NOT ENCOURAGED.

Aquinaldo's Agent is Given No Satisfaction in Washington. WASHINGTON, October 8.—Senator Aguinaldo, the agent of Aguinaldo, the leader of the Philippine insurgents, who styles himself President of the Philippine Republic, is not very well satisfied with his experience in Washington, notwithstanding his asserting that he, his private Secretary have been treated courteously by every member of the administration with whom they have come in contact.

Senator Aguinaldo still says that he is going to Paris to try to get some sort of recognition from the Peace Commission, but that recognition having been denied him at Washington there is no probability of his getting it in Paris.

Investigation of the War.

WASHINGTON, October 7.—Three witnesses were before the war investigating commission today. General Greene, who participated in the battle at Manila; Colonel Lee, chief quartermaster at Camp Thomas, and Major Hersey, who was for a time in command of the Roosevelt Rough Riders, each gave testimony covering his experience, and while each one admitted the possibility of individual cases of suffering and discomfort, all said that in the majority of cases complaints were exaggerated, if not without foundation.

TO CURE NERVOUS DYSPEPSIA. To Gain Flesh, to Sleep Well, to Know What Appetite and Good Digestion Mean, Make a Test of Stuart's Dyspepsia Tablets.

Interesting Experience of an Indianapolis Gentleman.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think that their nerves are to blame, are surprised that they are not cured by nerve medicines and spring remedies; the real seat of mischief is lost sight of; the stomach is the origin to be looked after.

Mr. A. W. Sharper of No. 61 Prospect St. Indianapolis, Ind., writes as follows: "A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tablets."

Respectfully yours, A. W. Sharper, 61 Prospect St., Indianapolis, Ind.

Want a Winter Camp. New Entrance, Extra Hours For Barrooms During Fair Week.

JOURNAL BERNAL, Raleigh, N. C., October 8. Only 435 persons by actual count were in the Academy of Music yesterday to hear Senator Butler and Chairman Thompson speak.

Senator Russell with a party will leave here tomorrow or Monday and go to pay a visit to the 1st Regiment in Jacksonville before they go to Cuba.

Senator Pritchard recommends to the war department, Raleigh as a suitable place for this winter camp.

The Willard Hostelry Company of Whiteville will be moved here to be operated in a few weeks.

Ex-Judge Spier Whitaker goes to Porto Rico with his regiment the 6th regiment of immunes.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of Dr. J. C. Parke.

NEW YORK, October 7, 1898. The circumstances favorable to our business this week have been mainly the good condition of Trade in Europe—Liverpool having sold 81,000 bales during the six days—and reports from manufacturing centres on the continent are likewise favorable.

On the other hand receipts at Porto and Interior are enormously large and of course the inference is that there is plenty more behind when it is seen that rain and bad roads did not perceptibly curtail the movement.

Comparison with last year may be interesting in forecasting the course of the market for the present year. Then 104 millions was an outside estimate for the crop and so was regarded as a safe figure investment. But January delivery, which on 1st September sold at 6.87 dropped to 5.96 on the last day of the month and to 5.96 on the last day of October—making a decline of 1c for the two months. It was not regained again for a near position until February 1898.

The visible and invisible supply of cotton cannot be less than 24 millions, the consumption may be put down at 16 millions, therefore if we raise 11 millions there will be at least 8 1/2 millions visible and invisible left over and on hand not worked up as the close of the cotton year of 1898. Of course early frost may cut down the growing crop and liability of planters to put in so much for another year, must now be left out of consideration.

632,000 bales come late sight this week against 587,500 last year. ROBT MOORE & CO.

SOLDIERS IN PEKIN.

European Nations Send Men to Protect Their Legations. PEKIN, Oct. 7.—After the recent attacks on foreigners in the streets of Peking the foreign legations sent a joint note of protest to the Chinese foreign office and decided to obtain guards for the protection of the subjects of their respective governments.

At a conference of the foreign ministers it was decided to demand a special train for the purpose of bringing British, Russian and German guards to Peking.

A detachment of sixty-six Russian soldiers, with two seven-pounders, twenty-five British marines, and thirty German marines, arrived here today and marched through the city to the quarters assigned them. They will protect the legations of Russia, Great Britain and Germany. Large crowds witnessed the arrival of the European reinforcements, but there was no extraordinary incident.

The Chinese appeared to be alarmed by this demonstration.

The Indian Outbreak. ST. PAUL, Minn., October 7.—General Bacon and the men who fought under him on Leech Lake with Indians Wednesday, yesterday, returned this morning to Walker, and the General stated that he had whipped the Indians, but later developments seem to indicate that the situation has again become critical.

The General expected that the Pillager Indians would admit themselves beaten by dispersing, but this afternoon it seems a council was held, in which brasses from other branches of the Chippewa family participated, and much hatred of the whites was developed.

As a result of the new developments, General Bacon will remain in the Leech Lake country, and with him will be not only the hundred men of the Third Infantry, who fought under him, but also three other companies, which arrived here last night from Fort Snelling under Lieutenant-Colonel Harbach.

ADMIRAL SAMPSON III. WASHINGTON, October 7.—Admiral Sampson is a very sick man. His health is constantly falling and he is unable to do any work.

His life is in no danger and there is no immediate fear of his death. His trouble is a general giving way of the constitution under the strain of the past year, coupled with a chronic stomach complaint.
