Fresh Flour, Butter, Cheese, Coffee, Hams and Breakfast Bacon Arriving Daily.

JOHN DUNN,

53 POLLOCK STREET.

A GROWING CITY.

North Carolina's Capital Shows Great Development.

Peabody Scholarships. Russell has no influence at Washington. Theatrical Season Opens. Democratic Headquarters P. M. Pearsall.

JOURNAL BUREAU. RALEIGH, N. C., August 27. Out at the State Fair grounds there is a large force of hands at work making things ready for the coming fair in October. The State Fair will be held October 25th to 28th. The race track is receiving special attention as the races are to be one of the leading features. Purses amounting to fully \$2,000 will be paid. The programme for the races is a fine one. The Fair Association being a member of the National Trotting Association, all trotting will be conducted under the rules and regulations of the National Trotting Association, and the racing under the American Jockey club rules. There is no doubt whatever that with Col. John S. Cunningham at the head of things that everything will be well looked after.

Seven Peabody scholarships were yesterday awarded to applicants from this State. Thirty-five stood the competitive examination but of these seven passed. North Carolina is entitled to 19 scholarships a year. Of these 9 had to be appointed this year. The President of the College appointed 2, and Superintendent of Public Instruction Mebane had the appointment of seven. A scholarship is worth \$100 a year with railroad fare to and from the college.

Wake county Democratic convention met today to nominate county officers. There was no trouble about the county officers. The fight came on the legislative ticket and the county commissioners.

Ashe county is now the only county in the State that has not settled State taxes for 1897.

Chairman Simmons has gone to the eastern part of the State on business to be gone several days.

The American Bankers Association at Denver, Col., has elected Mr. J. G. Brown, President of the Citizens Bank of Raleigh, one of the executive council to serve for three years.

The recruiting officers for the 1st Regiment of N. C. Volunteers have all been called in and have returned to Jacksonville.

The N. C. Car or Rolling Exposition is now at Lancaster, Pa. It will be brought here for the State Fair and will be refilled with fresh exhibits before it starts out again.

In the Populist Congressional convention in the 1st District Harry Skinner got 91 votes, E. A. Moyer 53. The Republicans held their convention immediately afterwards and gave Skinner 32 out of their 35 votes.

There is a great deal of building going on here now. The outlook for business this year is said to be very fine. The street work keeps many men employed and much money in circulation.

The \$50,000 in bonds voted by Raleigh a year ago for the improvement of the streets of the Capital is beginning to bear fruit. The greatest change is being made by this improvement and it will not be long before Raleigh will have to be reckoned with when the beautiful cities of America are being recounted.

The remaking and macadamizing of the streets comes at a time when the era of fine buildings has set in. The Capital Club has completed its new house. On the next corner to this the new cream colored brick building of Tucker's has reached the surface of the ground from its deep foundations. Between these two a fine insurance building is soon to be in course of construction.

The Capital Club building with its ball room, very elegant, its grill room, dining rooms, parlors and card rooms are well worthy of admiration and are a pleasure to see. But it would take too much space to describe these handsome quarters provided for the 100 members of the club. It is another story.

The desire for beauty has swept all around the Capitol square also. Terracing and other work has greatly benefited its appearance. Only one cloud rests on the Capital now. It is that of the unappealing Russell. May his shadow grow less. His bulky form seen through the executive windows deters an entrance except on a matter of business, and pressing business at that. To be assailed with abusive language, to be "cursed out" by this monument of fashion is bad medicine to have to take.

It is stated semi-officially that the 3rd Regiment is sure to be mustered out in a couple of weeks. It is rejoicing to know that Governor Russell is in the greatest disfavor with the authorities at Washington and with the War Department. An expressed desire on his part to the supreme powers on the Potomac would result in an opposite result. They understand him, therefore they dislike him and dislike him there. So if the

the Governor tries to keep his pets at Fort Macon, they will be the more likely to go, and so mote it be.

