SPAIN STILL CONSIDERS.

But While She Hesitates Our Army is On The Move.

THE PEACE PROPOSITION

Is Officially Stated to be as Already Published. Quiet at Manila at Last Report. Congress Will Soon be in Session Again.

Special to Journal.

WASHINGTON, August 2.—The official statement of the peace terms given out at the White House are about the same as have been already published.

This statement is made since the Madrid cabinet held two sessions to consider the peace terms of the United States and sent a dispatch to Washington asking "further explanation of some difficult points."

The President asks no indemnity, as already announced, but Spain must give up Cuba, cede Porto Rico and several small West Indian islands and one in the Ladrones, Manila to be kept by the United States pending the final settlement of peace.

If Spain accepts, then the peace commissioners will meet and settle the details. This reply may be received at any time, and the anxiety already displayed by Spain to settle upon a basis for final peace negotiations warrants the expectation that it will not be delayed long.

An extra session of Congress will be called soon to consider the peace treaty. It is necessary that they shall be passed by the Senate, and the House must provide for the retaining of the volunteer army in service as their enlistment is limited to the duration of the war. A large part of the volunteers will be required to garrison Cuba, Porto Rico and Manila.

Miles Advancing.

While the peace negotiations are going on General Miles is gradually advancing towards San Juan without opposition. A battle is expected at Alibonito, thirty-five miles northeast of Ponce.

The army of invasion has been favored by good weather. The men are in splendid condition. As they advance they are becoming more and more encouraged about the country.

On account of the great number of villages and towns that asked to be placed under the protection of the flag, General Miles has cabled for a supply of bunting. About the only thing the expedition seems to lack is a supply of the flags of its own country. No one could have foreseen that the flag would be so extremely popular and wanted so soon.

Quiet at Manila.

The steamers Peru and Pueblo have arrived at Honolulu with troops for Manila.

Fighting in the vicinity of Manila is practically over, so far as the Spaniards are concerned. No negotiations of an official character have yet begun, but Admiral Dewey has received information from Manila that the city will surrender when called upon to do so.

The demand will be made when General Merritt is ready, though possibly it will be delayed until the arrival of the monitor Monterey, to make sure of no further resistance by the Spaniards.

Returning Home.

Part of the cavalry regiments that fought at Santiago are returning home and have embarked on transports for Montauk Point, N. Y.

A letter from General Shafter to Secretary Alger says that officers with the army at Santiago who went through the civil war in the United States declare they never experienced such hardships as the army has undergone in the campaign in Cuba. Santiago, he says, was more strongly fortified than he thought before the surrender of the city.

RALEIGH.

Hospital Matters of the 2nd Regiment. Promotions Being Made. Farmers Alliance. Practice at Fort Caswell. In the Collector's Office.

JOURNAL BUREAU.

Raleigh, N. C., August 2. The Progressive Farmer, a Populist paper here says that Senator Butler and a Democratic organ are on very good terms, and must be fixing up some election law scheme.

The executive committee of the Farmer's Alliance will meet in Hillsboro on Friday the 5th. The Alliance shoe factory there has been a failure and shut down. It is said that there are but very few members of the Alliance now. That it has died out because it is a Populist organization. It was through the Alliance that Populism got a foot hold in North Carolina.

The association with the big disappearing glass at Fort Caswell at the

mouth of the Cape Fear river is attracting attention. A shot from an 8 inch gun at 4,300 yards distance at a target 8 feet square put a shell through it. It was fired by Lieut. Richmond Pearson Davis.

The Democrats in North Carolina have formed a "White Government Union." The object is to establish the supremacy of the white race. Nothing secret is in the order. There are to be county and township unions.

The Republicans and Populists are still declaring that they will carry the State by a bigger majority than ever before. Not for over 20 years have the Democrats worked harder nor have they been for years more united.

Three Armenian preachers are here to do missionary work in the city.

The Secretary of State has sent out the monthly statements of insurance companies containing a list of those entitled to do business in this State.

We had another storm yesterday and lightning struck the cupola of one of the public school buildings and otherwise doing harm to the building.

