THEY ARE LIVING.

Hobson and His Gallant Men Safe at Santiago.

THAT CADIZ FLEET!

Safe in a Spanish Port Again After a Little Cruise.

BAGLEY IS HONORED.

Fighting at Manila and Spaniards Still Losing.

WAS MONTEJO A COWARD?

Reported That He Did Not Do His Duty. Expedition for Porto Rico. Troops Landing Near Santiago. Likely to Seize The Place Soon.

They Are Safe:

Special to Journal. WASHINGTON, June 20—The British Consul at Santiago de Cuba, Mr. Ramden, says that nothing has happened to Lieut. Hobson and his gallant men of the Merrimac, while they were prisoners of Spain in Morro fort during the bombardment by Admiral Sampson's fleet.

Efforts to secure the release of Hobson and his crew will not be pushed for the present as General Blanco and the other authorities have declined to exchange them for Spanish prisoners held by the United States.

Named in Honor.

Secretary Long has named a torpedo boat "Bagley" in honor of Worth Bagley, the gallant young North Carolina Ensign who was killed at Cardenas, the first to fall in the war.

Home, Sweet Home.

The Department received word tonight that the Cadiz fleet of Admiral Camara, reported as having sailed probably to Manila via the Suez canal, has returned to a Spanish port.

The captain of a British steamer which arrived at Gibraltar reports that he sighted the Spanish squadron off Cape Gata a promontory of Spain, on the coast of Granada, forming the eastern limit of the day of Almeria. Carthagena is about 100 miles beyond Cape Gata.

Reports From Manila.

A steamer that arrived at Hong Kong today from Manila, says that the insurgents now hold four thousand Spanish prisoners and one thousand of the natives who assisted in the defense of the city.

The rebels hold Manila at their mercy. Admiral Dewey has been restraining them, being desirous that Manila shall capitulate to the American troops. It is expected that Manila has now surrendered. The rebels took Caloccan on Monday night, June 13, and advanced in sight of Manila.

The Oriental steamship Olympia has arrived at Tacoma, Washington, and brings Chinese papers with accounts of the battle of Manila.

These papers accuse Admiral Montejó, who commanded the Spanish fleet in the fight, of cowardice. It is charged that Montejó did nothing during the engagement but fly from vessel to vessel and that when the fight became hopeless for Spain, the Admiral was among the first to go ashore.

Landing in Cuba.

It is now believed that Gen. Shafter's army has arrived at its point of debarkation and that nearly all of the men have landed in Cuba, and are getting ready to open the fighting campaign on land. Unless the Spaniards put up a much stouter resistance than is expected Gen. Shafter is likely to be in possession of Santiago before the close of the present week.

While no official advices have been received of the landing of the troops, the War Department is convinced that the

army is already landed or at least is being landed near Santiago.

The Coming Battle.

If the American soldiers land on the east or west side of the city it is the opinion that they will be at a distance of at least thirty or forty miles from the city, to cover which will require four days hard marching over the mountains. No pitched battle is looked for in any event until the troops are within close proximity to Santiago.

The full strength that will confront the American troops varies from twenty to thirty thousand men, fairly well equipped, but believed now to be half starved and desperate. Gen. Shafter's command is estimated to range from 15,000 to 18,000 men, and together with the 1,000 marines on shore and attached to the ships, there is little doubt here that if the forces of Spain and Gen. Shafter meet near Santiago victory will rest with the Americans.

Troops are Moving.

Orders are issued to the troops in camp at Mobile, Alabama to proceed to Miami, Florida. The regiments that will move at once are the 1st and 2nd Alabama and the 1st and 2nd Texas. This is known as Gen. Schwan's command.

Orders will be issued tomorrow directing other troops at Chickamauga and Camp Alger to proceed to Fernandina and Miami.

It is intended to mobilize 20,000 troops for the Porto Rico expedition at points of embarkation as soon as possible.

