Selling goods is no doubt one of the main points of a business, but selling is not all, that selling must be right, both kinds and prices.

Every time a dollar passes into our cash till, we intend that the buyer shall have in return a full dollar's worth, often times more.

Lately we told of Table Damasks, the line is so deserving that we will quote prices again.

They are still near front of store, let's interest you, before they are moved to make room for something else.

SERIOUS CHARGE.

Second Regiment Surgeon Deserts the Sick For Politics.

Regiment Badly Fed. Blame Put on the Captains. Story of a Private at Tybee. Fair Marshals Soon Named. Schools are Prosperous.

JOURNAL BUREAU. RALEIGH, N. C., September 16. There has been a continuous complaint in some way or other connected with the 2nd Regiment North Carolina volunteers ever since it was formed. Chief among the complaints has been all along from the sick. Dr. Stockard chief surgeon has been accused of incompetence and negligence just in a general way. Now then comes specific charges against him. It is said that at St. Simons Island he failed to do his duty while there, and that often he was absent, here in North Carolina dabbling in politics, seeking a nomination for the coming legislature. That since the regiment returned here he has spent his time at the hotel and at Republican headquarters. He is asked to explain why prescriptions have had to be paid for by private individuals, when ample allowance is made for care of the sick. He is asked to account for the 60 cts per day for delicacies for each sick man and which they have not received. There are 18 sick men at the camp. Finally Col. Burgwynne is asked to explain why this State of affairs exists, and Dr. Stockard's innocence is demanded proved or else punishment due him is demanded given.

Another thing that is asked to be investigated is the fact that at Tybee Island the members of the two companies A and E were stultified. Your correspondent on yesterday had a long talk with a member of Company "E," from Greenville, and he told me that the men of that company had many days gone positively hungry while at Tybee. He said the men knew that the provisions were issued the commissary sergeant—that they made complaint, but no relief came. It is known without question that these provisions were sold instead of being furnished the soldiers. Now the question comes where was the Captain that he did not do his duty, and see that the privates under him were getting what was their due.

Newspaper reporters are too apt to always print the officers' side of a question and the privates have no way of putting their side before the public. Now it seems to a few of us, at least, that the men, and not the officers should be heard. It is becoming more and more evident every day that the Second Regiment as a regiment is a failure.

The drunkenness of the men upon the streets here became so terrible that Mayor Russ went out and laid the matter before Colonel Burgwynne, telling him the police force was insufficient to control hundreds of soldiers turned loose upon our streets, and asked that a provost guard be supplied. We need a sober guard.

and not a drunken one like the one on the streets a few days ago.

The furloughs for the Second Regiment will be given from Tuesday, September 20th. This will bring them back here on October 30th.

The county commissioners are still discussing whether the Raleigh and Gaston Railroad stock is subject to taxation. Mr. John C. Drewry of Raleigh has accepted the Chief Marshalship for the coming State Fair. He will publish a list of his assistant marshals in a few days.

The Railroad Commission will hold its meeting on the 31st.

The law class for examination here before the Supreme court on the 36th will be a very large one.

About 250 pupils for the white blind asylum came in yesterday at the opening of the school. Schools all over the State are opening splendidly this year.

Mr. DeBernier Whitaker, son of Major Spier Whitaker of this city goes to Cuba as engineer and chemist for the Spanish-American Iron Company at Daiquiri, province of Santiago. These mines of this company have not been worked for about two years. Major Whitaker is in the 6th regiment of Immunes.

The Capital Club will give an elegant "house warming" during Fair week. It will cost the club fully \$1,000.

THEIR NEW TONGUE.

All Havana Studying to be Ready For the Americans.

HAVANA, Sept. 15.—The city is suffering from a severe attack of American mania. Now that the commission is actually in the harbor, with the stars and stripes waving over it and a score of bustling aides in canvas uniforms in attendance, the city suddenly seems to think that Cuba is United States property.

The period of regret and suspense is over. The Havanees want to be "Yankees." The hotels are buying American flags. The sign "English spoken" is becoming numerous in the shop windows on Obispo street. In about half the restaurants the menu is written in English.

During the last week Havana has resolved itself into a school for the study of English. The few American newspapers which pass the censor's office are eagerly sought, not so much for the news they contain, but for practice in reading the language of the inevitable future. Hackmen, while waiting for customers on the Prado, pore over dirty little English primers. Boatmen, lying in the sun on the wharves, try to unravel the mysteries of English dime novels given them by soldiers. Politicians and high-class residents read Macaulay and Irving with the aid of the dictionary.

"Good evening" is supplanting "Buena noche" at the clubs. Friends who meet frequently practice the new language, so far as their limited knowledge will permit. There is great difficulty in obtaining English text books. The demand is so great that the book stores in Havana are unable to supply it.

Total Ousted Marshal.

MADRID, September 16.—General Toral who surrendered the Spanish army at Santiago to the American, arrived on the Vigo today. A great crowd awaited his arrival and greeted the general with a storm of blows and abuse. The demonstration was so violent that the general returned to the ship, and decided not to land.

Fighting Each Other.

MANILA, September 15.—The former rebel chief, Isabelo Artacho, who was condemned to death by Aguinaldo for treachery last May and was reprieved and escaped, is leading 15,000 men against Aguinaldo. Artacho is backed by priests. A Jesuit priest has been shot for persuading rebels to desert Aguinaldo's cause.

Aguinaldo's parliament opened at Malolos, with great ceremony, today. It seems likely that the parliament will vote for autonomy under American protection.

Peace Commissioners Will Have Liberty of Action in Most Details. Secrecy Being Preserved. Investigation Committee.

WASHINGTON, D. C., September 16.—A busy week for the administration closed with the departure of the American Peace Commissioners, who will sail from New York tomorrow. The whole matter has been gone over carefully and a decision reached as to what this government intends to do regarding the Philippines, and the Peace Commissioners have been instructed accordingly. These instructions have not been put upon paper, but were given to the Commissioners verbally by the President.

Only the President, the members of the Cabinet, all of whom except Secretary Alger were summoned to Washington to consider them, and the Peace Commissioners, know what those instructions are. It is known in a general way that members of the Cabinet have expressed opinions, and even the President at times dropped hints as to his attitude. Putting these together and drawing deductions therefrom is about the process by which the published instructions were evolved.

It is certain that we are to have the island of Luzon, of which Manila is the principal city, but there the certainty ends. It is probable that Spain will have to give up its authority over the other islands, and that they will either be given an independent government under American protection or become absolutely our property, although there are reasons for the belief that the instructions so far as they relate to the islands other than Luzon are somewhat elastic, and that if Spain will furnish proper guarantees and will offer certain trade concessions to us she may be allowed to maintain a nominal, if not an actual, control over them.

The peace commissioners are in no sense mere mouthpieces, but, having chosen with the greatest care and consideration five men in whom he puts the most implicit confidence, the President feels that they are to be trusted with the interests of the United States. It is not expected that they will have a free rein in the larger questions of policy, but, with ample opportunities for consultations by cable and otherwise, if necessary, there is no reason why the commissioners should not be able to carry out the wishes of the administration.

Ex-Secretary Sherman may be too cold to make a satisfactory Secretary of State, but he still has the use of his reasoning faculties, and was the first man to point out the weak spot in the proposed commission to investigate the conduct of the war, its want of legal status, and its consequent inability to compel witnesses to testify. Since Mr. Sherman pointed out that defect, which is now generally acknowledged to exist, the proposed investigation is not as popular as it was. It is likely also that the lack of legal status influenced some of the prominent gentlemen who have declined to serve on the commission.
