THE VOICE OF BUSINESS.

The Wilmington Chamber of Commerce last Thursday took a decided stand in regard to the political situation in that city and county, declaring that while the Chamber is sensible that its province is commercial and not political, and disclaiming any intention to enter the sphere of politics, they as citi cens believe that good government and security to life and property are not possible under the present political negro rule regime.

The meeting was largely attended and great enthusiasm and determi nation were manifested. The resolutions in full as adopted are as

The meeting was presided over president James II. Chadbourn, who was one of the first to

He, however, yesterday declared himself in hearty sympathy with the resointions and several of his most intimate friends say that he has signified his futenticket at the approaching election.
