## SELLING GOODS BY MAIL.

To gain a mail order customer is one thing and to retain that customer is another.

Most people hesitate to entrust their orders to any business house in which they haven't the fullest confidence.

In its service to out-of-town trade, the policy of this store, is, to have that patron so well cared for as not to let their first order be the last.

How well this store succeeds, is proven by the fact, that more people order goods from us now than ever before, each season showing an increase.

Why not try to keep your business with your home merchants, instead of sending north? Of course if the home merchants price is not right then don't trade with him, but if the home dealers prices are right and he has what you want, then give him the preference.

It will not be long now before our new DRY GOODS AND KINDRED LINES for fall will be here.

IF YOU HAVEN'T BEEN ONE OF OUR MAILORDER CUSTOMERS, SUPPOSE YOU BEGIN.

## MANILA HAS FALLEN!

Chief City of the Philippines By Our Forces.

## STRANGE ACTION OF THE GERMANS.

### The Spanish General Reaches Hong Kong By Their Aid.

### Refusal to Report What Has Happened at Manila. Severe Fight in Porto Rico. Some Loss of Life. War Continues With Peace Proclaimed.

WASHINGTON, D. C., August 15.—Advices from London say that the news has come from Hong Kong that Manila has been captured by the American forces and that General Merritt is now in possession of the city.

The news comes direct from Hong Kong that General Augusti, the Spanish Governor General of the Philippine Islands arrived in Hong Kong today.

General Augusti reached Hong Kong on the German Cruiser Kaiserin Augusta direct from Manila, with him was his family and his household servants.

Augusti refused to see any one and no information was obtainable. The officers and crew of the German warship also refused to talk.

The vessel brought no mail from Admiral Dewey to Wildman, the American consul at Hong Kong and the Germans refuse to report anything in regard to the situation at Manila.

The strange conduct of the officers and crew, and the fact that although the port of Manila is blockaded by Admiral Dewey yet the Spanish Commander was able to escape on the German warship, is causing much comment in Washington.

In Porto Rico. From Ponce, Porto Rico, comes news of another brilliant victory of the American arms.

General Schwan occupied the town of Mayaguez last Thursday. On Wednesday afternoon the Mayaguez garrison of 1000 regular Spanish troops and 200 volunteers were in ambush in the hills.

The Spaniards occupied an almost impregnable position commanding an iron bridge on the Rio de Pasario road. The American troops advanced, fording the deep swift stream under a murderous fire from the concealed foe.

The wonderful bravery and coolness of the American regulars demoralized the enemy who were driven out of their works after two hours of hard fighting.

The Spanish loss was heavy. Four officers and twenty privates were killed and fifty were wounded. A lieutenant and nine privates were taken prisoners.

On the American side the loss killed was one man, private, Fernber of the eleventh infantry, and fifteen men were wounded.

Since this fight the word has reached the army in Porto Rico of the signing of the peace terms with Spain, and hostilities have ceased, the news being also transmitted to the Spanish lines under a flag of truce.

Will Take Time. The military commissions to arrange for the time and method of Spanish evacuation of Cuba and Porto Rico will at once be appointed, but it is likely to be months before the last Spanish troop leaves Cuba. In Porto Rico there are fewer of them and they will probably evacuate that island in a few weeks.

For reasons entirely selfish, the health of our own troops, we will not hurry them out of Cuba.

No Extra Session. There is very little probability that an extra session of the Senate will have to be called to ratify the treaty of peace that is to be negotiated with Spain, for the very good reason that the treaty is not likely to be ready before Congress assembles for the regular session, in

December. The protocol or temporary peace agreement of the two governments, provides that the joint commission, charged with the duty of negotiating the treaty, shall meet at Paris, not later than Oct. 1, next. The well known disposition of the Spanish to postpone, makes it practically certain that the Commissioners representing Spain will not be there a day earlier than that mentioned as the last upon which they can meet our Commissioners. As the Philippines will be the object of the most controversy, it is among the probabilities that the Commission may visit the island.

