up by a series of kites, and then, by means of a simple releasing apparatus, caused to fall within the enemy's lines. A series of kites for this purpose has been designed, the main kite being twenty feet wide, with a carrying capacity of seventy pounds of dynamite, sufficient, if dropped at the proper moment, to demolish the most powerful battery.

If the preliminary tests with the camera prove successful Mr. Eddy expects to be invited to accompany the army to Cuba and superintend the aerial bombardment of Havana.

ON THE DIAMOND.

Results of the National League Baseball Games Played Yesterday.

Weekly Crop Bulletin.

RALEIGH, June 1.—The weekly crop bulletin for the week ending Monday, May 30th, 1898, is as follows:

Excepting the 26th and 27th, which were a little cool, the weather during the past week was warm, with alternate sunshine and showers, very beneficial, and causing an improvement in the appearance of all crops. Only a few points did not receive sufficient moisture, while in many counties cultivation has been hindered by excessive rains, permitting weeds and grass to make too much headway. Some farmers have plowed corn the second and third time. Chopping cotton to a stand is progressing rapidly. Transplanting tobacco is practically completed; the stand is excellent. Cutting oats has commenced. There is an increasing diversity in crop conditions, but the outlook is becoming more favorable.

Eastern District.—A warm, sunny week, with frequent showers, proved to be very beneficial to all growing crops. Southern counties suffering from drought last week have received sufficient rainfall; in northern counties, especially Edgecombe, Gates, Nash, and portions of Craven, Carteret and Wayne, too much rain washed lands considerably and stopped farm work. In these counties grass and weeds are endangering crops. Some local hail storms caused minor damage. Corn has been worked and is ready to work again; both corn and cotton, though small, are looking very well. Tobacco is growing nicely. Irish potatoes are being dug and shipped. A great many sweet potato slips were set out this week. Cutting oats has begun, with very fair prospects. The Apple-tree Borer (Chrysothrips femora), Fabj is damaging apple trees to some extent in the east.

THE MARKETS.

## THE STATE CAPITAL.

New Postmaster at Raleigh. Was Not Killed at Cienfuegos. Tonnage Tax Constitutional. Labor Commissioner's Report.

JOURNAL BUREAU, RALEIGH, N. C., June 1. Today Raleigh has a new postmaster. C. T. Bailey this morning took charge, and Mr. C. M. Busbee retired. Yesterday the clerks in the office presented the retiring postmaster with a handsome desk and chair. Mr. Busbee has given general satisfaction, and the public look to Mr. Bailey to do likewise.

About \$100 has been subscribed towards a monument, to be erected in Beaufort in memory of the young sailor who it was said lost his life cutting the cable during the fight at Cienfuegos. It now turns out that he is not dead. He was engaged to a Carteret county girl, and she has heard from him. The letter was written on May 24th. He is a Norwegian by birth, and his name is Robert Voltz.

Governor Russell has received a telegram from Capt. J. W. Lee of Washington, D. C. who is recruiting officer for colored immunes from North Carolina and Virginia, asking if these colored immunes can be mobilized in Raleigh. The adjutant general was asked to answer the telegram. He replied that the Governor did not want the negro troops here, where the white soldiers here, for fear of a race conflict, and that besides all the available camp equipments were in use for the 2nd Regiment. It was suggested that these immunes be mobilized at Fort Macon where the colored troops have been sent to be mustered into the U. S. service.

Yesterday the 2nd Regiment had no dress parade, but instead had a skirmish drill.

The pay roll was made out today, and it is earnestly hoped that the pay will come more promptly than the clothing has done.

It is declared if the work is done properly there will be no trouble in raising one and possibly two regiments of colored immunes.

The constitutionality of the tonnage tax is settled to the great delight of the Agricultural Department. The total receipts from the sale of fertilizer tax tags at 25 cts. per ton, for the six months ending May 31, were \$32,362.19. This indicates that the sales were over 2,000,000 tons.

The interstate telephone company, L. A. Carr of Durham, president will begin business here by the end of June. The Bell Telephone company will thus be completed.

It is stated that the 2nd Regiment will be equipped before it is moved from here. That will be good news, for it is discouraging to have the troops moved from here with no better equipments than the 1st Regiment had.

The State Labor Commissioner will in his report this year give the first statistics as to the turpentine industry in the State and also the whiskey industry. It will treat also of the export trade in eggs, butter and poultry. The manufacture of tobacco will be handled.

Six young cormorants are at the museum. They are fed on fish. A bald eagle next to the cage with the cormorants is fed on English sparrows. Eagle and cormorants are always ready to eat.

War Talk.  
"Kissing is dangerous," quoth he, She archly asked, "How soon, With due precaution, might one be Regarded as immune?"

## AT HILL'S

In addition to the Pope Mfg. Co.'s regular lines of Chainless and Chain Columbias, Hartford and Valente Bicycles, I have added a new wheel.

Hill's Special, which are made for me by the Hartford Cycle Co., and which are up-to-date in every respect, which I will sell
