Methods and Merchandise!

Advertising any merchandise that does not possess merit, is of little value. When our claims are set forth in printer's ink, its a bid for some one's business, therefore we must be alive to their needs.

In a store like ours, Dry Goods and Kindred Lines, suggests that we are a dependable source for the requirements of man, woman or child.

In serving out-of-town trade, promptness and intelligent attention in the execution of orders, be they ever so small; is a policy we faithfully carry out.

Spain Sure to Raise Questions Over the Capture of Manila.

WHY ROME WAS CONCERNED.

Vatican Said to Hold Sixty Millions of Spanish Securities. Spanish Army in Cuba Want Their Pay. Our Men of Santiago Arriving Home.

Special to Journal.

WASHINGTON, August 19.—All the indications are that the peace negotiations between the United States and Spain will be prolonged.

The political agitation in Madrid is increasing. The opposition to the probable terms of peace is pronounced, and the factions are redoubling the agitation in regard to the convoking of the Spanish Cortes.

It is said that Senor Sagasta, the Prime Minister, begins to hesitate.

He shares the opinion of the Duke of Almodovar de Rio, the foreign minister as to the inconvenience if not danger involved in the meeting of the Cortes at this time.

Sagasta fears the opening of debates during the discussion of the peace terms by the commissioners in Paris. It is possible however that the Cortes will meet after the election of council general about the middle of September.

Results of Manila.

The government at Madrid has resolved to insist that the capitulation of Manila, and the occupancy of the chief port of the Philippines by the United States troops shall have no effect on the peace negotiations.

Spain maintains that as the signing of the protocol was previous to the fall of Manila, that event should result unfavorably to her interests. And in any event it is maintained that the capitulation having been signed by the commander of the city, it does not entail the surrender of the whole of the Philippines.

The Havana Situation.

Secretary of War Alger says that General Blanco remains in supreme command in Havana for the present, and that he will so continue until the United States government relieves him of the responsibility.

While this continues General Blanco can prevent any person from entering Havana whom he deems undesirable.

It is feared in Havana that trouble is brewing and the officials refuse to admit Americans, saying that the war is not over until the terms of peace are known and accepted. The Cuban ports have been declared open to commerce, but the owners consign cargoes to Havana at their own risk.

It is not probable that General Blanco will be relieved of command until the arrival of the military commission, consisting of General J. F. Wade, Admiral Sampson and General M. C. Butler. The commission expects to leave Washington September 5th, and arrive in Havana September 10th.

Vatican Involved.

Archbishop Ireland was engaged in a long conference with Secretary Gage today at the Treasury Department.

It is stated that the holding of the Vatican of the Spanish and Cuban bonds amounts to sixty million dollars.

After calling on Secretary Gage, Archbishop Ireland called at the White House and had an interview with President McKinley for twenty minutes.

The Spanish Army.

The officers at the palace in Havana are now endeavoring to solve one of the most difficult problems with which they had to deal in a long time. This is the pacification of the regular Spanish army now on the island of Cuba.

The Spanish soldiers have not been paid for many months. Two army officers said positively that the troops would not evacuate the island until they had received their pay. The soldiers themselves also declare that they will not give up their arms until taken from them unless they are paid what is due them.

Cubans Must Mind.

The policy of the administration towards Cuba was officially announced in an order to General Lawton, commander of the Santiago district. In brief, it is to protect life and property and preserve order. A strong hint was given the insurgents by directing General Law-

ton to furnish the insurgent commanders with a copy of the order.

General Lee confirms the report of his candidacy for the United States Senate, and states he expects to be in Cuba again in a few weeks. He has left on the train for Jacksonville.

Shafter Back.

General Shafter has arrived at Camp Wickoff, Montauk Point, L. I. He will relieve General Wheeler of the command of the camp of which he took charge a few days ago.

Many Men Sick.

The steamer Mobile arrived last night off the Camp. On board the steamer were sixteen hundred soldiers of the victorious army of Santiago. Dr. Magruder reports that 500 men on board are sick. Ten have died and three were dying. Fortunately none of the deaths is due to yellow fever. The principal sickness is typhoid and malarial fevers, dysentery and like diseases.

The Seneca has also arrived with the Fourth Infantry. No deaths were reported on board and the general health was good. The Mobile was overcrowded which accounts for much of the sickness.

The worst of the sick were landed at once. General Wheeler personally superintended the landing and placing in the hospital today of 750 of the invalid soldiers.

Manila Surprised.

Hong Kong, August 18.—Advices from Manila state that the Spanish officials kept secret the proposed capitulation so well that the people were greatly surprised when the troops marched in.

