PROBABLE NAVAL SERVICE.

North Carolina Naval Militia Likely to be Mustered into Service at Once. Particulars Regarding the Matter.

Special to Journal.

RALPHIGH, N. C. June 11.—Adjutant General Cowles today received a telegram from Secretary Long of the Navy, saying that he had referred General Cowles's telegram concerning the North Carolina Naval Reserves to Rear Admiral Erben, of New York who has the command of them.

This afternoon Adjutant General Cowles received the following letter from Lieutenant C. H. Arnold, of the United States Navy at Charleston, S. C.

"I have been directed to enlist the members of the Naval Militia of North Carolina, into the service of the United States as an auxiliary Naval force.

"Members presenting themselves will be required to pass physical and professional examinations, and will be given ratings for which they may be best found qualified.

"The officers and men will be notified that while the intention of the Department is that their services shall be used as far as practicable for necessary coast defenses, they must be prepared to serve wherever the Department deems their service necessary.

"Enlistments will be for one year's general service, unless discharged.

"A discharge will be granted upon request, providing the exigencies of the service will permit.

"Officers will be examined for grades to which they may be appointed, for one year if successful, and according to the duties they will be expected to perform."

Immediately upon the receipt of this letter Adjutant General Cowles wired Lieut. Arnold to know where he wished to muster the men into service, and suggested Wilmington, N. C., as the best point.

AS TO SPAIN'S NAVY.

After Two Months Three-Fourths Destroyed or Rendered Ineffective.

Washington, June 10.—Three-fourths of Spain's entire naval force has either been destroyed or captured by the American navy, or is in such position that it will never reach home waters again. Of Spain's entire naval force in the Philippines, all but one vessel sunk before the guns of Admiral Dewey's ships. Numerically this fleet of eleven vessels represented just about one-half the available ships that Spain could send to sea.

There are now in Santiago four cruisers and two destroyers, the backbone of the Spanish fleet and its main reliance. By sinking the Merrimac in the channel Admiral Sampson prevents their escape. At home Spain has probably three vessels outside of the auxiliary craft, that could make the trip to Cuban waters, but none of these is regarded as likely to appear after Cervera's failure to strike an effective blow.

It has been nearly two months since war was declared, and in this time the Spanish navy has succeeded in inflicting no serious damage upon a single warship. In actual fight between the respective navies not a man has been seriously injured on the American ships. The crew of the Winslow at Cardenas, where Bagley was killed, suffered from shore batteries and not the little gunboats that ran when she appeared. Summing up what the Spanish navy has accomplished, it can be said that it has been on the defensive all the time, and with the exception of the Manila fight has never attempted to meet the issue with the enemy.

ON THE DIAMOND.

Results of the National League Baseball Games Played Yesterday.

Special to Journal.

Boston, June 11.—Boston 4, Philadelphia 2.

OLD GLORY

Now Planted In Cuban Soil

HAVANA IN STATE TERROR

Troops Off For Santiago.

War Over at Manila—Dewey's Cheering Report.

General Lee For Military Governor of Porto Rico.

Lee Military Governor.

Special to Journal.

WASHINGTON, D. C. June 11.—Word from Jacksonville, Florida, today states that twelve thousand troops will sail from there for Porto Rico, and General Fitz Hugh Lee, who accompanies the expedition will become the Military Governor on that island, as soon as the expedition lands.

Will Meet The Transports.

A number of Admiral Sampson's warships have started towards the fleet of transports bearing General Shafter's troops, and will meet it halfway to Santiago, and accompany the army back to that place.

Spaniards Were Frightened.

The entrance of the American fleet in the Bay of Guantanamo produced a panic among the Spaniards along the shore.

The fleet was rather an imposing one, consisting of the Marblehead, Yankee, Yosemite, the battleship Oregon, the torpedo boat Porter, the dispatch boat Dolphin, Vixen, Panther and a collier.

The sight of these vessels caused the Spaniards to fly to the villages away from the Bay.

Old Glory Planted.