The State military authorities at Albany, New York, announce that none of the organizations that did not go out under the first call will be accepted as volunteers under the second call. This decision excludes the famous seventh regiment and also the twenty-third, and seventy-fourth regiments of New York.

Germany Not Feared.

It is understood in Washington that as soon as our troops are in possession of Manila, President McKinley will issue a proclamation announcing the military occupation of the Philippine Islands and declaring them to be under control of the United States. Members of the Cabinet take no stock in the European reports connecting Germany with a scheme to obtain the possession of the Philippines, either through purchase or force, and it is an open secret that they would have no objection if they tried to interfere in any way over there further than may be permitted by Admiral Dewey for the protection of the interests of German citizens.

Morro Must Fall Now.

Off Santiago de Cuba, June 19—By the time this dispatch reaches you Morro Castle, the principal fortification remaining at the entrance to the harbor of Santiago, will probably be a mass of ruins. This work of completing the destruction of Santiago's outer defenses will be undertaken either by the dynamite cruiser Vesuvius or by the guns of the other war ships in the American fleet.

The only thing that has prevented the destruction of Morro Castle long ago was the fact that Lieut. Hobson and the other members of the Merrimac's crew were imprisoned in that fortification. The Americans took every precaution to spare them from danger during the recent bombardments. Admiral Sampson has been convinced from the first that Admiral Cervera and General Linaris had Hobson and his fellow heroes put in Morro Castle solely to prevent the Americans from shelling that fort.

Admiral Sampson today learned positively that two of the Merrimac's men had been taken by the Spaniards to the marine hospital, and that all of the others had been removed back to the city. Upon receiving this information he rescinded his order not to fire on Morro Gostle.

"One dynamite shell will destroy the fort," the Admiral said, as he discussed with those on board the flagship the latest action of the enemy in dealing with Lieut. Hobson and his men. From the first the action of the Spaniards in confining the prisoners in Morro has been utterly condemned by officers and men in the fleet.

THE STATE CAPITAL.

Gossip On Judge Norwood's Resignation. Army Notes. Russell and Foye Take an Outing.

JOURNAL BUREAU.

Raleigh, N. C., June 20. There is much criticism as to the part that V. S. Lusk had in the sending of the resignation of Judge Norwood to the Governor. It seems, to at least, some people, that Lusk evinced only too much pleasure in sending in the papers placed in his hands, without any investigation which was stipulated. Judge Norwood and his friends are not apt to let V. S. Lusk having seen Judge Norwood drunk on the train, suffice for an investigation.

On Saturday, the Executive office was literally closed. Russell in Wilmington, Rev. Baylis Cade in Louisburg, Clerk Foye on a fishing frolic, and the janitor running politics at the court house, leaving the key to the office under the door mat, with a darkey to guard it. It is doing Cleveland an injustice to name him in the same breath with Russell, but every one knows when he went off on his outing, he at least left some to represent him.

P. T. Massey of Johnson county and John Nichols of Raleigh are the names most prominent for Republican nomination for congress from this, the 4th district.

General Cowles has secured transportation for the 10 North Carolina tele-

graph operators to go to Manila. They will leave on the 28th for San Francisco.

Judge Spier Whitaker of Raleigh has been commissioned Major of the 6th U. S. volunteers.

Adjutant Bradley J. Wootten of the 2nd Regiment will probably be commissioned 2nd Lieutenant U. S. A. on account of his splendid standing as Major of the Agricultural and Mechanical College cadets while a student there. With splendid physique, bright and genial disposition, with the manual of arms as familiar as his alphabet, he is calculated to win friends, admirers and honors through all his life.

Fully 700 men of the 2nd Regiment are laid up with vaccinated arms.

At dress parade the handsome flag, sent by the ladies of Pitt county to the soldiers of that county was presented. On account of storms and sore arms there has been no dress parade for several days.

Only 18 recruits for the 1st Regiment at Jacksonville have been secured. The Second Regiment is about recruited up to its requirement. Capt. Crawford of the "Governor's Guards" is here on a 10 days leave of absence to see his wife who is sick.
