GENERAL LINES ...OF MERCHANDISE.

At Duffy's Store.

May of '98 has passed and gone, leaving this store with another busy month to its record. Busy and why? The natural result of effort, hard and persistent work, work to keep the store's general lines of merchandise in motion. Generous quantities of stuff daily passing out, then something as good and often of better value coming in to take its place. Securing various items at prices less than value and turning them to our trade in like manner, has aided in making business.

REWARDS AT MANILA.

Officers Taking Part in That Great Fight are Promoted.

MORE VOLUNTEERS.

A Third Call for Troops Contemplated. Santiago Guarded and Ports Attacked. Spain Makes a Protest. Germany Not Unfriendly. Money Voted by Congress.

Special to Journal.

WASHINGTON, June 2.—Admiral Miller, now commanding naval officer on the Pacific coast, has secured the coast survey steamer Albatross for the flagship of the Philippine expedition organized for the support of Dewey's fleet.

The Spanish government has protested to the British authorities against the shipping of Canadian coal to Dewey's fleet at Manila, or use on the transports, and also its being shipped to American warships in the West Indies.

Instructions have been sent to General Merritt at San Francisco to hasten the departure of the expedition to the Philippines, and it is the intention of the War Department to start the expedition tonight.

The President sent to the Senate today nominations for the advancement of five of the Captains and two of the Commanders of the vessels in Dewey's fleet who took part in the great victory at Manila.

News that the combined American fleet under Admiral Sampson was shelling the forts at Santiago has been received. These reports are not confirmed but it is believed that events of importance are taking place there.

The Cristobal Colon was the Spanish cruiser that came to the mouth of Santiago harbor and was engaged with the American vessels during the attack on the forts. It was said that Admiral Cervera was not on the ship during the fight, but Captain Aunon, Minister of Marine at Madrid contradicts the statement that the Admiral was not on his vessel during the engagement with Schley.

Germany in addition to the declaration of neutrality early in the war, now expresses through the American Ambassador at Berlin her friendship for the United States.

The President and Secretary of War are considering the advisability of a third call for volunteers in addition to the 300,000 troops already called for from the States.

The Urgency bill providing for nearly eighteen million dollars for the immediate use of the army and navy passed the Senate today.

The government today purchased the fast tug boat Kate Jones at Boston.

The report comes from Tampa and is believed by Cubans there that General Gonzales was shot after his trial by court martial.

Spain Retired.

Madrid, June 1.—The attention of the public today is absorbed in the change in the Bank of Spain which is considered more serious than any reverse of the war, inasmuch as the impossibility of the bank to help the government means impossibility to continue the war.

There was a long procession at the bank during the day. All classes of people were represented and many women were in line waiting their turn to change notes into silver, fearing the notes would soon be subjected to a discount.

If the run continues there is danger of the bank's stock of silver becoming exhausted, which would compel the government to resort to a forced currency issuing notes of small denomination. It is hoped, however, that the panic will subside, leaving the bank a margin of silver.

The financial outlook of Spain is rather dark. The government has entrusted the bank of Spain with the negotiation for a loan of 100,000,000 pesetas at 4 per cent, which sum is to be raised when required. The bank will endeavor to raise the loan at home and abroad.

The Spanish Account.

Havana, June 1.—General Blanco received cablegrams last night from General Lineros, at Santiago de Cuba, advising him that the American fleet had been repelled. In view of these messages General Blanco sent the following official dispatch to the minister of war at Madrid: "The enemy's fleet, composed of the Massachusetts, Brooklyn, Minneapolis, another cruiser and six more ships sailed westward to the Cuba canal, Santiago, at

a quarter past 2 o'clock, Tuesday afternoon. The cruiser Cristobal Colon was anchored in the way in front of Punta Gorda, and was seen by the enemy. The enemy's fleet fired from sixty to seventy shots, with missiles of 32 centimetres, without causing the least damage."

There is great enthusiasm on the part of the people of Havana. At the Albiu Theatre the performance was suspended as soon as the news was known. It was announced from the stage, bringing about an encouraging manifestation. The orchestra played "The March From Cadiz," which evoked loud cheers. Today Havana is merry. The balconies of houses are decorated with banners and enthusiasm is everywhere shown.

Red Yields.

Washington, June 1.—The proposition to annex Hawaii has been practically eliminated from the war revenue bill, and will be pressed as a separate measure in both branches of Congress. Early action is expected in the House.

Speaker Reed is said to have capitulated, and is reported to have declared this afternoon that if the foreign affairs committee would decide when they want to take the matter up, and how much time they wish to devote to discussion, he would no longer oppose the adoption of a rule to regulate and limit debate. The only condition which Mr. Reed is said to have insisted upon is that the Hawaiian resolution shall not be considered in either House until the war revenue bill is out of the way, but when that measure is disposed of, if a majority in each House are in favor of annexation now, he will not attempt to thwart their designs.

