THE STATE CAPITAL.

Atwater Endorsed by Democrats.
Call For Federal Troops. Negro Kills Another. News Items.

JOURNAL BUREAU.
Raleigh, N. C., October 25.—The Democratic Executive Advisory Committee for this the 4th District met last night and endorsed the independent candidate for Congress, Mr. Atwater. He has declared boldly against fusion.

The North Carolina Rolling Exposition car which has been making a tour over the North is here for the Fair. It has been very successful in its trip advertising this State to thousands of people.

The White Man's Convention to be held in Goldsboro on the 26th will be a tremendous one. Special trains and special rates will be furnished.

It was reported here last night that Russell, Pritchard and others had asked for Federal troops to be sent into North Carolina to control the election on November 8th. It is said that Corbin states that if troops are sent they will be ordered from Atlanta, and will be northern regiments. The Second Regiment here will not be used as too many of them are in sympathy with the white voters.

There is scarcely the shadow of a doubt but what there will be more or less trouble all over the State, and very serious trouble is looked for in the eastern sections.

The trouble at Asheville has about quieted down. Here in Raleigh there have been no threats made, and things are moving on quietly.

The 1st North Carolina Regiment has left Jacksonville, and gone to Savannah to be ready to embark immediately for Cuba.

The parade of the Fair marshals, etc., today was a fine one. It was a great bit of Chief Marshal Dreury to have marks of honor or lady marshals.

Governor Russell it is said will issue a proclamation warning the people to preserve good order until after the election.

It is said that the Democrats would want no surer success, than will be their should federal troops be sent here.

The program is for Senators Pritchard, Butler and Mon. O. H. Dockery to speak at Wilmington on next Saturday.

Out in Wake county there were two negro men who became engaged in a dispute, and it ended in Alonzo Hinton striking Lucius Mial in the head with an ax and killing him. He was committed to jail without bail.

It will require about \$80,000 to make the last payment of the Second Regiment. Each company will average about \$6,000.

The French Press.
PARIS, Oct. 24.—The newspapers here today warmly praise the exposition of the French side of the Fashoda question presented by the minister of foreign affairs, M. Delcasse, in the Yellow Book on the subject issued yesterday.

The Figaro says: "If the British government rejects France's moderate and just proposals it can only be because the government of Great Britain desires before everything else the humiliation of France."

SERIOUS OUTLOOK.

Pretense that Troops Are Needed in North Carolina.

Cabinet Discusses the Matter. Pritchard's Letter. Russell Call For Them. Effort to Brace Up a Perilous Hope.

WASHINGTON, Oct. 24.—It is said, on high authority that Senator Jeter U. Pritchard, of North Carolina, who was in the city yesterday, has made representations at Republican headquarters to the effect that there is grave danger of a race war on election day, and stating that Federal troops may be needed to preserve order.

It is said he has written to Chairman Babcock, of the Republican Congressional Committee, with reference to the matter.

The Evening Star, a recognized organ of the administration says this afternoon: "The possibility of having to send Federal troops into North Carolina was discussed at the White House by the President at an informal Cabinet meeting this morning. The gravity of the situation in that State is felt by administration officials here, and nobody knows what may be the outcome."

"Senator Pritchard has written a letter to Republican officials, picturing the situation there, and saying that Governor Russell may have to call on President McKinley if there is not a change in the situation. He says that the State troops are in the government service, and not many are available to quell prospective riots."

"There were with the President, Attorney-General Griggs, Secretaries Alger, Long and Hay. The facts as set forth by Senator Pritchard were discussed. Of course the President has no power to send Federal troops to North Carolina until the Governor has made requisition for them and sets forth that he is unable to handle the situation with the forces of his command. The President desires to do nothing to give the appearance of using Federal troops at election times, when their presence might affect the election."

The letter of Senator Pritchard was written before the riot near Lumberton, N. C., yesterday, and is based on the intense race prejudice and the wholesale purchase of arms. The Senator sees trouble ahead. The white people have bought arms in large quantities and the colored people are buying them wherever purchasable, although it is charged that the merchants, a majority of whom are Democrats, will not sell weapons to the colored people.

"After the talk at the White House Chairman Babcock of the Republican Congressional Committee saw the President about the outlook in North Carolina. He apprehends trouble on election day and probably earlier."

"So far there has been no extensive rioting in the State. Gov. Russell did not call for Federal troops until the rioting had actually occurred, and he was able to show that he had exhausted all the efforts of the State to suppress it. The expectation is that the trouble may be kept in hand until election day. Wise and cool heads in all the parties in North Carolina are working to prevent fighting at the polls and hope to succeed, but the information of all kinds coming here is that bloodshed can hardly be prevented on election day."

Peace Jubilee.
PHILADELPHIA, Oct. 25.—The big peace celebration began officially at 6:30 this morning, when the warships anchored in the harbor, dressed ship and saluted the flag with guns.

There was a heavy fog at sunrise, which soon cleared, and the day was an ideal one.
Multitudes of people lined the river at 9 o'clock. Secretary Long arrived soon after noon.
The city wears carnival garb. On the down-town streets, which are jammed with surging crowds of sight-seers from this and other cities, there is scarcely a building which does not flaunt a display of bunting, while many of the larger edifices are ablaze with electric illumination.

That Common Trouble, Acid Dyspepsia or Sour Stomach.
New Recognized as a Cause of Serious Disease.
Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.
Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Storer's Dyspepsia Tablets, and is now becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.
Storer's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package. It is prepared by the Storer Chemical Co., Marshall, Mich., and while it promptly and effectively restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion, strengthens the stomach, improves the appetite and makes life worth living.