A new acquisition to the museum is a 12 inch shell that has been fired from one of the big rifles at the proving grounds, and which passed through 1 1/2 inches of nickel steel. It is little injured. It rests on a pedestal, weighs 998 pounds and attracts much attention. This interesting object was obtained by Col. Fred Olds through application to Senator Pritchard. This shell is similar to the projectiles from the 12 inch guns of the fleet at Santiago.

Manager Schloss opened the theatrical season at the Academy last night with Field's Minstrels. Fourteen hundred paid admissions was the record for the opening night and was a big one. The house was packed from pit to dome. Schloss will manage well by having both Wilmington and Raleigh to cater to for amusements. It will bring better companies to both cities, as for the show last night, it was negro minstrels. Some people enjoy these shows very much.

The Democratic headquarters are now in full blast in the Carrollton Hotel. Chairman Simmons is the great directing spirit. The whole thing is being organized for victory. It is in the air.

Mr. P. M. Pearsall of New Berne holds the fort at headquarters when Mr. Simmons is away. He sends out vast quantities of camp literature where it will do the most good. His most trying duty is to assign speakers. Each place wants the best of course, and must be satisfied. The demand for C. B. Aycock is enormous. It must be gratified. This longing Mr. Pearsall gratifies to the best of his ability, considering that Aycock is indivisible and a unit.

"You Have Nobly Fought."

Santiago de Cuba, August 25.—The Spanish transports San Francisco, San Augustin and Colon left this afternoon for Spain, with 4,568 Spanish prisoners, including fifteen officers and their families and four priests.

Eight men died on the way to the ships. Their bodies were "checked off" as passengers. It is alleged that there have been many instances of this during the embarkation of the Spaniards, and that the transportation company has thus been enabled to collect the passage money.

General Toral, when bidding adieu to the Spanish officers and men who were leaving, said:

Conquered, we yield with honor to ourselves and to Spain. Whatever may be the future of Cuba, history will preserve the story of your heroic and noble deeds in this country. We regret our failure and its cost in treasure and in blood, but you have nobly fought and nobly fought and nobly lost."

ON THE DIAMOND.

THE HEALTH QUESTION.

Government Will Look Into Condition of the Army Camps.

Cuban Army Not Yet Disbanded. Earthquakes at Santiago. Havana Harbor Mines Removed. Commerce Now Free.

Havana Harbor Open. Special to Journal.

WASHINGTON, August 27.—Advice from Madrid state that General Cerrea, Spanish Minister of War, replying to the inquiries of M. Cambon, the French Ambassador, regarding the condition of Havana harbor, says that the mines have been removed, and that merchant vessels are arriving and departing daily.

Earthquake Shocks at Santiago. Dispatches from Santiago say four earth quake shocks occurred this forenoon buildings were swayed and walls cracked.

Disbanding Cuban Army. Generals Lawton and Costillo in a conference at Santiago, regarding the disbanding of the Cuban army in the province of Santiago, General Castillo said the disbandment could be accomplished without trouble.

But nothing definite in regard to the disbanding has been decided upon as yet.

Sanitary Investigations. Secretary of War Alger is sick with the prevailing ailment which is found at Montauk Point, which is dysentery.

The Secretary, while at Camp Wikoff drank a good deal of water, the same which has been furnished the soldiers at the camp, and from this has come his illness, which confines him at home.

The acting Secretary of War this afternoon, at the request of the Surgeon General, ordered an investigation to be made into the condition of Camp Thomas.

This may lead to an investigation of the entire field of operations under the Medical Department.

Patching the Iowa's Sails. New York, August 26.—Tons of powder and big shells for the guns of the battleship Iowa were taken off that vessel today and stored in a safe place at the Brooklyn navy yard.

The danger flag was hoisted on the warship and none of the visitors to the yard was allowed on board. In addition to taking off the ammunition several tons of coal were unloaded so as to lighten the vessel as much as possible, preparatory to putting her in the dry dock. The temporary plates or patches of steel which roughly covered the shot holes on the starboard bow of the Iowa above the water line were removed and mechanics set to work to replace them with squares of armored plate. These holes, which were made by six-inch shells, are clean cut. One of them is about two feet and the other four feet above the water line.
