AUTUMN MERCHANDISE!

At Duffy's Store.

THERE'S A REASON

For our increased business, reason quite simple when you stop to think of it.

Always some kind of merchandise at a price lower than elsewhere. Many have discovered this.

We can no more strongly emphasize this, than in saying, as a lot of merchandise comes to us at price lower than the market, so do we in turn, pass this merchandise to our trade. Price to the customer just in proportion as it was secured by us. Store now taking on Autumn appearance. New stuff daily.

TO SHOW OUR SHIPS.

Oregon and Iowa Will Stop at South American Ports.

WASHINGTON, Sept. 20.—South American ports which have not been visited recently by American warships, and especially by the most formidable vessels of the new navy, are to be afforded an opportunity of seeing at least two of the ships that did so much to defeat Cervera's squadron and crush Spaul's power in Cuba waters. Now that a favorable chance is offered in the departure of the battle ships Oregon and Iowa, the collars and the distilling and refrigerating ships, under Captain Barker, for Manila, by way of Honolulu, the Navy Department has decided that a wholesome lesson may be taught Spanish sympathizers in South American republics by the visits of these ships to several of the chief seaports.

In accordance with instructions issued by Secretary Long before his departure for the North, Captain Barker is ordered to take his ships into nearly all the leading ports while making the long trip to the West. Unless, therefore, the plans should be changed, or the orders countermanded at the first stopping place en route, the squadron will make port at Bahia, Para and Rio, if the yellow fever does not prevail to an alarming extent, and possibly at Montevideo. It is the purpose of the department especially that the Chileans and Argentinians shall see some of the great fighters that so easily drove Cervera's vessels to destruction and the power and strength of the two most formidable vessels of the American service.

Evacuating Porto Rico.

SAN JUAN, PORTO RICO, Sept. 20.—The evacuation has begun in earnest. Today 400 Spanish soldiers and officers embarked on the steamer San Francisco bound for Spain. The detachment marched quietly to the wharf, entered barges and was towed to the ship. A curious crowd was attracted, but there was no demonstration.

Twelve hundred more Spaniards will sail tomorrow and two large transports are expected September 26, which will carry still others.

The Flag in Havana.

HAVANA, September 20.—The American flag was raised this morning on the Salon Trocha—the first that has floated in Havana since General Lee left the consulate.

Signal Quartermaster Richardson was sent from the cruiser Resolute with the flag, accompanied by two marines. There was no ceremony other than raising the hats of the witnesses as the stars and stripes were hoisted by Richardson.

The Salon Trocha is the headquarters of the American commission.

The Investigation.

WASHINGTON, September 20.—After many delays President McKinley is able to announce that his commission to investigate the conduct of the war will be ready to assemble for business next Saturday. This statement was given out at the White House today, together with the assertion that the President has found three eligibles who are willing to serve on the commission. After scouring the country for men who might give weight and dignity to the investigation, in which the whole world is so deeply interested, it is announced that General Anson G. McCook, of the "Fighting McCook family" of New York; ex-Representative Wm. D. Whiting, of Massachusetts, and General Wm. H. Jackson, owner of the Belle Meade Stock Farm, of Tennessee, have consented to become members of the commission.

As constituted, the membership of the commission is but six certain. The other three names announced semi-officially today will give the President a commission of nine members, so that Mr. McKinley's idea of dividing the investigation into three branches and allowing the sub-committees to go to work without delay can be carried out. The commissioners are invited to assemble in Washington next Saturday, when the President will outline them the scope of the investigation.

THE STATE CAPITAL.

Heavy Sale of Arms and Ammunition Continues.

One Thousand Men on Furloughs. A Touch of Negro Rule. Telegrams of Sympathy. Shipment of Cattle. Telephone Company. Special Court Term.

JOURNAL BUREAU.

Raleigh, N. C., September 21. Over 1000 men of the Second Regiment left yesterday on their furloughs. This of course leaves but few here. Everything is quiet and the chances that there will be any trouble are about over.

This morning at the church of the Good Shepherd, Mr. William S. West, and Miss Susie Tillinghast were married. They left for a trip to Canada. Both are popular young society people here. There were quite a number of attendants.

The Charles Vaughn Comedy Company are playing a week engagement here at the Academy of Music.

The sale of pistols and ammunition to both white and colored continued yesterday. One leading hardware man said he at first refused to sell to negroes, but he found others were selling them so he did likewise. He said he had sold more in 2 days than he had in a dozen years.

