POLITICAL SITUATION.

Negro Rule in North Carolina and Reasons For Its Overthrow.

We offer no predictions as regards the
race crisis in North Carolina, further
than to express the opinion that the
whites are fully justified in their resent-
ment against the existing situation and
the belief that, in one way or another,
they will put an end to it on Tuesday
next. As we have already explained in a
previous article on this subject, the tax-
paying, property-holding classes in the
State are repeating the experiences of
thirty years ago, and, as one may easily
conclude in the light of past events, they
will emerge from them by the same
methods and with the same results.

It is all very well for the people of the
North and East, dwelling under the
operation of a secure conservatism, their
local interests wisely administered, their
property and their civilization beyond
the reach of peril. It is all very well
for these people to hold up their hands in
pious horror at the mere mention of
violence and to deplore the so-called
wickedness now rampant at the South.
But we should like to call their attention
to the predicament of one county (Craven)
in North Carolina, and to ask them how
they would relish a similar condition of
affairs at home. Our letter from there
published in Saturday's edition of The
Post says:

"There is no question that this is a
negro-ridden country. The list of negro
office-holders includes the register of
deeds, two deputy registers of deeds, four
deputy sheriffs, coroner, four constables,
twenty-seven magistrates, county commis-
sioner, one member of the board of
education, thirteen school committeemen,
three road overseers, city attorney,
three city aldermen, and four policemen.
The future representative of the county
in the Legislature is a negro, who has
been convicted of forgery, while a ma-
jority of the other officers on the ticket
are also negroes."

Here we find in a county whose total
population is 12,000, sixty-six negro of-
ficials, one of them a convicted felon, and
the others indelibly stained by associat-
ing with and recognizing him as a suit-
able person to hold office. The whites
own ninety-five hundredths of the prop-
erty, pay the same proportion of the
taxes, and represent practically all the
culture, civilization and intelligence. But
it appears that in nearly every respect
in which their most important interests
are affected by local government, they
are at the mercy of negro officials who
have nothing to lose by anarchy and
who stand for nothing in the social
scheme. Of course, the people of no
county in Massachusetts or Pennsylv-
ania would ever have permitted the
voluntarily to attain such a sinister devel-
opment. At the first menace of negro
domination in politics, they would have
ushered in the regime of self protection
and killed the evil at its root. They
know this to be true, whatever they may
say to the contrary under their present
sense of safety. The white people
throughout the country know it is true,
and we know they know it. The ques-
tion is not debatable.

Just how the situation has been
brought about, we shall not stop to con-
sider. That the whites are largely to
blame, we do not dream of denying. But
the facts exist, and we can easily believe
that they create a prospect which no in-
telligent and responsible citizen of North
Carolina—be he Republican or Democrat—
can bring himself to tolerate. Party
enthusiasm, greed of office, the tricks of
frowny demagogues, the recklessness of
fools and knaves—these motives will
always push their victims to greater or
to less extremes of action. But there is
a limit to even the most vicious tenden-
cies of man, and that limit appears to
have been reached in North Carolina. It
has become necessary, after twenty years
of uninterrupted peace and Christian
civilization, to teach the Southern ne-
groes that they cannot rule over the
property and the destinies of the super-
ior race, and that lesson will be taught
on Tuesday next, we solemnly believe.
It is our conviction, moreover, that the
teachers will have the sympathy and ap-
proval—whether avowed or unavowed—
of the whites throughout the land.

The New York Campaign.

New York, November 4.—Talk as
loud as the leaders might and listen as
extraneously as they could, the bidding
for the most part today was on "even
terms, though the odds closed at about
10 to 5 on Van Wyck.

A note of anxiety was detected on
both sides in the boats that filled the city.
Colonel Roosevelt delivered numerous
speeches in the city today to enthusiastic
crowds, especially in Brooklyn.

Richard Croker continues to be in the
public eye. Friends of Colonel Roosevelt
have brought forward the charge that
Mr. Croker had also sworn off his personal
taxes in 1895. Mr. Croker ad-
mitted it. He says he did not have \$25,
000 worth of personal property at that
time and the mortgage for \$25,000 on his
house covered that. His house, which
was in England at that time, he does
not count as personal property.

Negro Policemen for Raleigh.
Sensational Story From Wil-
mington. Governor Rus-
sell Will Not Vote.

JOURNAL BUREAU.
RALEIGH, N. C. November 7. }
The Populist State Chairman has is-
sued over 225,000 State tickets. It is es-
timated that there are of the different
State tickets 10,000 sent out for every
one that is voted.

Of course everything is waiting for to-
morrow when so much depends upon
how the white men vote. There is the
danger where many will think their vote
will not be needed, and thus "White
Supremacy" loses.

A Republican here said yesterday that
if his party controlled the legislature
that there would be negro policemen
here in this city. That statement of it-
self ought to arouse every white man in
the city.

A few days ago Republican Chairman
Holton said they would have 38 or 40
out of the 50 senators. Yesterday a close
friend of Holton's was overheard to say
that Holton "thought" they would have
28 senators. His "thoughts" will shrink
during today and tomorrow.

A large percent of the business houses
will close tomorrow. The polls will be
closely watched and woe to any man who
is illegally registered and attempts to
vote.

