Orders Given to Dewey and Merritt Approved. Cabinet Undisturbed Now Anxiety to be Mustered Out. San Juan Learns The Truth at Last.

**OUIET RETURNING.** 

WASHINGTON, August 23 .- It is under stood that the President will announce the names of the Paris peace commis ioners before the end of the week. The members now decided upon are ecretary Day, Senator Davis and Senator Frye, and to these the name of Jus-

ice White can be added is probable. The Cabinet has approved of the con ditions made to Admiral Dewey and General Merritt by which they are to hold Manila and their attitude towards

Aquinaldo and the insurgents. General Merritt reports that the condi ion of affairs at Manila is very favorable. The United States troops are in full mand of the situation.

sist that the substitution of Ambassador Day for Secretary Day is not the only Gabinet change impending, and that Secretary Alger is to retire at an early day because of friction between himself and the President concerning the conduct of the war, it can be stated as coming directly from the two men that there has been no friction between them, and that Secretary Alger has no intention of leaving the Cabinet.

Want to Stay In.

Secretary Alger and Adjutant General Corbin are finding the task of naming the regiments of volunteers that shall be mustered out of service first, it having Brokers. been decided to reduce the army to the extent of about 100,000 men, without waiting for the formal treaty of peace to be negotiated, much more difficult than they expected it to be, owing to the influence wielded by the friends of the different regiments that wish to remain in the service, as well as of those who wish to be mustered out. It was supposed that with the fighting all over, the men in all the regiments would be clamoring to be mustered out, but it seems that a great majority of them have gone on exactly the opposite tack.

PONCE, PORTO RICO, Aug. 22.-Senor Ramon Lopez, editor of the La Corre spondencia de Puerto Rico, the principal journal of the island, published at San Juan, has arrived at Ponce, He says San Juan has been cut off from the world since the war began and he could print only official bulletions issued by the government regarding the progress of the

It was several weeks after the battle of Manila before the government issued a buletin admitting defeat. Information of the destruction of Cevera's flee reached San Juan the day after the battle, but the newspapers were not per mitted to print even a rumor. Ten days later Captain-General Maclas issued a bulletin stating that six American vessels, including two battleships, had been estroyed. The truth was nover pubshed in San Juan, but the facts leaked at unofficially. The same secrecy was served when Santiago surrendered.

Early in the war the residents of San unn, who were extremely pro-Spanish edited the official announcement of vicory, but after Santiago fell they los hope and even the most rampaut Span-lards began to admit that Spain was not

able to fight the United States. Before the Americans landed in Porto tico many residents of San Juan volun-sered to defend the island. After the landing they began to bear stories of the strength and efficiency of the American army and their regiment disbanded. They had little news of the progress of the campaign in Porto Ricu, but could anily tell that things were going against

When the news of peace came every ne rejoiced. The Spanish residents sem resigned and say they prefer to its a American territory to having a Porto ticao reputsile. Most of the Spaniards re will seek to become American citi-
