WASHINGTON, September 9.-It was given out officially that the President rdered Secretary Alger to personally visit and inspect every camp and hospital where there are volunteers, and that the duty was considered so urgent that Secretary Alger would not accom-pany the President on his vacation.

Whatever may be his opinion of the sub-ordinates in the War Department, it is certain that the President does not Alger for any of the mismanagement in handling supplies for the army. So strong a position has the President taken in this matter that some of his friends are blaming him for resenting every attack made upon Secretary Alger, as if t were personally made upon himself.

No more regiments are to be mustere out tof service, unless for some special reason, for some months That is the answer to the increasing demand of the privates in the volunteer regiment to be allowed to go home and resume their egular occupations, which they were willing to give up to fight for the coun-

The Populist Congressional conven tion for this district had hard work of it yesterday and last night in settling on Strowd the present incumbent would be renominated. HAVANA, Cubs, Sept. 8,-Havana is on the edge of expectancy, and all thoughts are turned toward the arrival of the American commissioners, whom the peoneeded in the Pacific. Our new citizens ple of this city expect on Friday. Their arrival will mark a new era here.

There is boundless faith in American power and enterprise and unmeasured expectancy of the benefits to be derived from American rule, A far-spread, deep-rooted idea prevails that Americans can accommplish in a moment what Spaniards have assiduously neglected hundred of years, All plans for the future have the arrival of the American commission and its supposed accomplishments as their starting points.
