Fresh Flour, Butter, Cheese, Coffee, Hams and Breakfast Bacon Arriving Daily.

**JOHN DUNN,**  
POLLOCK STREET.

### A MILITARY GOVERNMENT.

The New Colonial Policy. No Reason for Extra Session of Congress.

WASHINGTON, Nov. 21.—The talk of Representative Daisell, of Pennsylvania, who is Speaker Reed's right hand man in the House, does not bear out the opinion expressed in some quarters that a clash is likely between the Speaker and the administration on the colonial policy. It is generally understood that the administration wishes the colonies to remain under military rule at least a year before Congress attempts to legislate for them. In reply to a question as to whether he thought immediate legislation would be necessary, Mr. Daisell said: "I do not. I think it would be just as well to let the matter lie for a while. We should have time to study the situation and to determine what sort of legislation is needed. We can run along with a military government until the conditions are thoroughly understood."

There is a rather strong opinion among members of Congress now in the city that there should be no cause for an extra session of Congress in the spring. They think it would be unnecessary, unadvisable and undesirable. Routine matters can be disposed of before March 4, they say, while new subjects demanding more extensive consideration can be postponed until the regular session of the Fifty-sixth Congress. This includes legislation for Cuba, Porto Rico and the Philippines. It is announced, however, that the friends of currency reform legislation have determined to make an effort to have a special session for the purpose of dealing with this subject.

### Virginia's Colored Regiment.

MACON, Ga., Nov. 20.—The sixth Virginia (negro) Regiment, which caused much trouble at Knoxville, is detained under arrest in camp Macon, all arms and ammunition having been taken from the men. They are guarded by a battalion of the Tenth Immunes, also negroes.

About midnight last night about 80 soldiers of the Sixth Virginia broke through the lines at camp and started to town with the avowed purpose of killing white provost guards, each man being armed with a rifle and a belt full of cartridges.

Information concerning the action of the negroes was sent to provost headquarters and General Wilson ordered Colonel Galliard and the Third Engineers out to arrest the negroes. The engineers, doublebacked after the men of the Sixth and found them riotous and disorderly.

Further trouble is feared when the Six is released from punishment.

### Drayfus Treated Better.

PARIS, Nov. 20.—The unfortunate Drayfus seems to be nearing the end of his period of probation. It now appears fairly certain that he will be brought back to France within a short time. Already the severity of the regimen to which he has been subjected is relaxed. In case he does return here in all probability he will be confined in the civil prison, and not in the military one of the Cherche Midl. This is because, after his degradation, Drayfus comes under the jurisdiction of the civil authorities.

The government has just ordered that Drayfus is to be allowed to promenade and exercise six hours a day over an area of eight acres at his island prison.

### Spain's Queen.

LONDON, November 20.—A startling report in regard to Spain's future government is current in diplomatic circles and, from its source, is entitled to weight. The Queen Regent is said to be convinced of the hopelessness of her son ever reigning, and upon the advice of the Emperor of Austria, has decided upon after the peace treaty is signed at Paris, to quit Spain with her family, and Don Carlos will be proclaimed King. According to the programme Don Carlos, so soon as things are running smoothly, will abdicate in favor of his son, Don Jaime.

### Two Billion This Time.

WASHINGTON, November 21.—It is regarded as reasonably certain that the fifty-fifth Congress will, before the close of the last session, soon to open, appropriate more than two billions of dollars. It has already appropriated almost one billion, and the war expenses that must be provided for at the last session, leave little doubt that the two billion mark will be reached. But there will be no political cry raised against any appropriation made necessary by the war.

Private James E. Sewers, of the 1st New York, told the war investigating commission that the reason the regulars fared better than the volunteers in the Cuban campaign, and elsewhere, was that the regular officers took care of their men, while the volunteer officers took care of themselves. He is the first private who has told the Commission that, but thousands of them have told the same thing to their friends.

### CROPS TOO LARGE.

Not Enough Convicts to Work State Farms.

Iron Company Incorporated. Thanks giving Debate. Dockery Still Talking. Judge Appointed to Succeed Green. Big Cost to Government.

JOURNAL BUREAU.

RALEIGH, N. C., November 21.

The Greensboro Iron Company has been incorporated by the Secretary of State with a capital stock of \$185,000. It will mine smelt and work iron ores any way deemed best, it can also deal with coal, lime stone and any other mineral products as may be considered profitable.

