COLLISION AT SEA.

French Steamer La Bourgogne Run Down in Fog.

Five Hundred and Fifty Three Lives Lost. Wild Scramble to Escape. Men Act as Beasts Driving Women and Children to Their Death.

Special to Journal.

HALIFAX, NOVA SCOTIA, July 6.—The steamer La Bourgogne, of the French Line, which left New York bound for Havre, was sunk Monday morning, July 4th, in a collision with the British ship Cromartyshire.

The collision occurred in a fog when the vessels were south of Sable Island. Of the 716 persons on board of the French liner, 553 were lost.

Fifty three passengers and 110 of the crew were rescued.

Capt. Deloncle and all officers except the purser and three engineers went down on the steamship.

The Cromartyshire carried the rescued people and was towed into port by the steamer Greellan.

A rescued passenger gave the following account of the catastrophe:

"The scenes enacted on the La Bourgogne just after the collision were terrible. Men fought for places on the boats like maniacs; women were forced back from the boats and were trampled upon by the human beasts.

A large number of Italians and other foreigners on board stopped at nothing.

In one boat there was a party of forty women, but so great was the panic that not a hand was raised to assist in launching the boat. The occupants of the boat, so near safety, were drowned like rats when the steamer, with an awful hissing sound went down.

So desperate was the situation that an Italian drew his knife and made thrusts at another man who like himself was endeavoring to reach the boats.

Immediately this man's action was imitated in every direction. Knives were used with deadly effect; women and children were driven back to their death at the point of these weapons.

The scene on the water was worse, many persons struggling in the water attempted to drag themselves into the boats and those on rafts were rudely pushed back into the water. Knives were also used here, freely, and other weapons did the work. It was a case of the survival of the fittest."

Supplies For Starving Cubans.

WASHINGTON, July 5.—The plan of feeding the starving Cubans is proceeding systematically. Today large consignments of food were sent from New York including 75,000 pounds of cornmeal, 862,000 pounds of flour, 750,000 pounds of bacon, 60,000 pounds of coffee, 150,000 pounds of sugar, 60,000 pounds of soap, 60,000 pounds of salt and 3,000 pounds of pepper. These will be made up into rations and distributed over a wide territory to the Cubans. The supplies will also include refrigerated and cold-storage beef for Cuban troops and the reconcentrados.

Looks Like Possession.

WASHINGTON, July 5.—The new military postal sub-stations of the New York and San Francisco offices in Cuba and Philippines, while intended principally for handling mail to and from the armies of occupation, will handle other mail as well. This is a radical departure from all precedents, and is regarded as an indication that the United States intends to take complete possession of both Cuba and the Philippines Islands and to administer the government in both places, at least until some disposition can be made of them.

THE STATE CAPITAL.

Second Regiment's Military Ball. Congressman Fowler's Poor Chances. Big Revenue Returns. Rains Help Crops.

JOURNAL BUREAU. RALEIGH, N. C., July 6.

The military ball given last night by the officers of the Second Regiment was a most enjoyable one in spite of the heavy down pour of rain. There were many who could not get out there for the street cars failed to run for several hours, and there were not enough carriages to carry the crowd that were invited. The rain of course broke up the part of the programme that was to be held on the lawn.

The action of the non-commissioned officers in indefinitely postponing the ball they were to give tonight is very generously commented upon. It was postponed out of respect to the memory of Lieut. Shipp.

The Bagley Monument Fund has now reached \$1,995.15.

Adjutant General Cowles has sent to the 1st Regiment certificates which will enable them to secure the \$2,000 due them for pay from April 27th to May 1st. These certificates will be attached to the monthly pay roll with amount due to each man. This regiment will be more apt to get this back pay than the 2nd Regiment; as it was the first to be mustered in and its officers volunteered in a body from the North Carolina State Guard.

The weekly crop report gives the fact that cotton has stood the intense heat very well. The splendid rains of the last 21 hours have saved the crops generally. Tobacco was suffering more than any other crop.

Congressman Fowler is here looking after his interests but the prospect for his election is poor as the anti-Butler Populists have no use for him, neither have the Republicans.

The war department notified the Adjutant General that \$9,488 is assigned this State as its quota for the State Guard for the year beginning July 1st. There will be a requisition sent in at once for blouses, blue flannel shirts, trousers, leggings, campaign hats, forage caps etc to replace those worn out, and those put in use by companies which have volunteered.

The railroads will be given a hearing by the Railroad commission July 12th as to the increased assessment for taxation which was recently made.

The attorney general says it is his opinion that the legislature has no power to tax the salaries of State officers whose salaries are protected from reduction during their term of office.

The wheels in the parade on the night of the 4th were most beautifully decorated and the costumes were very unique. The best costume (male) Mr. C. B. Edwards, Jr. prize \$5; the best ladies costume, prize pair \$3.50 bicycle boots was won by Mrs. Sam Young. The best decorated wheel won a prize of a pair racing tires valued at \$7.50, this fell to Mr. W. B. Wright.

A new building at the white and colored blind asylums both will soon be erected to be known as the Industrial and Heating plant building.

Rev. Thomas Dixon lectured here tonight, his subject being "Cuba, or the battle cry of freedom."

The first two days after the war revenue bill went into effect there were \$18,000 taken in at the revenue office from that source alone.

About 60 negroes left here today for Fort Macon.

The intense heat that has done much to damage the crops was broken on yesterday and a splendid rain began to fall.

COLON MAY BE RAISED.

Sampson Carries That One and Possibly More of the Spanish Ships May be Utilized.

New York, July 5.—The Herald has the following from Washington: "I think it may be practicable to raise the Cristobal Colon and possibly one or two other Spanish ships." This is the reply made by Rear Admiral Sampson to a cablegram from Secretary Long yesterday.

Immediately upon its receipt Assistant Secretary Allen gave consideration to the employment of wrecking companies to proceed at once to Santiago de Cuba and take charge of the work of raising the ships and of removing from them all valuable equipments. Mr. Allen sent a telegram to Mr. Chapman, of the Chapman & Merritt Wrecking Company, of New York, requesting him to come to Washington and confer with him regarding the raising of the Spanish men of war. The conference will occur tomorrow morning.

Appreciating that a storm will injure the ships beyond repair, the authorities are making every effort to make a contract with the wrecking company and get its appliances to the coast of Cuba in a hurry. Instructions were sent today to Rear Admiral Sampson to make every effort to float the ships, and he was instructed to use the repair ship Vulcan in any way that might be deemed practicable.

WANT THE SHIPS.

United States to Raise Spanish War Vessels.

Wrecking Tug on Way to Santiago. Admiral Cervera to be Given Parole Immediately Upon Reaching this Country.

Special to Journal.

WASHINGTON, July 6.—The conference in regard to the possibility of raising the Spanish men of war sunk off Santiago de Cuba was held today by Assistant Secretary Allen, the result being that the Chapman & Merritt Wrecking Company was given an order, and their powerful wrecking tug the Rigat Arm sailed from Norfolk later in the day, bound for Santiago to raise the sunken Spanish vessels.

President McKinley has given directions that immediately upon his arrival in the United States Admiral Cervera shall be released upon parole.

This is a continuation of the extreme courtesy and attention which has already been extended to the distinguished Spanish Admiral, since his capture.
