Fresh Flour, Butter, Cheese, Coffee, Hams and Breakfast Bacon Arriving Daily.

JOHN DUNN,

55 POLLACK STREET.

THE STATE CAPITAL.

Bad Crop Weather. Kilgo-Clark Controversy. State Liquor Dealers Meet. Equipment For State Guard.

JOURNAL BUREAU. RALEIGH, N. C., August 24.

The past week has been a particularly bad one for the crops. The cotton has rust in it and is shedding badly, and the wet weather has hurt corn very much.

The Kilgo-Clark controversy comes up before the board of trustees of Trinity College in Durham next week. The people all over the State are much interested in this matter where a Supreme Court Judge, (Clark) attacks a minister and president of a Methodist College. President Kilgo will no doubt down Judge Clark.

Fun loving people generally are looking forward to the coming of Al. G. Field's minstrel troupe here on the 26th with much pleasure.

Surgeon Brooks of Camp Russell Hospital has closed the hospital and left today to join his regiment at St. Simons Island.

There are about one hundred and fifty delegates here to attend the State Liquor Dealers Association that is in session now. All the principal towns and cities in the State are represented.

The Worth Bagley Monument Fund has run up to \$2,553.

Superintendent of Public Instruction C. D. Mebane says he has never made a political speech nor never will. He thinks his office a non-partisan one, and that an applicant for the superintendency should take no part in the campaign.

Oliver H. Dockery, Jr., now cashier in the Revenue Department here, will next week resign that position to run for Solicitor of this district which nomination was given him recently. He and his brother Claudius Dockery will open a law office here in the fall.

Capt. Crawford, Co. D, 1st Regiment, says he has never had any intention of resigning as was stated a few days ago.

Requisition has been made today for clothing, arms and camp equipments for the State Guard to put it on the same footing as it was before the call for troops.

Charter was today granted to the Whites Creek Gold Mining Company of Burke county. The principal office at Johnson City, Tenn.

There are two "briar root" pipe factories in the State. They make pipe "blocks" out of laurel and rhododendron roots. One is at Morganton and one at Boone.

Another petition in Bankruptcy was filed today, Barnes, Stainback & Co., of Henderson.

NATIONAL POLITICS UNSETTLED

No Issue Made by the War Philippine Question Not Allowed to Come Up.

WASHINGTON, August 24.—The politicians are all at sea as to the issues upon which the Congressional campaign shall be fought, that is, national issues; there are, of course, local issues of more or less importance in all districts. Talk with the men in charge of the committee headquarters in Washington makes it plain that they are watching each other, each hoping that the other will take some step that can be used as an issue by the other.

The war will be used to a certain extent, but the active participation of all parties in the war, both in the field and in Congress, will make that a very limited issue indeed. The anti-Republicans will try to arouse opposition to the war revenue law, by claiming that it imposes more burdens upon the poor than upon rich, but so far there is little indication that it will be very successful. The silver question, like the poor, we always have with us, but there is no such interest in it as was displayed two years ago.

The President is determined that the Philippine question shall not be made an issue and it will not be difficult for him to succeed. He will simply have to keep his mouth shut. The administration cannot be arranged for a Philippine policy until it is known what that policy is, and that will not be until the demand the American Peace Commissioners make concerning the Philippines becomes public property, and that is not likely to be until after the Congressional campaign.

L. A. W. Championship. Special to Journal. ASENURY PARK, N. J., August 24.—In the race for L. A. W. Championship which was contested for here today, Eddie Bald, won in 2:08 4-5, Freedman second, Cooper third.

Call Him "Father Brown." LONDON, August 23.—The Philippine Junta in London has received a dispatch from Manila announcing that the situation there is rapidly quieting down and that the friction between Gen. Aguinaldo and the Americans is disappearing.

According to the Junta's advice the insurgents for a time regarded General Merritt and General Anderson as marionettes and feared that they would adopt harsh measures like those of the Spaniards toward the Filipinos, but the insurgents from the first have had the greatest confidence in Admiral Dewey, whom they regard as a son of father and the most important American at Manila. The Junta is satisfied that all friction will soon disappear, and that there will be no trouble from the insurgents if the American desire to reach the Philippines.

DIPLOMACY AGAIN.

Spain Returns to it When Instructing Her Commissioners.

They are Told Not to Touch on the Question of the Philippines. Madrid Irritated by Cuban Conduct. Junta Urges the Cuban to Submit.

Special to Journal. WASHINGTON, August 24.—A dispatch from London this afternoon says that information has reached the Central News Agency in regard to the instructions given to the Spanish members of the Peace Commission to meet in Paris.

The text of the royal decree to the Spanish commissioners reads that, "Their mission is to agree with the United States commissioners to execute the conditions of the evacuation of Cuba, Porto Rico and other islands of the Antilles, and no more."

Spanish Interests. A feeling of irritation is shown at Madrid at the failure of the insurgents to respect the protocol, and the order for a cessation of hostilities an important political personage said, in speaking of the situation:

"If things continue thus, Spain will find herself compelled to stop the repatriation of the Cuban troops, unless the United States gives guarantee that Spanish interests will be safeguarded from the practical inclination of the insurgents."

Urged to Behave. The representatives of the Cuban cause in this country are making every effort to secure the disbandment of the Cuban forces on the island.

Letters by the leaders here are sent constantly to the Cubans urging them to submission to every American demand.

Views of the President. WASHINGTON, August 23.—It seems to be the general understanding that the peace commissioners, acting under instructions from the President, will not consent to the continuance of Spanish authority in the Philippines unless a liberal form of government is to be established and regulations formulated under which the commerce and the natural resources of the islands may be developed. It is understood the President has no intention of permitting any of the European powers to step in and secure possession of the Philippines, so that the question has really narrowed down to possession by the United States or the re-establishment of Spanish sovereignty.

The latter is understood to be the proposition favored by Mr. McKinley, but as Spanish sovereignty can be restored only upon conditions which guarantee good government and open markets for American products, the termination of the controversy probably depends upon the promises Spain is prepared to give, and the guarantee she is able to give of their fulfillment. The grave responsibility which must arise in connection with any proposition to establish an American colony nearly 7,000 miles from the Pacific coast of the United States is being carefully considered by the President.

Condition of San Juan. SAN JUAN, Porto Rico, August 23.—The secretary of the government announces that the steamer which was sunk at the entrance of the harbor to keep out American ships has been partly removed, and that now there is a safe passage way. The foreign consuls will be informed of this fact tomorrow. Ships may now enter when their masters please.

Mails that left Ponce in ox carts for this city several days ago have not yet arrived. The delay in the transfer of San Juan to the American forces is causing much anxiety, but good order is maintained. Business remains almost at a standstill because of the uncertainty.

The municipal government continues to be in the hands of the Spaniards, and under the circumstances, it is a wonder that there have been no abuses, due to confusing conditions.

Spanish soldiers in the country are suffering many hardships because of the wet weather. Yesterday a company that was encamped in a swamp. The men made no complaint against the captain who had ordered them there.

The Spanish authorities continue their preparations for departure and are disposing of the government coal supplies to private dealers.

Trouble in Georgia. Special to Journal. COLUMBUS, Ga., August 24.—Thomas M. Adams, the Democratic nominee for the Georgia legislature from Chattahoochee county is assassinated. It occurred during a general row at a political gathering.