Superintendent Newborns of the penitentiary says that his crops, this fall are so immense that he scarcely has convicts sufficient to harvest them. His estimate is from 3,300 to 4,400 bales of cotton; 10,000 to 15,000 bushels of peanuts; and 18,000 to 22,000 bushels of corn. This is on the six State farms. Life prisoners and the Federal prisoners cannot be sent outside of the prison walls (except as they take "French leave") as they are at work in the shirt factory.

The annual Thanksgiving debate between Trinity and Wake Forest college students will be held in the Academy of Music here on the evening of the 24th. The subject of the debate will be, "Should the United States adopt a Policy of Territorial Expansion?" Trinity will oppose expansion and Wake Forest advocating it. The Raleigh Chamber of Commerce is having made a handsome silver medal and decorated with the colors of the two colleges, Navy Blue—Gold and Black, and it will be presented to the winning side to be held by them until they are defeated in future debates.

The news of the death of Mrs. Annie H. Faison, widow of the late Col. Paul F. Faison was a shock to the entire community on Saturday. Her health was feeble, and she had gone to the Western part of the State hoping to improve. Ten days after leaving here, her body was brought back for burial. She was a daughter of the late Judge George H. Badger. She leaves five sons and two daughters, Mrs. Tarope of Granville and Mrs. Ed. Chambers Smith of Raleigh.

"The Monday Evening Club" met this evening at the home Judge Walter Montgomery. It was "Greek Evening" and the paper prepared by Mrs. Charlotte Williamson on "General Velv of Greek Social Life", including education and business habits, amusements, entertainments, streets, trades, professions, etc. was most entertaining.

Jim Booker, the murderer of Mahaley White, both colored, is sentenced to hang January 18th, 1909, in the jail yard in this city.

The corner stone of the handsome church to be erected by the congregation of the Good Shepherd Church, will be laid on the 25th Anniversary of this church, the 15th of February next.

U. S. Marshal Dockery is quoted as saying that if he had the brain and legal training that Governor Russell has that he would allow the Democrats to impeach him and then go north and open up a law office as an impeached southern governor, the last remnant of Republicanism in the south. Dockery says that it would be a big card for Russell. He also declares that if the Democrats will only disfranchise the negro that the Republicans will form their proposed "Lily White" party and be in power again in less than five years.

Governor Russell has appointed E. T. Justice of McDowell county Judge of Superior court of the 15th district to succeed the late Judge Green. Judge Justice is a Democrat and Republicans declare Russell has done this to conciliate the Democrats and thus save impeachment proceedings. It is said he and Senator Prichard had hot words in Asheville last week because he would not appoint Prichard's father-in-law, Mr. Honaman to this judgeship. This Prichard denies.

All the election returns are in, and the Secretary of State will soon begin to canvass them. It will take several days to complete this work.

On Wednesday the field and staff officers of the 1st Regiment will be mustered out here. It is said this regiment has cost the government over \$500,000.

British Ship Lost.  
YARINA, Ont., November 20.—In a wreck five miles south of Alsea of the British ship Alstara, Capt. Charles McRish, bound from Toronto to Cape Town, South Africa, with wheat, tinned food and other cargo, including all the officers of the ship. Only three sailors survived.

The Alstara was an iron ship of 1,200 tons net register, built at Glasgow in 1881. She belonged to H. Hill, Greenock.

### WILLIAM IS NOTHING.

Emperor changes His Proposed Visit to Spain. The Peace Commissioners.

WASHINGTON, Nov. 21.—Inside information from Europe concerning the back down of the Emperor William from his bluff, intended to make Spain and this country believe that he was about to take a hand in the disposition of the Philippines, is the cause of much quiet amusement in diplomatic and official circles. This bluff was the Emperor's announcement of his intention to visit Spain, on his way home from the Ifay Land; an announcement that resulted in an unexpected stiffening of the backbone of the Spanish Peace Commissioners; but did not change the American policy a hairsbreadth. The backdown which has made him the laughing stock in every capitol in Europe, except his own, was his announcement that "on account of the weather" he had abandoned his visit to Spain. The "weather" in the case was a straight tip that his intentions towards Spain were of no more consequence to the United States than the presence of those German warships in Manila Bay were to Dewey, and would have no more effect; and that he was looking for trouble he could find it by meddling in any way with Uncle Sam. It is stated by members of the administration that Spain has been notified that our demand must be accepted or refused in a given time, but the time is not given. In political circles it is stated that an agreement has been reached between the peace commissioners in Paris.

### TO CURE A COULD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.