Friday, the nine hundred marines from the Panther were landed in the Bay of Guantanamo. These marines had with them tents and general supplies, and established a base of operations at Caimanera. Over the blockade, the American flag was hoisted by a colored Sergeant, Richard Silvery, of Brooklyn, N. Y., this being the first time Old Glory has been planted in Cuban soil.

To Prevent Yellow Fever.

A number of buildings at Caimanera were burned to prevent any possible chance of there being any yellow fever germs in them.

Cable to be Repaired.

The Cape Haitien cable to Caimanera is to be at once repaired and put in good working order for the use of the Americans.

Reign of Terror.

A late dispatch says that the conditions in Havana are growing worse.

A state of terror prevails in the city. The Spanish volunteer service, which has been unruly and feared by Blanco, is now uncontrollable.

Carry War Into Spain.

Owing to friction here between the Army and Navy Departments, President McKinley has determined upon a move which will relieve all feeling in these Departments.

This move will be the carrying of the war into Spain, as soon as Porto Rico and Cuba have fallen into American hands.

Clews For Honolulu.

The Monterey, after making a hurried stop at San Diego, California, for the purpose of taking on a coal supply is reported as having sailed today, at one o'clock, her next port being Honolulu, and from there the monitor goes to the Philippines.

A Third Expedition.

Steamers are being impressed in the service of the United States at San Francisco, by order of the Government.

These steamers are to be used for the transportation of troops to Manila, and will form the third expedition to go to the Philippines, and will take the last of the troops.

Good News from Dewey.

The administration is greatly pleased by a late cable from Admiral Dewey. Dewey cables that the fighting is all over, and that all he needs troops for is to inaugurate the new administration of the United States against at Manila.

IN MILITARY CAMP.

The Soldiers at Raleigh. About Judge Norwood. Excessive Heat. Railroad Commission Meeting. Bagley Monument Fund.

JOURNAL BUREAU.

Raleigh, N. C., June 11.

The Second regiment have received orders from headquarters at Atlanta to drill six hours daily. Two of these hours to be devoted to marching at the rate of three miles an hour. Most of their equipments are here. The guns were shipped from Springfield on the 6th and will reach here on Monday.

Drums and bugles were issued to the drum corps on Friday.

Pay day has not yet come and the men are badly in need of "some change." General Lee objected to Col. Carr paying off the 1st Regiment at Jacksonville, because it was against the rules.

The troops here are very restless and are anxious to be ordered to the front. This inaction is very trying on them. Anything would be preferable and yet if their camp is transferred to Atlanta or anywhere else they may not even be as comfortable as they are here, where they have become well known.

Adjutant General Cowles says that all the rifles will be sent back to the places from which the volunteers brought them and new ones issued to the troops. He desires that many reserve companies be raised over the State.

The State Board of Agriculture will meet June 14.

The weather here is terrible. It was 100 in the shade yesterday and today.

It is reported here that Judge Norwood had resigned. He on several occasions on the bench has been under the influence of liquor and a year ago came near being impeached by the legislature. It is said he is again drinking.

Mr. Hyams, the agricultural botanist is in the Piedmont section collecting specimens for a herbarium. The "Stephenson collection" of gems is arranged beautifully in the museum. The Agricultural Department purchased this collection last year.

The street committee yesterday sent out to Camp Russell the city street sprinkler. It was greatly appreciated by the soldiers.

The two severe storms we have had recently, have damaged the splendid county roads around here, and made it necessary to have them repaired.

The Railroad Commission was in session all day yesterday. They have reached an understanding as to the Wilmington Tariff Association compelling the railroads to issue one and two thousand mile interchangeable mileage books at the present rates. These tickets can be used by different members of the same family. The purchaser of the ticket though must furnish a list of the names of his or her family and to have them recorded on the ticket. The Seaboard sells 1,000 mileage tickets for \$25, and 2,000 mileage tickets for \$40. The Southern and Coast Line roads sell 1,000 mileage tickets for \$25, and the 2,000 mileage tickets for \$50.

The Bagley Monument fund has reached \$1,416 63.
