## THE NEW ATTACK.

The Army on Its Way to Porto Rico.

## DEWEY AT MANILA.

Assault on the City Expected Soon. Troops are Advancing. Lieut. Hobson in Washington. Another Spanish Cruiser Gone the Usual Way.

Special to Journal.

WASHINGTON, July 22.—General Miles cables from Mole St. Nicholas, Haiti, as his expedition passed that point this afternoon.

The fleet of ten transports, loaded with the troops for the Porto Rico campaign, and conveyed by the warships of Admiral Sampson were making good time for their destination.

The invading army will be landed on the north shore of the island Sunday and the same operations are to be employed that were so successfully when 15,000 men were landed of General Shafter's command. If Spanish are suspected of being on shore to oppose the landing or harass the troops the warships will begin shelling the coast.

Admiral Sampson was instructed to furnish the convoys for Miles and it is presumed that the main fighting part of his fleet will sail also by the end of the week to take up position preparatory to throwing shells on San Juan. The ships after their period of constant activity, were chiefly in need of attention, coal supplies and provisions.

Nearly thirty thousand men will constitute the formidable army of invasion. The remainder of the Rough Riders who were left behind at Tampa to care for the horses and outfit will go to Porto Rico. Four troops of these, with several hundred recruits enlisted in the West to fill vacancies, will sail and join the main body under Colonel Roosevelt, who is said to be now with General Miller. Recruited to its full strength and with the four troops at Tampa Colonel Roosevelt will have a regiment under his command, composed of as hard fighters as any in the regular army.

Admiral Sampson cabled that the Annapolis and Wasp destroyed the Spanish Cruiser Jorgo Juan in Nipeas Bay.

**Yellow Fever.**

State Superintendent Henderson declares that no yellow fever exists at Tampa Florida.

If cases of yellow fever have not already broken out among the sick soldiers brought to Fort Monroe from Santiago, there are cases of such grave and suspicious nature, as to cause apprehension among the surgeons who have charge of the post hospital at Old Point, and special efforts will be made to isolate every case.

**At Manila.**

The first California regiment as an advance guard is marching on Manila. On the 19th it had advanced to Janbo, two miles from Manila.

South Manila will be captured first. The advance is led by General Greene.

The second military expedition, which left San Francisco for Manila on June 15, arrived last week. There were 3,500 troops in command of Gen. Greene, making a total of more than 6,000 American soldiers now co-operating with Dewey.

Admiral Dewey contemplates an assault on the city by land and sea this week, without waiting the arrival of General Merritt. The Spaniards are said to be thoroughly disheartened and to have given up all hope of being reinforced, and, as starvation threatens, it is believed the city will be easy to capture.

**Hobson is Home.**

Lieut. Hobson of Merrimac fame, who arrived at New York this morning on the Yale, proceeded directly to New York and held before Secretary Long his report on the raising of the Spanish cruiser Maria Teresa and Colon.

Hobson was received with great enthusiasm everywhere that he appeared.

**No Peace Yet.**

Although peace talk continues to be echoed from Europe there is nothing but fighting in administration circles, the President and his cabinet having become fully satisfied that Spain will not accept peace on the terms that would be offered until she is further humiliated and having determined to bring about her further humiliation at the earliest moment possible.

**Question of Ships.**

Gen. Shafter seems to have had the law on his side when he declined, after

the Spaniards had surrendered to him, to allow Admiral Sampson to take possession of the Spanish merchant ships that were in the harbor at Santiago, and put prize crews in charge of them. Several decisions by the United States Supreme Court have a direct bearing upon this matter. In one of them, the opinion by Justice Field, it was stated that no prize money could be allowed for captures or for the destruction of vessels by the navy, where the army had aided, even by its operations several miles distant.

It is claimed by some that the above decision will bar the payment of head money to the officers and crews of the vessels which destroyed Cervera's fleet, because it was the operations of the army which virtually drove the fleet out of Santiago harbor; but that seems to be drawing it rather fine, and the wrong way at that, while the natural presumption is that if there is any stretching to be done it will be in favor of, and not against, the gallant fellows who destroyed Cervera's fleet. Gen. Shafter was right in claiming that the navy had nothing to do with the ships that had surrendered to him, but he would not be right in claiming, and nobody who knows him believes that he will claim, to have assisted in destroying Cervera's fleet.

**The Cuban Allies.**

SANTIAGO, July 20.—Gen. Calixto Garcia, in charge of the Cuban forces in the operations about Santiago, today notified General Shafter that he had tendered his resignation as commander of the insurgents in the eastern department.

