## SERIOUS CONDITIONS.

### Confronts American Army Before Santiago.

### A THOUSAND CASUALTIES

#### Relief Ship With Nurses and Surgeons on Way to Shafter's Army.

### MORRO CASTLE CAPTURED.

#### The Battle Continued. Advanced Positions Held by Americans. Dewey Will Take care Germany.

#### A Serious Situation.

Special to Journal. WASHINGTON, July 2.—There can be no question that the situation at Santiago is a most grave one.

This is best seen by the fact that the Departments refuse to give out any but the most meagre accounts of the fight.

The report from General Shafter stating that he had previously underestimated the casualties which was received here this morning, was so alarming that President McKinley and his Cabinet decided to keep it quiet.

But General Miles gave publicity to it, and this caused something of a row between Secretary Alger and General Miles the latter being reproved for his indiscretion.

#### The Fighting Resumed.

Secretary Alger says in reply to inquiries that the fighting at Santiago was resumed this morning and that the situation was very grave.

#### The Spanish Account.

A Spanish dispatch from Santiago via Madrid in regard to the fight says: The Americans advanced in force and cannonaded the village of Canoy, and the First Brigade of the Spaniards of four thousand troops under command of General Vera De Ray, was defeated.

#### Conflicting Reports.

General Garcia is reported as saying that General Pandos with eight thousand troops has entered Santiago, the small force of Cubans sent to oppose Pandos being unable to stop his army.

As opposed to this a Madrid dispatch from General Linares at Santiago says that he has not seen General Pandos and his army.

#### Hospital Supplies For Troops.

The hospital ship Relief sailed from New York today with nurses and surgeons for General Shafter's wounded men. The hospital ship Solace at Guantanamo has been turned over for General Shafter's use.

#### Says Nothing From Shafter.

Adjutant General Corbin to whom all military dispatches come, has received nothing from General Shafter.

#### From Private Sources.

From private dispatches it is learned that General Shafter reports that the battle is being continued around Santiago. That the army has sustained a thousand casualties and surgeons are needed.

The heat is intense and many prostrations caused by the hot temperature prevailing.

Hundreds of Americans are wounded and are overcome by the intense heat.

#### Barbed Wire Fences.

In their charges upon the out posts of Santiago the American troops encountered barbed wire fences eight feet high.

#### Reported Captured.

From a private source a late report says that Morro Castle was captured by the Americans.

#### What do They Mean?

Germany continues to officially talk friendly to this Government, but the news from Admiral Dewey shows that the acts of the German navy are far from being as friendly as the talk of the German government. Germany has assembled a fleet of warships in Manila Bay that is quite as strong, if not stronger than Admiral Dewey's fleet. Of course

this government must accept the claim of Germany that the only business of this fleet is the protection of German citizens at Manila, until some act showing otherwise has been committed, but that is no reason why the administration should believe that claim is made in good faith. There are less than fifty German citizens in Manila, and as long as Dewey is there their private interests and their persons would receive the same protection given to Americans.

#### Watch Dewey.

Officials refuse to acknowledge that they entertain suspicions of Germany's intentions, or, in fact to discuss at all the possibilities of German interference in the Philippines. It is known, however, that Dewey has orders not to allow any foreign interference with the carrying out of his orders, and that Gen. Green, who is in command of the first detachment of General Merritt's army, now on the ground and acting in concert with Dewey, has similar orders. Should the German fleet attempt to do anything not sanctioned by Dewey there would be a bigger battle in Manila Bay than the one which resulted in the destruction of a Spanish fleet. Dewey is the sort of man to either bluff or bamboozle; he will carry out his orders regardless of consequences.

#### THE WAR BALLOON.

Its Use at Santiago. Cannot be Shot by Rifle Ball.

CHICAGO, July 1.—The balloon that is now in active use, sailing over the beleaguered city of Santiago, and in plain view of the Spaniards and Americans, was shipped from Tampa with General Shafter's forces, together with the submarine cables and other field telegraph equipments now being used by the signal corps of the army in Cuba. This balloon was shipped from Paris early in May and is charged with oxygen from tubular reservoirs, which have been in use by the army for experimental purposes at Fort Riley, Kan.

The balloon is first charged and then allowed to ascend by means of wire cables from a large reel made fast to a field wagon. The cables are used as telegraph and telephone conductors, and the occupants of the balloon transmit to the ground their observations.

There is little danger of the balloon being pierced by a rifle shot, on account of its constant swaying and the extreme difficulty of hitting anything at an elevation of 2,500 feet, which is the usual limit of a cable reel. The French say they have a gun which will pierce a balloon, but it is supposed there are none in use either in the American or Spanish armies.

Had one of these balloons been aboard of Sampson's fleet much anxiety would have been prevented pending the final discovery of Admiral Cervera in Santiago harbor. Each of them has a lifting capacity of 300 or 400 pounds, which would enable it to carry two signal men of ordinary weight, as well as the necessary telegraph and telephone apparatus. The Santiago battle is said to be the first in which a balloon has been put in actual war service on this side of the Atlantic ocean.

#### THE STATE CAPITAL.

No Naval Reserves Needed. Third Regiment Appointments. Judge Purnell to Appoint Bankruptcy Referees. Revenue Shake Up.

JOURNAL BUREAU, Raleigh, N. C., July 2. Adjutant General Cowles has been notified that no more Naval Reserves will be needed as more have been mustered in than the government has a use for.

The appointments of the field and staff officers of the Third Regiment of Volunteers, colored, were completed last night. All are negroes. They are: Colonel, James H. Young, of Raleigh; lieutenant-colonel, Chas. L. Taylor Charlotte; majors Andrew J. Haywood, of Raleigh, and E. E. Smith of Goldsboro; adjutants, Abraham Middleton and David P. Lane; surgeons, Thomas R. Mask, J. A. Dellinger and M. T. Pope; quartermaster, Thomas C. Miller.

Judge Purnell says that under section 602 of the Revised Statutes he will be called upon to appoint all the referees in bankruptcy in this State. This of course, being upon the belief that Ewart will not be appointed Judge of the western district.

The shaking up in the revenue district by Collector Duncan, very naturally causes a sensation, this being especially so among those holding places who thought themselves secure under civil service law.

But the "new solution" of why Democrats should not hold office under a Republican administration, shows that civil service law amounts to nothing, if the administration needs officers for the faithful.

The Glorious Fourth is to be celebrated in truly patriotic style in Raleigh. Extensive preparations are being made, and it promises to be the largest exhibition of patriotism that has taken place since the war. The splendid Second Regiment, in full force and bright new uniforms and equipments under Colonel Baryngue will parade through the city, annual race by the firemen, and other attractions during the day. At night an illuminated bicycle parade through the streets, and fancy riding in the pavilion at the Park; fire-works—the most elaborate ever provided—will also occur at the Park. One of the finest brass bands in the State will furnish music during the day and at night.
