### WAKE COUNTY DEMOCRACY.

Backing up its Friends. Convicts For Railroad Work. Military News. Good Bonds to Own.

JOURNAL BUREAU, RALEIGH, N. C., July 15. Democracy in Wake county, at least, is waking up to the fact that it must pull together for the people, and not have one crowd backing up its friends and another crowd backing its friends. All these friends may be good Democrats, who will stick by the friends who have put them in, but men must be elected who will uphold Democracy and the people who favor it. It is said that Mayor Russ will be a candidate for clerk of the court. His backers will not be confined to the Democratic party should he receive the nomination. Even Republicans themselves are disgusted at the contemptible condition of affairs in the court house here.

The three men out at camp who have typhoid fever are critically low. The crisis of the disease comes today and if they can pass this, their chances for recovery will be good.

Superintendent Newborne will in a few days put 160 convicts to do grading on the railroad from Raleigh to Lillington.

For several days there has been held a court of inquiry looking into charges made as to how the hospital was so poorly managed out at the camp here. Major Dixon is the president of the investigating committee.

The Railroad commission orders the Western Union telegraph company to charge 24 cts. for a message from July 15th until they appear before the commission and show why the 1c. tax should be paid by the sender of a message. This 24 cent charge with the 1c. tax makes no difference to the sender until the matter is settled.

As your correspondent said a few days ago it is very hard to get the truth of things out at camp. It was stated there 10 days ago that the whole equipment and clothing for the regiment had been received and issued. Now it turns out that they need 1,000 leggings and the same number of blouses. There are fully 35 men in each company not equipped at all. The six companies to go south will leave tomorrow. While they have been anxious to go to the front, they regret very much to leave part of the Regiment here and that even these six companies will be scattered.

State Auditor Ayer has received a letter from a New York banker saying he had just bought some North Carolina 4-per cent bonds at 108 and some 6-per cent at 120 and considers them equal to United States securities.

The express company here still requires the senders of packages to put on the 1 cent stamp, and then they cancel it with the express company's stamp.

The Browning murder case is being tried today. A jury was not empaneled until late yesterday. The trial will hardly be finished before next week.

### Spain Awaiting Attack.

LONDON, July 14.—Advices received here from the Canary Islands, under date of July 4, said that two Spanish torpedo boats were still at Las Palmas, and it was announced that a Spanish warship was at anchor at Tenerife. Ships were not allowed to enter the harbor after dark, and the coast lights were extinguished.

According to mail advices received here today from Cadiz, dated July 2, the old Spanish broadside armor-clad Victoria, for some time past used as a training ship, and which was towed back to Cadiz after starting ostensibly for the Philippine Islands with the fleet of Admiral Camara, is the only warship in the harbor. Mines have been laid to protect the entrance into the port of Cadiz, and the coast lights are extinguished along the whole length of the Spanish coast.

Vessels are excluded from all harbors of Spain after dark.

Gibraltar, July 14.—Many families of Ceuta and Algeiras, fearing an American bombardment, are emigrating to Ronda and Jimera.

It is rumored that a French squadron consisting of two battle ships and three cruisers, will shortly proceed from Toulon to Tangier.

### SIX TIMES THE ISSUE.

The War Bond Loan a Popular One Every Way.

WASHINGTON, July 14.—The subscriptions to the new three per cent war loan of \$200,000,000, which closed at 3 o'clock this afternoon, including the offers made by syndicates, will amount to \$1,200,000,000, six times the amount of the issue. The subscriptions represented by checks or other forms of payment, it is estimated, will aggregate about \$750,000,000 or three and three-quarter times the amount of the issue. Early this week Assistant Secretary Vanderlip, who has had immediate supervision of the work in connection with the loan, became convinced that the subscriptions of individuals would be far more than sufficient to wholly absorb the loan, and gave instructions that checks representing all subscriptions of corporations be prepared and returned to the senders tonight. It is thought at the Treasury Department that no individual subscription as high as \$10,000 will receive an allotment of bonds.

## IS IT TREACHERY?

Continued Delays to Complete Surrender of Santiago.

## SITUATION VERY GRAVE.

General Toral Makes Unnecessary Proposition.

## YELLOW FEVER SITUATION.

Fourth Expedition Sails for Manila Porto Rico Expedition Expects to Leave today. Military Governors Appointed.

### A Heavy Task.

WASHINGTON, July 15.—Now that Santiago is taken, the government has on its hands a task far more momentous and perplexing than that of getting the American army to Cuba. The terms of the surrender provide that Toral and his troops are to be returned to Spain, in addition to the recall of all Spanish garrisons in certain prescribed limits of territory practically including all eastern Cuba, and to send these men, which number anywhere from five to thirty thousand, including those in the outlying districts, will require a great fleet of transports and hundreds of men to guard the prisoners on board.

### Disposition of Army.

At a Cabinet meeting, today, dispatches were read from General Miles on the matter of how the American troops were to be disposed of when the surrender of Santiago was finally settled.

The question of yellow fever among the troops makes this disposition a very important one to decide.

### That Surrender Commission.

General Shafter cabled the Administration that the Surrender Commission had sat until a late hour last night, and was sitting again today arranging the details of the surrender.

### Two Appointments.

General Shafter is to be the Military Governor of Santiago, and Colonel T. N. Barber of the First New York Regiment of Volunteers, will be the Military Governor of Hawaii.

### Not to Enter City.

Some of the details of the plan of surrender are that the United States takes the Spanish forts and their guns, but that our soldiers are not to enter Santiago until the Spaniards leave for Spain. The Americans are to be granted the right to have a circle of guards around the city.

### Fourth Expedition For Manila.

The fourth expedition sailed today from San Francisco for Manila, under the command of General Otis.

### Expedition For Porto Rico.

The expedition for Porto Rico under General Miles, which is expected to sail tomorrow, has had extensive preparations made for its success.

### Yellow Fever Cases.

The report on cases of yellow fever among the American troops near Santiago gives new cases as twenty three, with three deaths from same during the twenty four hours.

### Administration is Anxious.

The Administration is very anxious to learn of the final completion of the work of the Surrender Commission, and are seriously awaiting further particulars from Santiago.

### Is It Spanish Treachery?

A late cable to Secretary Alger from General Shafter, greatly annoys the Secretary of War, as it discloses a proposition, offered by General Toral, to submit the findings of the Surrender Commission to the Madrid government, before making final surrender.

If accepted this proposition means delay, and delay worked by the Spaniards may mean harm to Americans.

This continued delay is regarded as a very grave matter by the Administration.

### 'Tis English, You Know.

LONDON, July 14.—Mr. Cunningham Graham, the former member of Parliament, who wrote a series of articles insinuating to Americans in the Westminster Gazette, has written a letter to the St. James Gazette, which is published today saying that the excellent gunnery exhibited by Admiral Dewey's squadron was due to the fact that "most of the gunners were Englishmen," who were "decoyed from our Chinese squadron by promises of \$500 monthly." Mr. Graham urges that this matter be brought to the attention of Parliament.
