SURRENDER EXPECTED.

Bombardment Delayed Until Today Upon Spanish Request.

VICTORY WITHOUT BLOODSHED.

Camara's Fleet Headed Westward For Spanish Shores.

Watson Will be Strong Enough to Meet Him. Canaries to Fall First. Re-inforcements Going Forward Hourly. That Spanish Privateer.

Special to Journal. WASHINGTON, July 9.—General Shafter has extended the armistice until tomorrow to enable General Linares to arrange the terms of surrender of the Spanish army and the city of Santiago.

The assault has been held off to give General Linares time to think over his hopeless situation, and to afford an opportunity for the Archbishop of Santiago and foreign consular representatives to exert their influence.

Seven heavy siege guns were brought up from the coast today. In addition to the big guns six more batteries of artillery reached General Shafter at the front. All these guns command the city from the American positions on the opposite slopes.

If General Linares does not give up, when General Shafter opens fire, Admiral Sampson will turn his guns upon the city. The vessels will lie off Aguadores to the east of Morro and will drop shells into the city from a distance of six miles.

Careful observations were taken from the hills with a view to enabling the fleet to take a position and join in the bombardment.

Unless the surrender is made Sunday the bombardment will begin.

Four thousand additional troops are ready to sail at Charleston. More are now on the way from the camp at Chicomanga.

Peace Perhaps.

It is declared that the Spanish cabinet is considering the asking for ten days armistice to arrange the terms of peace.

The war party considers that the army must first by a notable victory wipe out the defeat of the navy.

The peace party urges direct negotiations with the U. S. rather than through powers whose selfishness has allowed Spain to be crushed by a strong enemy, and who may now intrigue for harder conditions, desiring to profit by her dismemberment.

It is said at Madrid that Admiral Sampson has telegraphed General Blanco at Havana to evacuate Cuba or all ports on the coast will be bombarded.

Turning Back.

Admiral Camara's fleet arrived today at Port Said on his way back to Spain. The attempt to recover the Philippines was abandoned upon reaching the Red Sea.

Camara informed the Egyptian government that he has been ordered to return to Spain. His ships are going through the canal and will proceed westward. They will be allowed to coal as they are bound for a Spanish port.

Will Meet Him.

Commodore Watson's squadron sails from the Cuban coast to Spain next Tuesday. The fleet will be increased in strength and will include three battleships, and will include the Indiana.

The colliers and auxiliary cruisers will start from Atlantic coast ports and will rendezvous at sea. It is believed that the Canary Islands will be taken first. General Otis sails for Manila Tuesday from San Francisco. The expedition will carry artillery and cavalry.

He will stop at Honolulu to inaugurate the new government begun by the annexation of the islands.

The plan is proposed that in San Francisco all the forces encamped be removed as speedily as possible to Honolulu, where a camp may be established. Transports would then ply between Manila and Honolulu, saving two weeks which would be consumed by the round journey from Hawaii to California.

That Privateer.

Representatives Lewis of Washington State demands that the cruiser Patilla,

delphia, now preparing to leave for Honolulu, shall remain on the Pacific coast to protect it from the supposed Spanish privateers.

The steamers Roanoke and St. Paul are due to arrive almost any day from St. Michael with big shipments of treasure. The steamer Lenalaw is also due with returning prospectors and their "clean ups." The Roanoke and Lelanow are bound for Seattle and the St. Paul to San Francisco.

New York Harbor.

Secretary Alger will decide shortly in regard to the removal of the submarine mines from New York harbor, concerning which it was reported that they would be exploded.

The big steamship Berlin is bought by the government for the quartermaster's department.

The hospital ship Solace is due at Norfolk tonight with sixty wounded sailors on board. A daughter of Secretary Long is one of the nurses on the ship.

Spanish Feeling.

MADRID, July 8.—The impression made by the conduct of the American naval men toward their Spanish prisoners has produced a feeling highly appreciated here, that Americans have the innate spirit of military chivalry, which, up to this time, it has been denied they possessed. In fact, as a Spaniard said: "It shows that they are a race of men who have the true military instinct."

Joy is expressed at the renewal of cable communication with Havana, all the more so as the first news it brings is that Escario's reinforcements have reached Santiago.

Must Put on Stamps.

Special to Journal. WASHINGTON, July 9.—Internal Revenue Commissioner Scott has decided that Railroad and Express Companies must put stamps on their receipts issued from their offices.

PAYING FOR STAMPS.

Commissioner Caldwell Refuses to do so on His Telegrams.

Test Cases on the Stamp Matter. Raleigh's New Hotel. Russell to Blame for Negroes' Cardie. Rev. Cade Would be a Congressman.

JOURNAL BUREAU.
RALIGH, N. C., July 9.

The penitentiary people are being very severely scared on the fact of the escape of the burglar Gettings, alias Merritt, etc. The authorities had been warned that he was a very shrewd, cunning and dangerous man and yet he was allowed to share a cell on the night of his escape with another man. He was seen about day light by a man 8 miles from here. The two convicts were going at a rapid rate and he says he could tell they were escaped convicts.

The fact that the Commissioner of Internal Revenue has decided that the Express Companies must pay the stamp tax will raise quite a stir here as well as elsewhere. A test case is to be made as regards the telegraph companies.

It is said that only 110 men are needed to complete the negro regiment at Fort Macon. A negro preacher and politician here says that the cause of so many negroes failing to go to Fort Macon this week is only because of Governor Russell's incompetent appointments of officers, not because they were afraid of being sent to meet their fate on such a battle field as Santiago.

The Carleton Hotel here will be open for the accommodation of the public on Saturday the 10th. It is a new building having 83 bed rooms and promises to be an up-to-date hotel. Not only the travelling public, but Raleigh also is to be congratulated upon no longer being dependent on the Yarbrough House for hotel accommodations.

Yesterday was a genuine drill day at the camp here. Target practice was one of the features of the day.

The officers at camp, and especially of the Gastonia company, are very justly indignant, at the action of one of the physicians here in not allowing a member of their company to be cared for at the City Hospital as a pay patient. Arrangements have been made through the matron for his care there, and the officers of his company had pledged themselves for his expenses, when one of the physicians brusquely ordered him returned to camp hospital at once. One of the officers himself told your correspondent of the case, and said that it would hardly be allowed to rest as it was.

Mr. W. W. Ashe, State Forester of the Geological survey has gone to the Adirondacks, New York to do a few months of special work.

Rev. Bayles Cade (Populist) the private secretary of Governor Russell wants the Populist nomination for Congress for the 4th district. There is quite an array of aspirants for this honor. It is said that Governor Russell is trying to induce Senator Butler to give this district to the Republicans, and to let J. C. L. Harris be the man.

Chairman Caldwell of the Railroad Commission has notified the telegraph companies that he will not put the 1 cent stamp on messages and that if they refuse to send his messages he will have them before the Railroad Commission next Tuesday. The companies are putting the stamps on his messages themselves. This fact will bring forward the test case spoken of above.

A young lady came here yesterday from Philadelphia and married her sweetheart who is a member of the Nantahala Company of the Second Regiment North Carolina Volunteers.
