55 POLLOCK STREET.

TAKES TIME.

For Spain to Accept Peace Settlement.

NO MORE TROOPS WANTED.

Porto Ricans Join American Army. Yellow Fever Deaths. Probable Army Encampment in North Carolina. Spaniards are Puzzled at San Juan.

Fuzzling the Spaniards.

WASHINGTON, D. C., August 9.—General Miles' campaign in Porto Rico is progressing in a highly satisfactory manner. By sending his troops forward to San Juan in four columns he has the Spaniards puzzled, as each column is strong enough to resist attack. He intends to keep on fighting vigorously until ordered by the War Department to stop.

Joining American Forces.

General Stone is enlisting many Porto Ricans, who are gladly taking up arms against Spain.

The American Forces Continue to Move

steadily toward San Juan.

Yellow Fever Deaths.

General Shafter reports five deaths at Santiago from yellow fever.

The Peace Document.

A definite and speedy result on the matter of peace is not deemed probable.

Spain's reply is ready tonight for President McKinley's inspection. It is said that Spain has accepted the general terms offered by the United States, but insists upon many quibbling changes.

As a sample of this it is said that upon high diplomatic authority that Sagasta refuses to consider Manila as already in the possession of the American forces, and asks that the question of the Philippines be treated upon the basis of conditions actually existing. It is also said that the time and manner of withdrawing the troops from Cuba and Porto Rico are held by Sagasta to be proper subjects for negotiations.

Of course no one expects anything but peace in the end, but Spain's delaying may prove directly against her interests, by bringing some harder terms, which are certain to come, if the war is long continued.

No Men Needed.

General Miles has called the War Department that his forces are ample, and the Department has decided not to send any more troops to Porto Rico.

Encampment in North Carolina.

Major Miller, of the Inspector General's Department, has been ordered to inspect a tract of land in the vicinity of Tryon, North Carolina, for the purpose of ascertaining its suitability for the establishment of an army encampment post.

If the site is favorably reported upon, some of the troops now in Florida will be sent to the new place at Tryon.

Air Bags for Sunken Ships.

Lieutenant Hobson is in New York city for the purpose of purchasing air bags to be employed in the effort to float the sunken Spanish warships at Santiago.

Blanco to Blame.

New York, August 8.—Captain-General Blanco is held responsible by Admiral Cervera for the destruction of the Spanish fleet in the battle off Santiago. In his official report to the Madrid government, which has been transmitted to Spain through the French embassy, he calls attention to the orders issued by Captain-General Blanco, who was his immediate superior, which he shows were responsible for his entrance into the harbor of Santiago and for his departure from it.

Admiral Cervera states that upon his arrival at Curacao he was given instructions to proceed to the harbor of Santiago. Against his judgment, which was made known to the Havana authorities, he carried out his instructions, well knowing in advance that his fleet would be blocked in the harbor by a superior American force before he might have a chance to escape.

He received orders July 1 to leave the harbor of Santiago, notwithstanding the overwhelming force collected outside by the American government, and notwithstanding his telegram to Captain-General Blanco showing the certain result of a sortie of the kind.

What It Costs.

Washington, August 8.—The actual cost of the war to date has not been definitely computed. Contracts have been made and bills are still outstanding, which make it probable that full figures have not yet been obtained. While the various bureaus of the War Department keep eight accounts of all money ex-

penditures, they do not foot up the totals, leaving it to the treasury to audit all accounts and determine the aggregate.

So far the treasury figures show that about \$100,000,000 has been spent, but how many debts already contracted have yet to be paid there is no means of knowing.

The expenditures for August will probably be the largest yet, for the reason that many of the bills for July will be paid, and the cost of the Porto Rican expedition and the removal of the army from Santiago will, it is thought, be included. It is expected, however, that an average expenditure of \$1,000,000 per day will not be exceeded.

The total cost of the war depends, of course, upon its duration, but it is already evident that should peace be declared during the next few weeks, the necessity of maintaining the present military establishment will continue until other means of controlling Cuba, Porto Rico and the Philippines are found.

NO NEWS GIVEN OUT.

State Departments—all Close on What They Do.

Pamphlet on Whisky Distilleries, Weekly Crop Bulletin, Recruiting Going On. Mr. Pearsall at Raleigh. Dangerous Visitors Are Negro Cavalrymen.