Some Weak Points.

Washington, June 2.—Foreign governments are receiving complete reports of the inefficiency of the American army from their military representatives in this country. Most of these representations are forwarded by the ambassadors and ministers, to whom they are submitted by the military attaches. By means of these channels all Europe is aware today of the difficulties under which the War Department is laboring in organizing a fighting force available for active service. Under the permission granted by Secretary Alger, through the War Department, most of the great nations of the world have sent military attaches to the points where army corps are stationed. Secretary of the Navy Long has adopted a different policy. He has absolutely denied all requests which have been submitted by foreign governments, and today there is not a man on board the American ships who should not properly be there.

The Vessels at Santiago.

New York, June 1.—Almost certain destruction or capture will be the fate of Admiral Cervera's men-of-war as a result of another excellent strategic move by the naval war.

Desirous of removing all possibility of the escape of any of the Spanish men-of-war, and of effectually crushing them should they leave Santiago de Cuba and offer battle, Secretary Long, in accordance with the recommendation of the board, has greatly strengthened the force of American warships off that harbor. Admiral Sampson, by reason of his appointment as acting rear admiral, will supersede Commodore Schley in command of the joined forces.

Fifteen men-of-war are at Sampson's disposal to pit against the six men-of-war flying the Spanish flag. They include the first-class battleships Iowa, Oregon and Massachusetts; second-class battleship Texas, the armored cruisers New York and Brooklyn, the gunboat Nashville, the torpedo boat-destroyer Scorpion, the dynamite cruiser Vesuvius, the torpedo boat Porter and the auxiliary cruisers Harvard and Yale.

STUBBORN RUSSELL.

His Course Likely to Discredit North Carolina.

Fruit Outlook. Prof. Moses to Succeed Prof. Howell. Army Post. Butler's Duplicité. Republicans Not to Support Populist Congressmen.

JOURNAL BUREAU.

RALEIGH, N. C., June 2.

In spite of the prediction that we would have no fruit this year, it is now seen that the peach crop will be a fine one. Shipments are being made from Southern Pines to Philadelphia.

It seems that unless Governor Russell concedes to the instructions of the war department, and recruits the 24 companies, now mustered in to 100 men that North Carolina will not be represented in the second call for volunteers. Secretary Alger says that the department cannot change the established rule to suit one Governor. As stated already Governor Russell wants the privilege of appointing a lot more officers, and of course cannot do this, unless new companies are formed.

It is probable that Prof. E. P. Moses will be elected to succeed Superintendent Logan Howell to take charge of the City Public schools. Professor Moses was here several years ago and was succeeded by Prof. Howell.

Col. J. S. Cunningham president of the N. C. State Fair, with the Secretary Mr. John Nichols, are both very much encouraged with the outlook for the fair. The date has been fixed for October 24-26. The good crop prospect makes it very sure for a big fair.

The board of trustees of the A. and M. College met yesterday and transacted routine business only. In July the board will meet and elect a director of the experiment station.

The board of directors for the Agricultural Department will meet the last of June, and it will have important matters to consider. Commissioner of Agriculture, John R. Smith, will be retained, but John Graham of Ridgeway will not be forgotten by his Governor. The office of Commissioner of Immigration will be created for his benefit.

Chairman Barlee of the citizens committee to secure the Army Post for Raleigh says that the Post will certainly come here.

It seems that Senator Butler's plan was to make a deal with Democrats for Congressmen and with the Republicans for county officers. It is said Butler's strength is some 25,000 while there are fully 5,000 anti-Butlerites. But then again others say Butler can scarcely control 15,000.

It is not believed the Republicans will support the Populist congressmen, Stroud, Shuford and Fowler. The Republicans say the Populists will have to name more popular candidates if they want their support in the 3rd, 4th and 7th districts. If this is not done they will put up their own men. Oliver H. Dockery has been put up by the Republicans in the 6th district. Senator Pritchard has declared Shuford should never again have Republican support.

If the Republicans put up a candidate for congressman for the 3rd district there are three names ready to be voted on for the nomination. A. H. Sloumb, Oscar J. Spears, and S. H. Buchanan.

No Third Regiment.

Special to Journal.
RALEIGH, June 2.—Adjutant General Cowles said today that no third regiment will be formed in this State, as the Secretary of War orders the Colonels of the First and Second Regiments to recruit them to 1350 men each.

It is now a question whether Governor Russell will have a full negro regiment, or white battalions.