Captain General August's dismissal is considered another deception of the ministry to shift the responsibility on the shoulders of a general who had done his utmost to remedy the incompetency of his predecessors and their accomplices. The entire Spanish colony in Manila disapproved of General August's dismissal. General Jaundenes was unwilling to supersede him and only yielded under strong pressure.

Situation at San Juan.

SAN JUAN, Porto Rico, August 18.—Full particulars of the peace agreement were received by Captain General Macias this morning. Business men here are anxious to have the situation settled as quickly as possible in order to get to work again.

The best order continues in the city, but the country towns are not so quiet. Riots on the part of the country people are becoming so frequent and so serious that the Captain-General has telegraphed to General Miles on the subject, stating that many natives call themselves auxiliaries of the Americans and commit depredations. The Captain-General will in every case severely punish such rioters, and hopes General Miles will do his utmost to preserve order.

This morning a French steamer sought admission to the harbor, but was obliged to turn back for Ponce. The task of clearing the obstructions from the mouth of the harbor is difficult, and there will be some delay pending the arrival of the wrecking tug Right Arm. Bad weather and the heavy swell at the entrance of the harbor shifted the submarine mines and have made it necessary to search for them.

Strangers are treated courteously here. The papers extend greetings to foreigners. No attempt to take revenge on natives has been made. As a precaution the Captain General has issued an order that all civilians must deliver up their arms within three days.

How She Bore It.

A young widow put up a costly monument to her late husband and inscribed upon it: "My grief is so great that I cannot bear it." A year or so later, however, she married again, and feeling a little awkwardness about the inscription, she solved the difficulty by adding one word to it—"alone."

A REPORT TO READ.

Petition in Bankruptcy. Temperance Want no Wine Premiums at State Fair. Republicans Urge.

JOURNAL BUREAU. RALEIGH, N. C., August 19.

From the Labor Commissioner's office some notes of interest as to cotton, tobacco and distilled spirits, etc., are gathered. The exportation of cotton from Wilmington for 10 months ending June 1898 was 206,086 bales, a gain of slightly less than 92,000 bales over last year. Exports from Wilmington of various articles during the same time show an increase of \$152,000. The tonnage of foreign vessels carrying trade from the port of Wilmington is steam 847, sailing 1,611. The internal revenue collections for the fiscal year ending June 30, 1897, is: Total duty collected upon manufacturers of tobacco \$1,196,324.81. The product of tobacco in the Western district for 1898 is: Plug and smoking 19,858,642 pounds number cigars 772,000, cigarettes, 310,644. The total product of the State for 1898, for plug and smoking tobacco is 34,988,900 lbs, an increase of 7,000,000 lbs over 1897, cigars 309,164,000, a decrease of 25,000,000 over 1897. The total number of distilleries in the State is 467, and the production from these for the fiscal year 620,716 gallons. The eastern district distilleries produced 1,292 gallons, and the western district distilleries 1,343.

The Democratic city primaries were held tonight.

And still the cry of the insolence and outrageous behavior of the negroes gathered at Fort Macon goes out to the public. That in itself should unite the white voters to rid themselves of any such incubus as the people of the State are saddled with in the present administration.

A petition in bankruptcy was yesterday heard by U. S. Judge T. R. Parnell. The petitioner was from Nash county.

All the recruiting officers for the 1st N. C. Regiment have been ordered to return to the regiment at Jacksonville, Fla.

The W. C. T. U. paid a visit to Secretary Nichols of the State Fair Association and requested him yesterday not to offer any premiums on wines. The Secretary argued with them in such a way that they weakened very much in their way of looking at things. He argued that premiums were paid for game chickens, and that these chickens were fought afterwards in the pit—and that premiums were paid on race horses and yet betting on races could not be stopped. Wine premiums will no doubt be offered as heretofore.

It is probable that there will be established by the Agricultural and Mechanical college, a horticultural experiment farm here.

The Wilmington Tariff Association has filed a petition with the Railroad commission asking that interchangeable mileage books \$25 for 1,000 miles and \$40 for 2,000 miles be required to be sold on the Southern, Atlantic Coast Line, Seaboard, Cape Fear and Yadkin Valley, and Atlantic and North Carolina railroads.

The Republicans are not well satisfied with the political outlook. They are not satisfied either that their State Chairman Holton does not open up headquarters here. This he seems in no hurry to do.

Captain Crawford, Company K, (Governor's Guard Raleigh) First North Carolina Regiment has tendered his resignation.