JOURNAL BUREAU,

Raleigh, N. C., August 9.

It will be some time before the reduced rates in the Wilmington and Weldon branch of the Atlantic Coast Line, ordered by the Railroad Commission, will go into effect. The new rates were ordered to begin on the 15th, but today R. J. Burton, counsel for the road, filed notice with the clerk of the Commission that the road would appeal to the courts. This, of course, means that from the lower courts the defeated side will appeal to the Supreme Court. That will, of course, take some time, and until the court settles the matter the old rates will exist.

Secretary Ramsey, of the Agricultural Department, does not like to give out any department news, nor does he allow the public to see the minutes of back meetings of the agricultural board. The trustees of Agricultural and Mechanical College met yesterday. It has been known for some time that Mr. Skinner's place as steward would probably be changed, as he is such a strong Democratic. He has made an excellent officer.

State Labor Commissioner Hamrick, is getting out a pamphlet regarding whisky distilleries in this state. It will be quite a good sized paper.

The crop report for the past week is as follows:

The weather during the week ending Monday, August 8th, was quite favorable for the growth of crops, except in comparably few counties where there was too much rain, and was also more favorable for farm work than it has been for some weeks. Warm, showery conditions prevailed, with beneficial intervals of sunshine, the latter part of the week being quite dry. The temperature was remarkably uniform and was above normal, with an average daily excess of about 4 degrees. Showers were frequent the first half of the week and at some points in the west occurred almost daily; but the average was below the normal and the ground is now getting tolerably dry. In some of the central southern counties a little more rain would not be injurious. On the afternoon of the 4th a severe wind and rain storm in the west did considerable damage to corn by blowing it down. The weather in the west was unfavorable for stacking last oats and rye and for making hay. A large second crop of hay will be made as soon as the conditions are suitable. Thrashing wheat is now over.

The corn crop continues to maintain a most promising condition. Complete

concerning it are very few. Much early corn is matured; some fodder is ripe and pulling has just begun. Tobacco is ripening rapidly and well; curing is progressing very favorably. There are some further complaints of damage to the crop by flea bugs. Minor crops are doing very well. Pea vines are excellent and full of pods. Sweet potatoes and peanuts promise large yields. Sorghum cane is fine. Rice is very grassy and needs work. Fall cabbages are not doing well on account of too much rain. Grapes are ripe, but the yield will be diminished by rotting. Canning and drying fruit is under way. Fall plowing is now making better progress.

Special reports on cotton are very diversified and make it difficult to describe its condition in general terms. It is doing very well on stiff, black soil, where well cultivated, and under such conditions has not made too much weed and is fruiting well. On light, sandy loams the plant has become large at the expense of the fruit and shedding of bolls and lower leaves continues. The crop is generally poor in the north and northeast, as well as the coast sections of the State, but is excellent in the south-central, the most important cotton growing section. As there are less matured bolls than usual at this season it appears probable that the yield will be below the average, but it must be remembered that its condition is such that great improvement is possible with favorable conditions and late frost, and the yield may yet be large.

Surgeon Brooks at camp hospital here discharged six more of those soldiers left here sick when the Second Regiment was moved. Five of them were from the Gastonia company, and went to Land's End, S. C., to join their company.

In the spite of the peace signs the recruiting for the 1st Regiment goes on steadily. This slowness in securing men does not look as though it would be so easy to raise another regiment in this State, as some of the high officials declare.

P. M. Pearsall of New Berne has come here and taken charge of the distribution of literature, and the assignment of Democratic speakers during the approaching busy campaign.

This morning the 9th Cavalry (negroes) arrived here. They stopped over here, or rather one section did, for several hours. While Captain Wright, commanding, says that they have been at Tampa for 3 months and that they have no sick men with them still it is not refreshed by all here that these men should have stopped here for so many hours. Some of them were allowed to come from the depot up into the city. There were two sections carrying this part of the regiment, 508 officers and men. One of the men got drunk and fought one of the police, breaking the fingers of the officer.

Congressman Skinner is here and says he does not mind Senator Butler's attack upon him. That the 1st District Congressional Convention will be held August 25th and he knows he will be re-nominated and that he is also certain that the Republicans in the district will endorse him.

State Auditor Ayer, Populist, says that the Democrats will be beaten by a majority of 50,000. He declares this is no guess but a cold fact. He is a strong advocate of Republican-Populist fusion.