The Raleigh Chamber of Commerce met last night for election of officers. Mr. R. B. Raney retired as president, and Mr. N. N. Jones was elected to the place. Mr. Raney upon retiring made a splendid address.

We have somewhat of an idea of negro rule here in Raleigh—a negro deputy was out yesterday serving subpoenas on white men.

Upon inquiry it is found that cattle can be shipped across the line from any part of the State, from November 15th to January 15th.

The Ladies Memorial Association and the Raleigh Chapter Daughters of the Confederacy on yesterday sent telegrams of sympathy to Mrs. Jefferson Davis for the death of her daughter, Miss Winnie Davis.

The regular meeting of the executive committee of the penitentiary board met here today.

Senator Butler says that free silver is to be the issue. That the Democratic color line movement is disgusting more people than it is attracting. He says that he knows positively that the legislature will be anti-Democratic.

The applicants for license before the Supreme Court will be examined in the Senate chamber. Each applicant will have a desk and the examinations will be written. This is an entirely new mode of proceeding.

The tobacco sales here are increasing over what they were last year.

The Inter-State Telephone Company has 400 subscribers here in Raleigh. They are putting in a fine equipment here. The poles being put up are the largest in the State.

Governor Russell orders a special term of Mecklenburg Criminal court.

Funeral of Winnie Davis.

NARRAGANSETT PIER, R. I., September 20.—It has been decided that the body of Miss Winnie Davis, after a brief service here, will be forwarded to Richmond, Va., on the train leaving here at 10:30 o'clock Thursday morning. The journey should be completed at 8:40 a m Friday.

The body will reach Washington at 9:45 p m and leave that place for Richmond at 4:30 a m Friday.

The funeral of Miss Davis will take place at 2:30 o'clock Friday afternoon. The remains, which will reach the city on the morning of that day, will be taken directly to St. Paul's church, where they will lie in state until the hour for the funeral.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

No Welcome For Cervera.

MADRID, September 20.—The workmen of Bilbao, where the cruisers which belonged to Admiral Cervera's fleet were built, have decided to go to Santander in order to make a demonstration against the defeated Spanish Admiral on his return to Spain. The government has taken measures to prevent the plan being carried out, and the ministry has forbidden demonstrations welcoming Cervera home.

Captain General Blanco cables from Havana that he is not in accord with the Cuban colonial ministry, to which the government here replied that while Spanish sovereignty exists in Cuba he must apply autonomy, and, therefore, he cannot turn out the colonial government now in office and appoint a new one.

The Duke of Teian, who was minister for foreign affairs in the cabinet of the late Premier Canovas del Castillo, is quoted as saying in an interview:

"Senor Canovas, if he had lived, would never have accepted war with the United States. Canovas and myself were convinced that war would lead inevitably to the ruin of Spain."

Continuing, the Duke stated the Ib-

erals, who, he said, could have averted war by accepting the proffered good offices of the United States minister, General Stewart L. Woodford, by treating with the insurgents on the basis of Cuban independence or by selling Cuba.

Garcia Is Honored.

SANTIAGO DE CUBA, Sept. 20.—General Lawton intends to receive General Garcia tomorrow as an honored guest. Garcia is now holding no official position in the Cuban army, and will be treated by the American commander as a distinguished private citizen and former soldier.

General Wood will go outside the limits of the town to welcome the Cuban leader. A guard of honor will meet him and escort him through the town to the palace, where he will be received by General Lawton. A levee will be held at which the American officials will be presented to General Garcia.

The Cubans in town are greatly elated contrasting Lawton's action with that of Shafter.

Addition to Dewey's Fleet.

WASHINGTON, September 19.—The advance guard of the naval expedition to Honolulu, which will eventually go to Manila, started yesterday, when the Abarenda sailed from Fortress Monroe via Brazil. The Abarenda is a collier, one of four which are to keep the big battle ships Oregon and Iowa supplied with coal on their long voyage around South America. The plan is to have two of the colliers precede the battle ships and two to go along with them.

In addition to these escorting crafts, Acting Secretary Allen today ordered that the Celtic and the Iris be added to the expedition. The Celtic is a refrigerator and supply ship and the Iris is a distilling ship. Their capacity is enormous, and Mr. Allen said that such a perfectly equipped naval expedition has never before sailed under any flag. With their large reserve supply of coal, with an abundance of refrigerated fresh meat and vegetables, with appliances and plant for making machinery and, finally, with an abundance of fresh water, the squadron will be able to keep the seas for an indefinite period of time.