That General Garcia has not seriously retired from the army is disclosed by the fact that he has just agreed with General Castillo to march their Cuban forces against Holguin, and that both Garcia and Castillo have joined in a request to General Gomez to unite with them in driving the Spaniards out of all the other provinces prior to the American attack on Havana.

It is announced that Generals Garcia and Castillo are marching toward Holguin. Cuban staff officers confidently asserted that they would capture the Spanish garrison there within a month. During the interim preceding the Havana campaign the Cubans promise to take the field with extraordinary activity and to clear the greater part of the island of Spanish troops.

It is likely, too, that the misunderstanding between General Shafter and General Garcia will result in the Cubans of all parts of the island uniting for effective warfare against the Spaniards. If Generals Gomez and Garcia will drop personal animosity and act together the Cubans, they may yet do some effective work in freeing their country from the rule of Spain. They have been liberally supplied with arms, ammunition and food.

**Rumored Marriage.**

SPECIAL TO JOURNAL.  
NEW YORK, July 22.—In society circles here there is a rumor that W. K. Vanderbilt will marry the Duchess of Manchester.

**Afraid of Watson.**

CADIZ, July 21.—The Isle de Panay and the Isla de Luzon have arrived here; the two transatlantic steamers have gone to lay up at Seville. The Valdes is anchored in the bay. It is reported that General Ochoando is taking up his headquarters at Cadiz.

It appears marquis de Comillas, who is in Madrid, wired the Trans-Atlantic Company that he had authentic information that Watson was starting. He advised them to get all their vessels in places of safety.

The movements, combined with the arrival of more troops and guns at Algaciras, are throwing the population into consternation. The tents are appearing mushroom like around the bay, and thousands of sand bags are arriving.

**ON THE DIAMOND.**

Results of the National League Baseball Games Played Yesterday.

## CLARK IN A HOLE.

Admits Having no Proof Against President Kilgo.

Camp Site Not Changed. Chairman Simmons Embarrasses the Enemy. Protests Before Railroad Committee. No Profit in Making Shirts.

JOURNAL BUREAU, Raleigh, N. C., July 22.  
Col. Burgwyn late yesterday afternoon marched the six companies of the Second regiment back into camp after their two days outing. They seemed to have enjoyed the trip.

It is not yet decided that the troops will change the site of the camp. They may only change the water supply. This seems strange to the people here in the face of all the protests that have been made against the present site.

There are only twenty-seven patients in the hospital now.

The board of trustees of the penitentiary are in session, and are wrangling over many things. Mr. W. H. Caldwell one of the members of the board wants the State to quit farming as it has not been a success, and besides comes in competition with the farmers.

The fact that the shirt factory is not such a profitable undertaking is also an annoyance to the bosses and the board.

The board of agriculture have increased the appropriation of \$10,000 to the Agricultural and Mechanical College, to \$15,000. Three additional fertilizer inspectors, at a salary of \$75 per month were appointed. They are still in session.

Hon. F. M. Simmons, State chairman of the Democratic party has asked for certain information from the penitentiary board. Among other things for the report of John R. Smith while he was superintendent. This has never been made and Mr. Simmons request was an awkward one.

The Wilmington and Weldon railroad has filed before the railroad commission exceptions to the recent order of the commission reducing passenger rates on that road to 2 and 2 1/2 cents per mile. There are 5 grounds of exceptions which will be heard on the 29th.

The Pullman Car Company also files exceptions to the order increasing the assessed value of the Pullman cars in North Carolina. It contends that all the cars in the State save one are inter-State cars. That only 18 cars are in use in use in this State and that the value of these at \$5,000 each is \$90,000.

Judge Clark appeared before the board of trustees of Trinity college last Monday but said he had no proof of fraud to back his charges against President Kilgo. It was stated that evidence in the matter was taken but that was a mistake. The Judge has put himself in a hole and as a gentleman remarked is likely to keep himself in one.

Secretary of State Thompson, as insurance commissioner says he is sure that a number of "beneficiary" insurance companies are doing business in North Carolina without paying any license.

The State Museum yesterday received a thousand pound armor piercing shot from the U. S. Proving grounds at Sandy Hook. It has been fired through 1 1/2 inches of steel armor plating. It took only 320 pounds of powder to fire it. It is 12 inches thick and 31 feet long.

The streets around the Capital grounds are being macadamized. The paving and parking of the side walks around square will cost \$2,500. Graniteolithic pavement is to be used.

The Mills manufacturing company have just shipped to Liverpool 10,000 wagon spokes. During the past six months nearly 700,000 spokes have been shipped from here to England.
