### THE STATE CAPITAL.

Governor Russell and the State Troops. Election Blanks Sent Out. Rides Brought in For Repair.

JOURNAL BUREAU.

RALPH, N. C., September 6.

Every effort possible will be made to again get the order changed for the mustering out of the No. Carolina regiments. The people do not hesitate to compare the officers of the two regiments, and the inefficiency of the 2d Regiment officers shows up very clearly as compared with the 1st Regiment officers. As yet everything is at sea as to what regiment will be kept in service. There is no doubt as to the negroes being retained, and getting their pay until the end of October.

The State Fair premium list is ready for the public and any one can secure one. News now comes that in spite of the denial of Governor Russell, that he has asked that neither of the regiments be mustered out, the department at Washington says the requests did come from him, and that as it is everything is in such a muddle the result may be that both regiments will be done away with, and that the negroes will scarcely be back in the State until spring, but we who are here have no such idea of the negro regiment. On election day they will no doubt be at the polls.

The Board of county commissioners are in session and today appointed the poll holders and registrars for the November election.

Governor Russell on Saturday paid his first visit to Republican Headquarters.

The work of sending out from the Secretary of State's office the blank books, etc., for the election was finished yesterday. There are now 1500 election precincts in the State.

The Bureau of Labor Statistics is rapidly receiving returns from the cotton mills. The report will show an increase of at least 10 mills as compared with the last report. There is also an increase in new spindles and looms in all the mills. The report from the cotton mills is always more easily obtained than that of any industry in the State.

At the arsenal 700 rifles which were brought here by various companies of the guard who volunteered are being cleaned and repaired to be re-issued to various companies.

### WHOLESOME ADVICE.

For People Whose Stomachs are Weak and Digestion Poor.

Dr. Harlandson, whose opinion in diseases is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery risings, headaches, sleeplessness, lack of ambition and a general run down nervous condition I advise them to take after each meal one or two of Stuart's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food eaten. The result is that the food is speedily digested before it has time to sour and ferment. The tablets will digest food any way whether the stomach wants to or not, because they contain harmless digestive principles, vegetable essences, pepsin and Golden Seal which supply just what the weak stomach lacks.

I have advised the tablets with great success, both in curing indigestion and to build up the tissues, increase flesh in thin nervous patients, whose real trouble was dyspepsia and as soon as the stomach was put to rights they did not know what sickness was.

A fifty cent package of Stuart's Dyspepsia Tablets can be bought at any drug store, and as they are not a secret patent medicine, they can be used as often as desired with full assurance that they contain nothing harmful in the slightest degree; on the contrary, anyone whose stomach is at all deranged will find great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach. Full size package at druggists 50c or \$1.00 or by mail from Stuart Co., Marshall, Mich.

### IN SAN JUAN.

Gen. Brooke and Escort Enter the Chief City of Porto Rico.

SAN JUAN, Porto Rico, September 5.—Major General John R. Brooke, with his staff and escort, have completed their journey across the island toward this city. The march has been like a progress through a friendly territory.

The American escort, though small, is imposing. As it wound its way over stately mountains, covered to their summits with coffee and tobacco plantations, and through broad valleys, General Brooke, with his chief of staff, rode at the head of the column. The natives, who had news of the coming of the Americans, lined the roads, their faces showing pleasure, although there were no demonstrations. At intervals along the way the Spanish soldiers of the civil guard presented arms as the general passed.

Spanish flags flew at Cayey and Caguas; but as guests in an enemy's country the Americans showed no colors save the cavalry guidon. The stalwart American soldiers and massive horse cases crisscrossed wonder to the natives, accustomed to men of small stature and mule-footed little ponies.

TO BEAT A TIGER IN ONE DAY. Take Laxative Brooms, Quinine Tablets. All druggists refund the money if it fails to cure. See The Genuine has L. B. Q. on each label.

### REFUSED THEIR PAY.

Soldiers of 2nd Regiment Would Not Take Money From a Negro. Texas Falls in Line.

Brunswick, Ga., September 5.—R. H. Wright, colored, recently appointed major and paymaster, had a very unpleasant experience at Camp Gordon today.

Wright was detailed to pay off the troops and arrived this morning with a negro clerk. The soldiers, all of whom are white, protested. Wright feared violence and asked Col. Burgwyn for a guard detail, which was furnished. Each of the commissioned officers of the Second North Carolina regiment refused the negro officer the use of tents.

