TERMS WITH SPAIN.

It is evident that the terms of peace with Spain will not be easily arranged. The main difficulty will be over the Philippines. Our commissioner, with the exception of Senator Gray, are determined, it is said, to demand the entire group of islands.

The Spanish commissioner, it is known, will resist such a demand very stubbornly. The Spanish press declares that Spain will never yield more than a coaling station in those islands. Here is a very wide gap and it is hard to see just how it will be closed.

Next to the Philippines the Cuban debt is the knottiest problem before the commission. Spain insists that we shall assume the debt she has incurred in Cuba, a proposition which is considered preposterous by our commissioners and our people.

What, then, will be the result? If the commission should fail to formulate a treaty, or the treaty should be rejected by either nation, there would probably be a renewal of hostilities at once. Even the most bigoted Spaniard must realize that such an event would mean far worse disaster to Spain than she has yet suffered.

It therefore seems that Spain must at last yield to whatever demands we may make. She will plead and protest, of course, but there is for her no other alternative than submission, unless in utter madness she plunges into the desperation of a futile resistance.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment.

Good looks are less than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look.

It is well known that Spanish soldiers in Cuba were poor marks men, but great surprise has been expressed at the remarkable lack of reputation which characterized their best shots, Guatanamo and Santiago, and an officer of the United States army, "Montgomery" has been able to throw some light on the matter.

SCRATCHED CONSTANTLY

Baby Betty Afflicted with Eczema. Medical Treatment Useless. Cured by Cuticura.

My little baby Betty had Eczema all over her face, so that she could not be washed, and she scratched her face so much that she was almost blind. I tried every remedy I could find, but nothing would do her any good.

Children in Cities.

A German educationalist, written on the subject of the poorer children of large cities, writes on that when they enter the schools at the age of six a large number of them have the perceptible family nose-developed that if they had been deaf and blind, there, at a Berlin elementary school 70 per cent. of the younger children had no idea of what a man's nose is, and 64 per cent. were equally ignorant about a mouse.

When you have a bad cold Dr. Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure.

Dr. Chamberlain's Cough Remedy, N. C., passed through this week en route to Beaufort and Pamlico counties where he goes at the request of the State and Congressional Executive committees to canvass in behalf of the Democratic ticket and Mr. John H. Small, Democratic candidate for Congress in the First District.

Truth wears well. People have learned that DeWitt's Little Early Risers are reliable little pills for regulating the bowels, curing constipation and sick headache. They don't gripe. F. S. Duffy.

Cholly—Her hair is bleached. Peggy—This false. Cholly—False hair can be bleached.

WOMAN'S HOPE. The only hope for many weakly women is Bradfield's Female Regulator. It is the one safe and sure cure to all stubborn and severe cases of Profuse, Irregular, Scanty or Painful Menstruation; Falling of the Womb, Leucorrhoea, Headache, Backache and Nervousness. It is a distinct remedy for the distinct ailments called "female troubles."

Useful Preparation. "The girls are all going in for gymnastics now," said Miss Point Breeze to young Mr. Homewood. "Aw, indeed! May I ask why?" "So as to be ready to jump at an offer of marriage."

How to Prevent Croup. We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no matter what else we run out of, it would not do to be without Chamberlain's Cough Remedy. More of it is sold here than of all other cough medicines combined.

Two of a Kind. New Sannels and small boys are apt to shrink from washing. Good looks are less than skin deep, depending entirely on a healthy condition of all the vital organs.

Not Recently. The Hymeneus—Poets, sir, are born. The Editor—Not in the last fifty years. Old fashions to dress may be revived, but no old-fashioned medicine can replace Chamberlain's Little, Children and Women's Remedy. For sale by F. S. Duffy.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may do a patient for years on their general and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took a course of every so-called blood purifier, but nothing seemed to reach the disease, and had no effect whatever. I was discouraged. At the advice of a friend, I then took S.S.S. and began to improve. I continued the use of S.S.S. until I was completely cured. I have never had a sign of the disease return.

It is like self-destruction to continue to take potash and mercury, besides totally destroying the digestion, drying up the marrow in the bones, producing a stiffening and swelling of the joints, causing the hair to fall out, and completely wrecking the system.