First Congratulations From Italy. WASHINGTON, August 14.—The United States government today received the first congratulations from a foreign power upon the successful termination of the war with Spain. The congratulations came from Italy through the Italian ambassador, Baron Fava. He communicated to the State Department today, by direction of his government, an expression of the cordial satisfaction of Italy at the prompt signature of the preliminaries of peace, together with the wish of the Italian government that, after the war conducted with such conspicuous gallantry by the United States, this country might enjoy the benefits of peace.

Havana Rained Shells. Key West, Fla., August 14.—News has been received here that the flagship San Francisco, the monitor Mantonomoh and the auxiliary yacht Sylvia were fired upon by the Havana batteries a short time before 5 o'clock Friday morning. One ten inch or twelve inch shell struck the San Francisco's stern as she turned to get out of range, and tore a hole about a foot in diameter, wrecking Commodore Howell's quarters and smashing his bookcase into fragments. Nobody was injured, and being under orders not to attack the batteries, the ships retreated as fast as their engines would carry them.

The flagship and the Sylvia lay parallel to each other, not more than a mile from Morro Castle, and separated from each other by a distance of between three eighths and one quarter of a mile. All were within range of the Spanish batteries, and the temptation was too strong to be resisted.

## SHERIFF ASSIGNS.

### State Board of Agriculture Makes No Fair Appropriation.

JOURNAL BUREAU. RALEIGH, N. C., August 15.—At the next term of Wake Superior court State Treasurer Worth will bring suit against the sheriff of Swain county, or rather his bondsmen. The sheriff has made an assignment without settling with Treasurer Worth for the State taxes for this year. The taxes due are \$2,217.74. Suit is brought for the above amount and 10 per cent additional which is required under the law. The sheriff is also subject to a fine of \$1,000.

The Begley Monument Fund is still increasing slowly. The amount has now reached \$2,470.

The State Board of Examiners were in session here on Saturday, and out of the 12 applicants for life scholarships 9 passed.

The Commissioner of Internal Revenue says in a letter to a bank officer here that "stamps on checks and drafts may be canceled by perforating through said stamp and paper to which it is attached the amount in figures for which said check or draft is drawn."

The board of agriculture is being criticized for not making an appropriation to the State Fair so as to increase the premium list. Some excuse the action by saying that "judging from the past, Messrs. Carr and Vandertill, and a few others would have gotten the money." Secretary Nichols of the State Fair answers this assertion by saying that only twice has Vandertill exhibited at the Fair—that in 1896 he lost the premium to a Forsyth farmer and that in 1897 he did not receive premiums enough to pay his freight bills to and from Raleigh. That as for Mr. Carr, while the premiums have been awarded him, he has never drawn a cent's worth of premiums from the Fair association, and they still stand to his credit on the books.

C. P. Lockett who was the Republican nominee for Judge in the 5th district is to be taken down and Loftis of Lenoir, a Populist is to be put up instead. This is to get the Lenoir county Populists in line with the Republicans.

Many new cotton mills are being started showing that the outlook for a prosperous period is at hand. Travelling men all say that business is good.

It is believed that the Skinner faction will win in the Populist committee meeting this week, but it is also said that Senator Butler will swing around so as to be still the Populist leader in spite of the antagonism existing between Congressman Skinner and himself.

State Treasurer Worth's son, Horace B. Worth, Secretary of the North Caro-

lina railroad was taken to Rex Hospital for treatment for typhoid fever today.

Governor Russell has issued a commission to Adjutant General A. D. Cowles as Brigadier General, Commanding the State Guard—so when the brigade is in camp he will command it.

It seems to be an easy thing for the members of the negro regiment at Fort Macon, to get furloughs. There are some of them seen on the streets here every day.

State Labor Commissioner Hamrick says that the returns show a considerable increase in wages paid, as compared with last year.

The new Capital club building here will be opened September 1st. It is a very handsome building.

Governor Russell "for economy's sake" did not want the report of labor commissioner and of the railroad commissioner printed. State Auditor Ayer told him he had no power to demand this as annual reports are required by law.

Mr. J. C. L. Harris leaves tonight for Washington, D. C. to get the State's claims against the government settled. He will call on Assistant Adjutant General Johnson, who will render aid in securing the speedy payment of these claims which amount to between \$30,000 and \$40,000.

Raleigh is to have another daily paper, evening, which will be started this week under Editor McCreery.