In Wilmington it is said that the cooks
have threatened to poison the families
of Democrats, and news has reached here
that it is determined among the "white"
men there, that at the first note of alarm,
they will go to their kitchens, and shoot
the cook. Of course this is an exagger-
ated report and yet some may feel just-
ified in doing so.

Governor Russell will not put his neck
into danger so he will not go to Wil-
mington to vote. He too fully realizes
that his life would be the first sacrificed
if trouble came and he was within reach
of the infuriated people of Wilmington.

Ex-Governor Jarvis said this morning
that the Democrats would carry the
House by a big majority, and the Senate
by a safe majority, and that the judicial
ticket would go Democratic by 5,000.

Populist State Chairman Thompson
has kept on the stump to the last. He
spoke at Durham today.

Ex-Chief Justice Shepherd, Democrat,
says he can only speak for the 1st Dis-
trict and that things look very well in-
deed for Democracy.

SPAIN ONLY FOOLING.

Who Does Not Desire Us to Break Off
Philippines Are Lost to Her.

WASHINGTON, November 7.—To break
off the peace negotiations is the very
thing that Spain does not desire to do.
That was made fully apparent in the
answer of the Spanish Commissioners,
declining to consent to our demand for
the whole of the Philippines. Spain
wishes to get as much money as it pos-
sibly can from us, for the Philippines, and
if the negotiations are broken off, it
would not get a cent, while we would
get the Philippines just as surely as we
would if the treaty was regularly con-
cluded. There are good reasons for the
belief that Spain would object most
decidedly if our Commissioners should
withdraw their demand for the Philip-
pines, which they are not likely to do,
and substitute a proposition that the
islands should be returned to Spanish
control. One of them is that a return
to Spanish control would be a physical
impossibility, owing to the strong in-
surgent army of Aguinaldo, which would
be in absolute control of the entire group
of islands within a week after the with-
drawal of the American forces. Spain
knows that the islands are lost to her,
and even if she did not expect to get a
money indemnity from us, would doubt-
less prefer seeing them controlled by the
United States to seeing them controlled
by the insurgents. So far as can be
judged by appearances, the President
and the members of his Cabinet are per-
fectly satisfied with the situation in
Paris. In fact, members of the Cabinet
have said as much, and added their ex-
pectation that the treaty would soon be
concluded upon our terms.

MAKING A MISTAKE

WASHINGTON, Nov. 7.—Lieut. Bob-
son, who is in Washington, could
scarcely restrain his tears when he
received the news of the sinking during
a storm, of the Maria Teresa, the Span-
ish cruiser he raised, while on his way to
New York. Many regrets have been
expressed by others, especially Naval
Officers. The Teresa was down off
San Salvador in a big storm.

FIRE AT CAPITOL.

Part of Great Marble Building at
Washington in Ruins.

WASHINGTON, November 6.—Like the
eruption of a volcano came an explosion
in the Capitol building this evening at
8.13 o'clock.

The Supreme Court room and the
rooms immediately adjoining on the
main floor of the Capitol were totally
wrecked. The money damage is exten-
sive, but far more than that will be the
loss to the Congressional Law Library.
This Library was located directly be-
neath the Supreme Court Room. It con-
tained 30,000 volumes, and its value was
estimated at over \$1,000,000. A great
many of the volumes were destroyed by
fire or the floods of water poured into
the Capitol.

A heavy explosion, which was heard
several blocks from the Capitol, took
place, and immediately afterwards flames
burst from the windows of the Con-
gressional Law Library in the basement,
and a few minutes later from the Supreme
Court room.

Within a few minutes after the arrival
of the fire department the flames were
under control, although as a precau-
tionary measure streams were poured into
the marshal's office, the library and the
subterranean basement for two hours.
The firemen were unable, however, for a
considerable time to extinguish the
flame of gas which shot out of the four
inch main in the meter room. From this
main the fire swept through an orifice in
the basement floor caused by the explo-
sion and attacked the consultation room
of the Supreme Court justices on the
main floor. Some damage was done to
the furniture and fittings of this room,
but it was inconsiderable as compared
with that done elsewhere.

It was evident that the fire could not
be extinguished until the gas from the
main was cut off. That this might be
accomplished the firemen turned two
streams upon the main, choking the flow
of gas and at the same time cooling the
pipe. Electrician Clien, braving the in-
tense heat, entered the meter room and
cut off the gas at the floor valve of the
main.

Manila Insurgents.

MANILA, Nov. 4.—The latest news
from Iloilo is that the rebels are ad-
vancing and the Spaniards are retiring
before them. The foreigners are afraid
the rebels will attack the town.

Admiral Dewey has sent the Charles-
ton and the Concord to protect foreign
interests at Iloilo.

The Isla Negros has been taken by the
rebels. It is rumored that some of the
Spaniards are prisoners there.

The health of the American troops is
improving. The heavy rains are over.

Maria Teresa Lost.

WASHINGTON, Nov. 5.—The Infanta Ma-
ria Teresa was lost during a heavy gale
Tuesday night, 30 miles north of Wat-
ling's Island, in the Bahamas. She sunk
in 2,600 fathoms of water. All the crew
was saved.