When Corporal Giddings of Company G, Third Texas, was called to receive his pay, the corporal refused to accept it and exclaimed:

"My father was an officer in the Confederate army and I have too much good Southern blood in my veins to accept my army pay from a negro."

This precipitated a commotion and other soldiers followed Giddings' example. The pay roll had to be discontinued. Wright is the principal of a State colored industrial school at Savannah.

### SENATOR CAFFERY ALARMED

He Believes That Territorial Expansion is Threatened.

WASHINGTON, Sept. 5.—Senator Caffery of Louisiana, the most conservative democratic member of the Senate, bitterly opposed to the policy of territorial expansion, said today: "It looks to me as if the jingoes and expansionists have control, and I will not be surprised to even go a step taken in the direction of territorial acquisition than have yet been announced as under contemplation."

The Senator believes that the President's leaning is toward the retention of as much of the Philippines as can be obtained, and that the peace commissioners will be prepared to aid in carrying out such a design. While it is known that Secretary Day is opposed to holding any part of the Philippines, and the President is thought to have agreed with him.

Senator Caffery thinks there have recently been intimations that the strong pressure brought to bear by influential republicans in favor of colonization in the Philippines is causing them to waver. As for the commissioners themselves, Senator Caffery thinks that both Senators Davis and Frye are at heart expansionists, and that Mr. Reed will side with them when the test of sentiment is made.

### THE KHARTOUM HAS FALLEN.

The Khalifa Escapes. Gallant Charge of the Lancers.

LONDON, September 5.—The War Office received this evening the following, dated Omdurman, yesterday, from General Sir Herbert Kitchener: "This morning the British and Egyptian flags were hoisted with due ceremony on Saraya (the palace) in Khartoum. All the wounded have left by steamer. I saw them before leaving and they are all doing well."

Advices from Omdurman state that the cavalry which went in pursuit of the Khalifa abandoned the pursuit about thirty miles beyond Omdurman. The horses were completely exhausted, having been ridden forty-eight hours, during fifteen of which they had been engaged in fighting. The Khalifa has gone to Kordofan, southwest of Omdurman.

Yesterday the British and Egyptian forces took part in an imposing service in memory of General Gordon.

The newspaper correspondent, Hon. Hubert George Lyulph Howard, who was killed, rode in the gallant charge of the Twenty-first Lancers at the recent battle. These troops were scouting when they saw in the bushes between 600 and 700 Dervishes. The Lancers charged the enemy and suddenly found themselves face to face with 2,000 swordsmen, being thus outnumbered at least four to one.

The Dervishes were almost hidden from view in a hollow. The Lancers charged through them, reformed and charged back to recover their wounded, who were being savagely slaughtered.

Colonel Rhodes, a brother of Cecil Rhodes, and correspondent of the London Times, who was severely wounded, was struck in the shoulder by a bullet.

### WEEKLY CROP BULLETIN

For the Week Ending Monday, September 5, 1898.

RALPH, September 5.—The weather conditions during the week ending Monday, September 5, 1898, have in general not caused much, if any, improvement in the crop prospects throughout the State. While in the eastern section and along the northern border there has been less rain since September 1st, and more sunshine, over the remainder of the State, especially in the southwest and mountain sections, cloudy, damp weather continued with rains at many points on every day of the week. The temperature was above normal every day with the maximum touching 90 during the middle of the week. On account of the great humidity the weather was very sultry. The amount of sunshine has increased since September 1st.

Expectations for a good crop of cotton are becoming less every day. In addition to the damage caused by rust, shedding and rotting of lower bolls, the humid, sultry weather is causing opening to appear in the bolls. Openings

opening rapidly, and picking is already somewhat behindhand, though progressing rapidly where not too wet. Cutting and curing tobacco is now active in the north-central portion of the State and probably the bulk of the crop remaining will be safely housed within the next ten days. On the whole, the crop has turned out to be a very good one, though lately some complaints of poor cures have been received from three or four counties. There has been a little damage to standing tobacco by second growth and worms.

The corn crop is still considered extra good, except on bottoms where injured by freshets or standing water. Some smut and rotting is reported. The conditions have been extremely unfavorable for saving fodder; a good deal has fired on the stalk and much which was pulled in time was ruined by rotting, so that, except locally, not much good fodder was saved. There would be a fine crop of hay, but it is being saved with difficulty. Rice is fine and cutting has commenced. Some early peanuts have been dug, with better returns than expected. Making syrup from sorghum cane has begun. Late vegetables are almost a total failure. Open weather is now very necessary for harvesting.