Governor Russell has filled the two vacancies among the officers of the Second regiment. First Lt. A. C. Avery of Company C. resigned. Second Lieutenant F. B. Davis was appointed to succeed him, then Mr. Avery was made Second Lieutenant to fill the vacancy made by the promotion of Lt. Davis. In Company E. 2nd, Lt. Meadows resigned and private E. Victor Cox was appointed to the place.

Chaplain Osborne did not go with the regiment on Sunday but stayed here with those sick in the hospital. All are doing nicely even the five typhoid patients. Surgeon Brooks says that he will be here at least three weeks longer, as he is sure some of the sick will not be able to be moved earlier. He moved the hospital yesterday into a clean room, and had much work done out there which will no doubt have a very beneficial effect upon the sick. There is no doubt in the minds of many that stubbornness on the part of the officers in charge of things at the camp and in the Hospital has cost the lives of some of the men. The camp Hospital and all should have been moved weeks ago.

In giving the roster of the officers and company commanders of the Second Regiment the papers here persistently give as Major Cotton's Adjutant, David Clark, but it is Bradley J. Wooten. The report of the death of Adjutant Wooten is found to be a mistake. His father telegrams that he is doing nicely at St. Augustine Hospital.

Collector Duncan made several changes in the office appointments yesterday. He re-appointed C. Metcane for 30 days special service at Greensboro. Also G. W. Meares gets a like appointment. Accepting these appointments puts the appointee entirely in the collector's hands to be dropped at his will regardless of civil service rules. Dr. J. Perkins of Pitt is put on the Greensboro force permanently to succeed J. W. Shelburn, Democrat, who was removed. Starkey Hare has a clerkship given him at the brandy desk in the collectors office here.

The Bagley Monument Fund has now reached the sum of \$2,178.10.

About 100,000 copies of the election law are to be sent out by Populist Chairman Thompson.

"The Home Rule" in its issue tomorrow will publish a secret and confidential circular signed by Senator Butler. It has caused some dissatisfaction among Populists here. It advises Populists in this (4th) district to renominate Stroud for Congress.

Weekly Crop Report.

The Weather and Crop Report issued weekly today says: The report of crop correspondents for the week ending Monday, August 1st, are again favorable. In fact, at this time, probably the turning point of the season, the general prospects for crops are very satisfactory. The week was showery and warm, with intervals of bright sunshine, resulting in excellent progress in the growth of crops in most sections, except where the rains have been too heavy. The temperature was about normal; the maximum reached or slightly exceeded 90 degrees on three or four days, and the nights have not been too cool. The precipitation was above the normal, and in some counties excessive, with hillside and lowland crops, occurring chiefly in portions of Washington, Bertie, Anson, Marion, Davie, Lincoln and Lenoir counties. At many points the rains occurred daily, but were generally light, and crops suffered more from lack of timely cultivation than from too much moisture; in some counties, however, there were sufficient intervals to enable the final laying by of crops to proceed rapidly. In some counties crops will be laid by very grassy. Considerable land has been ploughed for winter wheat and oats.

Cotton is not unwholesome. The abundant rains have caused the formation of too much stalk and weed, delaying the formation of squares; the shedding of forms and lower leaves is also increasing, but, in general, though irregular, the crop is doing fairly well. In some sections it is really fine, with plants full of blooms; but it is apparently not fruiting well. Corn has been slightly damaged by rain on lowlands, but all upland corn is very fine. Late corn is in silk and tassel and is practically safe from future drought. Laying by the crop is finished. Some fodder has been

gun to ripen in the southern counties. The tobacco crop is doing well; some damage by flea bugs is reported. Farmers have been very successful in making good cures, which work is proceeding satisfactorily. Minor crops, peas, rice, field peas and potatoes, are doing very well, though very grassy here and there. Sweet potatoes are beginning to come into market and promise a large yield. Sowing turnips has begun. Haying was interfered with in the west by daily showers. Melons and peaches are still abundant, though damage by rotting is considerable.
