New Berne, N. C., Oct. 28, 1898.

And the mountain, (Russell) groaped, and brought forth a mole (of a political proclamation,)

The immense increase in negro registration in Buncombe county is alarming. As long as Russellism and Butlerism continue, so long will Negroism increase and thrive, and drive out the Anglo Saxon, who will not live in a State where the negro controls his commercial and social present and future condi-

CANNOT STAND CONDITIONS.

The public letter of Mr. Samuel Bacon, published recently in these columns, shows most plainly how Russellism affects commercial interests in North Carolina.

No State has better or more inviting openings for men with money, brains and energy, but men with these combinations are not going to rush in and invest in any State where such political conditions exist as they do today, under the present State administration, in North Carolina. And not only will men and money be kept away, but those now in the State who can leave, will do so, and like Mr. Bacon will do so, even if they have to sell their property at a sacrifice.

So far as the young men are concerned, especially in Eastern Carolins, there are no prospects for them, no inducement for them to remain at home, for with pegro rule, there can be no develop-

An example of this was told the JOURNAL, a prominent lady, the wife of a prominent merchant of this city, saying that she was going to send her son away from here to engage in business, as soon as he finished at school.

If home people are disturbed by local conditions, can it be expected | See that your little ones are protected that outsiders will rush in and invest their money?

And the negroes, thomselves, how long can they exist without the white man's support ?

The negro has no property to sell and then leave the State, he must remain no matter what happens, and so must some of the white people, for it is impossible that all can leave, no matter how much worse conditions become.

The only remedy is for the white men to stand together, and thereby overthrow Russellism and its attendant train of evils.

And November 8th will see the insgaration of White Supremacy and honest government in North

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pro-nounced & a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment pronounced it incurable. Science has preven catarrh to be a constitutional disease, and therefore requires consti-tutional treatment. Half's Catarrh Cure, manufactured by F. J. Chenny & Co., Toledo, Ohio, is the only constitutional core on the market. It is taken internaily in doses from 10 drops to a tea-apoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and estimonials. Address.

GOVERNOR'S PROCLAMATION. The Governor of North Carolina has fessed a proclamation, and his rivate secretary, the Reverend fajor Cade, has put bie o. k. upon

t. It is preceded by a wealth of bereases, and in its final analysis ft is instruction to the white people of the east to lie down. We feel justified in saying that they are not going to do it. They have borne themselves with wonderful prudence and forbearance, and executive proclamations nor anything else is likely to swerve them from the assertion of their riguts.

This bluff will not go. The white people are determined to carry North Carolina this year and Russell need not think he can scare them out of this resolution. They will obey the law, but they will carry the State, just the same .-Charlotte Observer 26th.

A Narrow Escape. Thankful words written by Mrs. Ada E. Hart, of Groton, S. D., "Was taken with a bad cold which settled on my lungs, cough set in and finally terminated in consumption. Three Doctors in Consultation.

From Benjamin Franklin. "When you are sick, what you like best is to be chosen for a medicine in the best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experi-ence and Dr. Reason to hold a consulta-tion together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. matter what else we run out of, it would Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the than of all other cough medicines combined.—J. I began to study Latin, Greek and mathematics with a class of boys in the academy, many of whom were much older than I. Two prizes were offered in Greek. I strove for one and took the second.

table and excisimed:

"There! I got it!"

He took up the book and asked me some questions. Then he kissed me on the forehead and exclaimed, with a sigh:

"Ah, you should have been a boy!"

One of the first things I did the morning after my arrival at Gibraltar, says Professor Simon Newcomb in The Atlantic, was to choose a convenient point on one of the stone parapets for "taking the sun," in order to test the running of my chronometer. I had some snapleion as to the result, but was willing to be amused. A sentinel speedily informed me that no sights were allowed to be taken on the fortification. I told him I was not taking sights on the fortification, but on the sun.

fortification. I told him I was not taking sights on the fortification, but on the sun. But he was inexorable. The rule was that no sights of any sort could be taken without a permit. I soon learned from Mr. Sprague, the American consul, who the proper officer was to issue the permit, which I was assured would be granted without the slightest difficulty.

The consul presented me to the military governor of the place, General Sir Fenwick Williams of Kars. He was a man whom it was very interesting to meet.

wick Williams of Kars. He was a man whom it was very interesting to meet. There was no need of troubling him with such a detail as that of a permit to take sights, but the consul ventured to relate my experience of the morning. He took the information in a way which showed that England in making him a general had lost a first class diplomatist. Instead of treating the matter seriously, he professed to be greatly amused and said it reminded him of the case of an old lady in Punch who had to pass a surveyor in the street behind a theodolite. "Please, sir, don't shoot till I get past," she begged.
